HF broadcasting is a joke in the era of the internets.

"BRACING FOR THE WORST"

"In fact, the earnings report was so dismal that it shocked industry analysts and led to yet another drop in Citadel's already sagging stock price, pushing it further into penny stock territory. Given a brutal outlook for the radio business and its own particularly alarming financial future, the company was forced to write off an unexpectedly large portion of the value of its stations, sending investors running for cover. UPDATE: as the trading day continued, CDL shares were pounded even further, closing down $1.46 at $2.40 a share (a 38% loss in just one day). Volume was a heavy 11.5 million shares (405% higher than normal) and Citadel's total market cap loss for the day was a staggering $385,000,000. As recently as 2003, Citadel shares traded as high as $23.00"

I'm a late-night MW listener.

My radio picks up a strong 60 cycle hum
any time it's "off station".

I'm not near any hi-tension lines.
I don't think it's a power-company prob.

If I walk around the house with radio,
the noise is louder in ome spots than in others.

Only possibility I can think of;

1. Inadequate ground rod for house wiring ?

2. We have a post-lamp out front controlled by electric eye.
(noise from controller ?)

Any ideas on how to isolate ?
How to eliminate ?

Your skepticism about whether the KWZ 50 will actually appear is
certainly understandable. Man it's been a long time in the
works...almost as long, I guess, as the E1 was! But I think it will
see the light if day. At this point it sounds far enough along that
it'd be more expensive to pull the plug on it than to roll it out.

"Trade show proves radio's in very serious trouble"

By: Art Vuolo

Today, I am back home from a whirlwind tour through the largest trade show in the country. If you ever wondered where Simon & Garfunkel got the inspiration for their hit song "At The Zoo," I can assure you it was probably at the Consumer Electronics Show in Las Vegas. I have been attending this event for nearly 30 years, but this one was different on a number of levels.

After consulting with several attendees, I came away with a few observations. There were far too many people. It attracted over 140,000 people. The worst part was that (seemingly) nobody cares. People are so into their own world with all of their technological gadgets that they are oblivious to those around them. If you've ever been in a store wondering when someone would ask if they could help you, or felt you knew more about the product than they did, you will know what I mean.

For someone like myself, with a profound love and passion for radio, the 2008 CES proved once again that our beloved medium is in very serious trouble. Interestingly, the satellite radio folks, who at one time maintained some of the largest, costliest and most elaborate displays in the North Hall of the Las Vegas Convention Center, were nearly non-existent last week.

Sirius was buried in a car stereo display with just a handful of representatives, and XM was relinquished to small corners of the Delphi and Audiovox booths manned by personnel unable to answer any questions beyond the most basic. It was very disappointing.

We are living in a visual era, and radio is finding itself needing to market more heavily and make far better use of their most visible asset, their Web site. Webcasts, podcasts and other means for radio stations to make themselves available to the listener on their schedule is quickly becoming the norm.

It was a 40-minute search to find the iBiquity booth with the latest innovations for HD Radio. After speaking with company president Robert J. Struble, he shared my feeling that unless local stations start putting some thought and financial backing into programming content that people actually care about, HD Radio could be facing an up-hill road ahead. Technically, it's great but what comes out of the speaker needs work.

The announcement from Ford Motor Co. that they will start supporting HD was welcomed news for the iBiquity camp, but since most major radio companies are slashing budgets and cutting highpriced talent on their primary frequency, how can we expect they'll support those "hidden" secondary channels?

Troy-based Delphi, despite local downsizing, still maintained an impressive display, but the emphasis was more on services like On-Star and XM verses how good their AM/FM audio systems, in new General Motors Corp. cars, actually are.

Many of you know that I produce a great deal of video about and for radio stations, and the big buzz in video, was the announcement that major support from the film industry seems to be in favor of the Blu-Ray DVD High-Definition format. CBS Radio news recently said "Remember Beta vs. VHS? Well, déjà vu, except this time it's blue (as in Blu-Ray) vs. HDDVD." The mantra at the CES seems to be," if it's six months to a year old, it's ready for the antique fair or the garage sale." This is why so many of you are afraid to make major purchases in electronics goods.

What is in store for radio? Well, according to some experts, your favorite stations may be coming to you -- in the not so distant future -- via your cell phone. In fact, the number of services cell phones will soon deliver is downright scary. Personally, I just wish I could have fewer dropped calls. Tony Novia, a longtime radio programmer and format editor for industry trade Radio & Records is pumped about the cell phone applications. In upcoming weeks, I will have more for you about this new concept.

The big electronics show for this year is history, but as new things develop, I will attempt to stay on top of the news. But right now, my feet still hurt and my legs are sore. Each year, I keep hoping more radio people would attend so they can see and hear what lies between their tower and your ears. I ran into a few, including all-news WWJ-AM (950) auto reporter Jeff Gilbert.

On the local scene, one of the big stories is the appointment of Tom Bigby as the new operations manager of sports WXYT-FM (97.1) and AM (1270). Oddly enough Bigby was a DJ at WXYZ in their music days back in the 1970s. He was most recently program director at Philadelphia's sports powerhouse WIP-AM (610). Another odd twist, WIP originated the on-air chicken wing eating contest, that "Deminski & Doyle" made famous on 97.1 FM during the WKRK days. Where might all this lead?

It leads me to the end of my first column of 2008. How lucky for me to have it on the 13th.

Sounds like a digital transmission mode like AMTOR. If it is it should
be two tones. If you were in the right sideband mode and tuned to the
right frequency it would sound like a digital mode to you. If this
signal is heard throughout the band then made you are close and your
radio is overloaded.

Wow, that's a great option. I'll have to think about that one. I could probably put it in office of someone that has a window no problem.

The recorded stuff is great but I have all the music I need. I have a Napster subscription and can download stuff at home and play it offline. One of the morning stations I listen talks about current events and gives me a couple of laughs in the morning. Then in the afternoon I like to switch on to the sports station. I guess I could listen to them a day later worse case.... :-)

I did find some good instructions on constructing a dipole antenna which I may try:

Nope.

Maybe digital but guaranteed NOT to be AMTOR, PACTOR OR G-TOR. These are
"linked" modes, with a pause between transmissions to wait for the ACK
or NAK from the other station. All of the TOR modes sounds sort of like
a cricket -- nothing at all like the signal in question sounds.

You think radio is for losers.

You think radio is "fucked".

Yet you hang out here and have posted 592 messages since 8/17 about a
loser and "fucked" topic. Pardon me for asking, but wouldn't that make
YOU a loser and "fucked"?

Perhaps the confusion begins with a similar sounding set of words:

'vice versa', but that, also, isn't correct usage in this case.

Ok, I did more digging...It appears I am a lot closer to the truth than
you are.

==========
It is a common misconception that Nelson's last words were, "Kiss me,
Hardy", spoken to the captain of HMS Victory, Thomas Hardy. Nelson did,
in fact, say these words to Hardy a short time before his death.
Eyewitnesses testified that Hardy kissed the admiral twice: once on the
cheek and once on the forehead, as Nelson struggled to remain conscious.

Prior to this Nelson asked his flag-captain not to throw him overboard and to look after 'poor Lady Hamilton'. He then said "kiss me Hardy". After Hardy's first kiss Nelson said, "now I am satisfied". After the second, "who is that?". When he saw it was Hardy he said, "God bless you Hardy." However they were not his last words as Hardy was not present at his death, having been called back on deck.

Does your network permit VoIP? I run a radio that accepts SIP calls; you can select a high-bitrate codec if you want HiFi or low bitrate if your bandwidth usage would trigger alarms. Why not set up a remote controlled radio (at home or elsewhere) and access it as a phone call?

Two years ago I wrote Robert Sherwood of Sherwoood Engineering
to clarify some points. Will had asked me some questions and I
decided to verify my thoughts on receiver measurements. While I
was comfortable with my facts, I wanted to be certain of everything
before trying to explain technical terms to a non technical person.

<><><><><><><><><><><><><><><><><><><><><><><><><><><><><><><><><><><><>

Noise Floor(dBm): The signal level required to produce a S+N/N of
?10?dB

REPLY: Sensitivity is 10 dB S+N/N. Noise floor is 3 dB S+N/N.

<><><><><><><><><><>

AGC Threshold: (uV) and XdBm

REPLY:" Yes. I put in a -33 dBm (5 mV) signal, and set the audio
output to reference. Then drop the signal level until the audio
drops off 3 dB. This is the AGC threshold. Some radios have a
less stiff AGC, and the drop off may be more than 3 dB before
the AGC runs out of steam. The table lists the dB point, be it 3
dB or some larger number. Usually the S meter has just started
moving at the AGC threshold." RS

<><><><><><><><><><>

100KHz Blocking /Sensitivity (uV):(Higher dB at lower uV is better?)

REPLY: These are not tied together at all. Blocking number should be
120 dB or greater. Having adequate sensitivity is has not been an
issue
since the 50s, but a reasonable nominal value would be about 1/4 uV
in
SSB mode. With any modern quality radio, galactic and man-made noise
is usually higher than the sensitivity rating of the radio.

This is easy to test. Tune to a dead place on the band on 14 MHz or
higher. Connect and disconnect the antenna.

Does the noise go up when the antenna is connected?

If so, sensitivity is more than adequate.

<><><><><><><><><><>

LO Noise Spacing (dBc) @ KHz LO noise at "X" KHZ in dBc
(Lower dB at closer KHz is better)

REPLY: 120 dB @ 10 kHz or larger.

Non-synthesized radios will be unmeasurable at 10 kHz, thus there may be a number at a few kHz.

Phase noise is a non issue in classic radios from the 1970s and earlier.

<><><><><><><><><><>

Front End Selectivity: Descriptor of tuning type (Tracking Preselelctor
is best with an Octave filter being the worst for serious communication
receivers)

REPLY: Correct.

<><><><><><><><><><>

Ultimate Filter (dB):attenuation of filter, signals stronger then this
will leak around the filter. (Higher dB is better)

REPLY: Yes.
<><><><><><><><><><>

DNR WS (dB) @ KHz
Dynamic Range in dB at 20KHz
(Higher dB is better)
DNR NS (dB) @ KHz

REPLY: You would like 80 dB or greater.

<><><><><><><><><><>

Dynamic Range in dB at "X"KHz: X usually 2KHZ, in more modest receivers may be 5KHz.(Higher dB at narrower spacing is better)

REPLY: At close 2 kHz spacing, on CW you would like 80 dB or higher, while on SSB 70 dB or higher is adequate due to transmitted splatter the adjacent signal. Passport tests at 5 kHz since shortwave signals are spaced at 5 kHz intervals. CW pileups / contests are the worst case scenario. Transmitted phase noise and transmitted key clicks are problems, and even if one had a "perfect" non-synthesized radio, most transmitters today are not clean like they were in the 1970 and before,
so you have to contend with imperfect signals close to the weak signal
you are trying to copy.

Thanks Billy,

I was about to say that I'm fairly well versed in my digital modes and tools for decoding them and this is not a standard digital mode that I'm used to. I've heard it before on the bands, but usually not on a frequency range that annoys me.

Also, I'm using a ICOM R75 and she does not ghost like a the cheat receivers. Noooo way this is something else, and I also Heard the same noise across the same Frequency range on DEGEN 1103 and its wire antenna. So this is differently Broadband spectrum wash / noise.

Anyone else heard this noise before and willing to put forth a creditable suggestion ?

Cheers

But, true, the Eton/Grundig/Lextronix E1/G1 is not made in Germany.
Nor is it made in Portugal, as the Grundig Satellits 400, 500, 650,
700 were.

By the way, can anyone in this group tell us which was the last
shortwave radio that Grundig mass produced from production

facilities in Germany?"

A blonde gal was driving her car out in the country side in South Dakota.She saw another blonde gal rowing a boat across a cornfield.She stopped her car and hollered out to the gal in the boat,,,, Hey you!,,, stop that!,,, you are going to give us blondes a bad name!

Two nurses were riding along in their car in Texas.They saw an auto accident, a woman was lying in the grass by her car.One of the nurses said, She's a nurse! The other nurse said, How can you tell? she is wearing blue jeans and a T shirt and Cowgirl boots and a Cowgirl hat.The other nurse said, Her stomach is empty, her bladder is full, and her arse is all chewed up.

Well, if the video portion conveys detail missing from the audio ;-)...
Grabbing an flv for me is a complex process vis a vis grabbing a
simple audio stream or wav file (no simple click and watch).

Sorry, no go (I cannot upgrade to F.P. 9) and trying to save the flv
using the embedded url:

is refused with the odd message: "NEM NYERT!!"

I imagine others would like to hear it as well as a simple audio stream or
from a downloadable file.

Michael,

No worries heres an MP3: http://www.mediafire.com/?5dcdndzhh1t

For your own and others info, there are many free online media converts,
one I like using is http://www.mediaconverter.org/ This site allow you
to point to a URL or upload a file and then convert it to another media.

But hopefully this will work for you :)

Mike [M II],

I also Notice once again that you do NOT have your 'facts' Right.

Burr's original post used the words : "I'm a Muslim"
That's Spelled : M-U-S-L-I-M

While you used the word : "Islam"
Which Ain't Spelled : M-U-S-L-I-M - Doh !

But what was nice was once again seeing you show
your public Hatred for : "I'm Jewish" [The Jews]

And extending your personal Bigotry and Bias to :
"I'm Italian" [The Italians]
"I'm Polish" [The Poles]

Mike [M II] - What is Next . . Can we expect you to start
writing "The-N-Word" again and blaming it on DX Ace ?

Florida's got it right.

POLK COUNTY FLORIDA SHERIFF GRADY JUDD

Some 'dirt bag' in Polk County, Fla. who got pulled over in a routine traffic stop ended up 'executing' the deputy who stopped him. The deputy was shot eight times, including once behind his right ear at close range

Another deputy was wounded and a police dog killed. A statewide manhunt ensued. The low-life was found hiding in a wooded area with his gun. SWAT team officers fired and hit the guy 68 times.

Now here's the kicker:
Naturally, the media asked why they shot him 68 times. Polk County Sheriff Grady Judd, told the Orlando Sentinel newspaper:

"That's all the bullets we had!"

Are you finally out of the closet? If so, 'Eduardo' will certainly want to meet you.

It was a 40-minute search to find the iBiquity booth with the latest innovations for HD Radio. After speaking with company president Robert J. Struble, he shared my feeling that unless local stations start putting some thought and financial backing into programming content that people actually care about, HD Radio could be facing an up-hill road ahead. Technically, it's great but what comes out of the speaker needs work.

What - Technically it's great?

Technically it's flawed big time.

www.devilfinder.com The Keys Brothers Meridian Mississippi

The Keys Brothers set an Aircraft record which still stands, or so I read before.A guy in Meridian (at the Airport developed some VHF (Very High Frequency) Radios so the Keys brothers could keep in touch via Radio with the Airport people.You can say Bullshit all you want to, David.

Dancing on Dangerous Ground program (www.devilfinder.com it) is on the Ovation tv channel right now.I am Celtic, I know how to get Anti-Gravity too.

Thanks. I've posted the file on my site to permit downloading and saving without needing a ripper:

http://www.cybertheque.org/ham/audio/oznoise.mp3

I presume that only the approx. 10 Hz pulses constitute the signal under discussion and that all other sounds are QRM.

Has anyone heard HAARP or other atmospheric research RF emissions for comparison? The P.R.R. of this signal suggests to me some sort of power transmission (RF pumping of the ionosphere?) or industrial process rather than conveying intelligence. Or could it be pulse doppler? Wouldn't O.T.H. radar be using a chirp and a much lower P.R.R.?

Regards,

Michael

VHF refers to a swath of spectrum. It's been there since the big bang.
If you meant they invented VHF 2-way radio then you have said so. All
I can see they invented was mid-air refueling.

The broadcast mode (FECTOR?) is a constant 100 bps narrowband FSK.

Nope, but this one is:

An Amish farmer walking through his field, notices a man drinking from
his pond, with his hand. The Amish man shouts: "Don't drink the
water, the cows have shit in it." The man shouts back: "I'm a Canadian,
can I use two hands?"

You completely missed the point of the posting. His joke was stupid and juvenile. You laughed at it. I asked him if the same joke with different victims were as funny as his. If any of them were insulting, then they are ALL insulting.

An Amish Farmer walking through his Field, notices a Man Drinking

The Amish Farmer shouts in plain English :

Because people like you don't complain the FIRST time they are posted by the drunkard and he keeps doing it.

If you don't like the garbage, stop it at the SOURCE. Let him know you don't like it.

Telling me that it's alright for the ass to post garbage because he's been drinking is a crock. Perhaps you should encourage him to stop drinking.

Thanks Michael,

Yep just interested in the BUZZ / pulses, the other background noises were from other sources / frequencies as I scanned from 7100khz down to 6500khz so show how much spectrum was being affected.

I got confirmation from two blokes on the amateur radio forums. Most like originating from china :) So who needs the Russian Woodpecker when China fills bands :)

I was also provided a link to http://www.iarums-r1.org/ the website of the Region 1 Intruder Watch. Look like a very intereting site.

50 feet of wire as high and clear as possible will be about as good as you
can get for what you are doing and cheap. The horizontal direction will
cause some directional effect. Better--two such wires at 90 degrees with
you switching to whichever one hears your station best.

If you want something better, particularly if you have interference from
electrical devices, highly recommended is

I have an intense dislike for MOV (Metal Oxide Varistors). 99% of all
the "transient protection" devices
available to the public are based on these devices.

While they work, they are prone to an almost certain dangerous
failure mode.

MOVs can only dissipate "X" amount of energy, after that amount of
energy has been "clamped",
MOV will start leaking current even when there is no over voltage
condition. This leads to thermal
"run away" and unless the MOV has a thermal cutout adjacent to it, can
result in fire. I several units
that are failing after surviving a close lightning strike. When
connected to the AC mains they all start
conducting several 199uA that rapidly ramps up to 30mA. I have never
allowed them to stay connected
to the AC mains because I really do not want to deal with a fire.
Another concern for me is that MOVs
that are failing often produce intense Radio Frequency Interference.

There is at least one company that produces a MOV with an internal
thermal cut out.

<http://www.littelfuse.com/data/en/Articles/TMOVPCIMPaper.pdf>.

This is not an idle threat. I have seen three house fires started by
MOVs and several electricians
I know have seen many such fires. Fortunately most fires are self
limiting and only the plastic case
chars and the fire putters out. But under the wrong conditions the
fire can spread to the structure.

While sailing in a page news himself as what you
You are doing now ... I found an article like this,
Which read: "! YOU CAN WIN THOUSANDS OF DOLLARS IN FEW WEEKS WITH
AN INVESTMENT OF $ 30 OR $ 30 EUROS DOLLARS !"...
Then I thought: "How OH, NO, MORE ANOTHER SCAM?", But like most
Us, "curiosity might more", then went on reading ...
"You send $ 5 euros, or $ 5 dollars to each of the names

IF YOU ACHIEVE .....¡¡¡¡¡ PUDE, YOU ALSO
CAN !!!!!..... .....¡¡¡¡¡ FORWARD !!!!!.....
All you have to do is meterte in different Newsgroups
(Newsgroups) or plaster and add your text. Once you have
Practice, only takes about 30 seconds for each ANNOUNCEMENT.
It is further recommended that when publishing the description of
this
Article, try to give a name to "catch" or call the lot
Care, such as: "Go NEED MONEY FAST? ... READ THIS ARTICLE"
"Go NEED MONEY TO PAY YOUR DEBT?", "BAJE ARCHIVE AND READ THIS

REMEMBER: IF YOU GET MORE NEWSGROUPS, MORE MONEY AND ANSWERS
RECEIVE !!!!!... BUT MUST ENTER IN AT LEAST 200 NEWSGROUPS ...
AND NOW THIS !!!!!...
Another way would be to use your CONDUCT OF E-MAIL and send
All your contacts this message. It also can expand
Chain.
You will be receiving money from all over the world in places that
neither
Known in a few days !!!!!... Eventually you will want to rent a P.
O. BOX. (Zip), the number of envelopes that will go
Receiving !!!!!...
(((ASEGÚRATE THAT ALL ADDRESSES ARE CORRECT)))...
Now the WHY of all this: Of 200 envoys, say that only
Receive 5 replies (very low example). Then I made $ 25 euros, or $
25 dollars with my name in the # 6 of this letter. Now, each

One of the people who sent me $ 5 euros, or US $ 5, also
Make a number of 200 Newsgroups or ads from the list and only
5 persons respond to each of the original 5, this makes $ 125
Euros or dollars more than I receive. Now, these 25 individuals put a
Minimum of 200 listings with my name on the # 4 and only received
5 responses each. It would make another $ 625 euros or dollars
Additional.
Now, those 125 people put a minimum of 200 groups with my name
In the # 3 and only get 5 replies each person, I
Get an additional $ 3,125 euros or dollars !!!!!, OK. Here is the
More fun part, each of those 625 people put their letters
Other 200 groups or ad with my name on the # 2 and each
5 receives an answer, and this makes me get $ 30,625 euros or
An additional $!!!!!... These 3125 people send this message
To a minimum of 200 listings, with my name on the # 1 and only 5
People respond to the 200 ads, this means that I get $
78,125 euros or dollars !!!!!.
From an investment of $ 30 euros or dollars, do not believe it is
FABULOUS !!!!!?????. And as I said earlier, that only 5 people respond
to
200 groups or advertisements (the actual average is 20 to 30
People !!!!!)...
IF YOU WANT A calculation SACA !!!!!...
IF ONLY 15 PEOPLE RESPONDIERAN ... DARÍA THIS AS A RESULT:
Being in a position # 6 ...=$ 78.00
Being in a position # 5 ...=$ 768.00
Being in a position # 4 ...=$ 12.288.00
Being in a position # 2 ...=$ 184.552.00
¡¡¡¡¡ Now comes the good, do not be afraid !!!!!:
In the # 1 ..... ((((($ 2.764.800.00)))))).
!!!!! SÍÍÍÍÍ, ALMOST THREE MILLION DOLLARS OR !!!!!... THE IMPOSSIBLE
BELIEVE, TRUE !!!!!?????... BUT WITH SOME OF DEDICATION, AND TIME
EFFORT WE CAN ACHIEVE !!!!!...
Some people come to think ... "And if anyone answer me ?"...
QUEEEEE !!!!!... What is the likelihood that this will happen? ... If
Thousands and thousands of people HONESTAS (like us) looking for a

I used to use them a lot in Texas (lightning). They'd always be in a
metal enclosure and they'd always be replaced every season. I've
survived direct hits via the mains that exploded the Power MOV but
stayed on the air. Here we have no lightning.

1164. Why the US airwaves are not free

The ruling democrat and republican parties proclaim that the airwaves "belong to the people." But if the people ever try to get access to any mass media that uses the airwaves, they would find these same parties tightly control them. The statement that the airwaves belong to the people is a hollow phrase that makes people feel good, as long as they never test it.

The American airwaves are almost completely dominated by large and wealthy private groups that broadcast their own opinions, not necessarily those of the people.

The democrat and republican parties want to control the airwaves for the same reason that totalitarian governments shut down any opposition media organizations. They want to censor the information that the mass of the people are allowed to know, in case the population gets too much negative information and wishes to throw the ruling parties out.

Secondly, when a political party is in power, it gets to dole out government contracts and licenses to private groups that petition it. What you don't see is that the halls of Congress and the regulatory agencies and the White House are crowded with lobbyists whose job is to distribute bribes to government officials for these privileges. In America, these bribes are promises of high-paying, do-nothing jobs like seats on Boards of Directors of corporations, and other nice jobs. Former senator Bill Bradley now sits on the board of Starbucks. These bribes are also called campaign contributions.

Now you know why the ruling parties, the democrat and republican, fought so hard to end freedom on the internet. Freedom of speech requires privacy and privacy requires anonymity. So to end freedom on the internet, these parties had to destroy any anonymity of speech you have on the internet.

Tyrannical parties, the Chinese communists and the American democrats and republicans, must be able to know who is spreading threatening political speech in any form of mass media because this threatens their control over the gravy train of government taxes and contract awards.

Since only 39% of the electorate vote in an American election, and the two parties are roughly even, this means that either party represents less than 20% of the eligible voters. But it costs nothing, only a signature to say you belong to one party or another, so the real percentage that either ruling political party in America represents is much smaller than 20%. So neither the democrats nor republicans, even

combined, represent a majority of even the electorate which is not even the the population itself.

The American ruling parties had a special problem. They had to shut down freedom of internet speech without appearing to be against free speech. They needed an excuse. They found the excuse in two ways. Terrorism and Pedophilia.

In order to take freedom and rights away from the people, a political party in power must first convince the people to give up their freedoms willingly. The democrate and republican parties used an old political trick. They had to convince the people there was a monster among them, and that they had to give up their privacy to the the ruling parties so the parties could protect them. What was this monster?

It was pedophilia. They could not do through the terrorism argument because the terrorist are really just a foreign group. The ruling parties chose pedophilia as an excuse to control the internet because pedophiles are normal people from the general population. They cannot be differentiated from the population, so they are invisible. An invisible is so much more frightening. The ruling parties made sure that their friends in the mass media like yahoo and the news agencies only broadcast stories depicting pedophiles as evil, and never allowing news stories in which pedophilia is depicted as good or neutral.

The ruling parties and other ambitious political groups, like lesbian-feminists and the christian right, were also competing with each other. Any group that could say that the invisible army of drooling pedophiles was more dangerous, and that it could protect the people even better, would gain political advantage.

Now you know how the ruling parties in the US took away the latest form of mass media that gave you freedom of speech. You also know why they did it.

If you ever make political speech that might be a threat to the ruling parties, these parties will know right where to find you and they will pick you off one by one. No will know that you are being picked off because they ruling parties will neve admit that that their reason was political speech.

Instead they will send a low-level agent around to your house when you are asleep or not at home. She will pick through your garbage and peek in your window. They will keep looking for some slight infraction or law they can charge you with. Even if the charge is thrown out of court, just fighting the case will bankrupt you and waste months of your life.

2007 Darwin Awards

Yes, it's again that magical time of the year when the Darwin Awards
are
bestowed, honoring the least evolved among us.

Here is the glorious Winner:

1. When his .38 caliber revolver failed to fire at his intended
victim
during a hold-up in Long Beach, California , would-be robber James
Elliot
did something that can only inspire wonder. He peered down the barrel
and
tried the trigger again. This time it worked.

And now, the Honorable Mentions:

2. The chef at a hotel in Switzerland lost a finger in a meat-cutting
machine and submitted a claim to his insurance company. The company
expecting negligence sent out one of its men to have a look for or
himself.
He tried the machine and he also lost a finger. The chef's claim was
approved.

3. A man who shoveled snow for an hour to clear a space for his car
during a
blizzard in Chicago returned with his vehicle to find a woman had
taken the
space...understandably, he shot her.

4. After stopping for drinks at an illegal bar, a Zimbabwean bus
driver
found that the 20 mental patients he was supposed to be transporting
from

Harare to Bulawayo had escaped. Not wanting to admit his incompetence, the
driver went to a nearby bus stop and offered everyone waiting there a free
ride. He then delivered the passengers to the mental hospital, telling the
staff that the patients were very excitable and prone to bizarre fantasies.
The deception wasn't discovered for 3 days.

5. An American teenager was in the hospital recovering from serious head
wounds received from an oncoming train. When asked how he received the
injuries, the lad told police that he was simply trying to see how close he
could get his head to a moving train before he was hit.

6 A man walked into a Louisiana Circle-K, put a $20 bill on the counter, and
asked for change. When the clerk opened the cash drawer, the man pulled a
gun and asked for all the cash in the register, which the clerk promptly
provided. The man took the cash from the clerk and fled, leaving the $20
bill on the counter. The total amount of cash he got from the drawer: $15.
(If someone points a gun at you and gives you money, is a crime committed?)

7. Seems an Arkansas guy wanted some beer pretty badly. He decided that he'd
just throw a cinder block through a liquor store window, grab some booze,
and run. So he lifted the cinder block and heaved it over his head at the
window. The cinder block bounced back and hit the would-be thief on the
head, knocking him unconscious. The liquor store window was made of
Plexiglas. The whole event was caught on videotape.

8. As a female shopper exited a New York convenience store, a man grabbed
her purse and ran. The clerk called 911 immediately, and the woman was able
to give them a detailed description of the snatcher. Within minutes, the
police apprehended the purse snatcher. They put him in the car and drove
back to the store . The thief was then taken out of the car and told

to
stand there for a positive ID. To which he replied, 'Yes, officer,
that's
her. That's the lady I stole the purse from.'

9. The Ann Arbor News crime column reported that a man walked into a
Burger
King in Ypsilanti , Michigan , at 5 a.m , flashed a gun, and demanded
cash.
The clerk turned him down because he said he couldn't open the cash
register
without a food order When the man ordered onion rings, the clerk said
they
weren't available for breakfast. The man, frustrated, walked away.

10. Siphoning gasoline from a motor home parked on a Seattle street,
he got
much more than he bargained for. Police arrived at the scene to find a
very
sick man curled up next to a motor home near spilled sewage. A police
spokesman said that the man admitted to trying to steal gasoline and
plugged
his siphon hose into the motor home's sewage tank by mistake. The
owner of
the vehicle declined to press charges, saying that it was the best
laugh
he'd ever had.

Big old Peavey whatever it is bout tore me a ''new one''. I am not cockstrong like I used to be.Peavey is standing up on a piece of plywood in my carport right now.There is an old faded label on there, best I can make out, it says Jimmy McQuaig, and Ricky (Micky?) Smith, I think.There is a scraped up scratched up metal plate on the back of Peavey and a big jack right above that metal plate.All I can make out on that metal plate is, Serial Number 2E- and Impedance 4

Peavey measures 40 inches tall and twenty five and three quarter inches wide and fourteen and three quarter inches deep/front to back.

Some of y'all experts out there, tell me what kind of Peavey and how old my Peavey is.

I find it amazing the number of people who stop by here and take
shots at those who participate at a high level.

Congratulations on being a member of the shortwave community. Which
receivers do you use? And which are your favorites?

Myself, I'm partial to AR-7030+ and Ten-Tec RX-350. With a side of
dozens of others ranging from Lowe HF150 to Hammarlund BC794 SuperPro.
DXAce over there to your right, in Michigan, is partial to Drakes, and
has quite an arsenal. Telamon to your left, in California, hits with
Ten-Tec RX-340. And you'll find assorted Grundigs, Hallicrafters,
Panasonics, and ICOMS, with the occasional National, and RCA thrown in.

There's a lot of personality, here, too. Truth is, Roy has most of
it. But if Roy chooses to make a career out of participating in this
group....so what? If he's got the time and the resources....God Bless him.

The question is....what does it matter to YOU?

For what
will the heretics say?

In order to know whether an opinion is a Father's...

863. All err the more dangerously, as they each follow a truth. Their fault is not in following a falsehood, but in not following another truth.

864. Truth is so obscure in these times, and falsehood so established, that, unless we love the truth, we cannot know it.

865. If there is ever a time in which we must make profession of two opposite truths, it is when we are reproached for omitting one. Therefore the Jesuits and Jansenists are wrong in concealing them, but the Jansenists more so, for the Jesuits have better made profession of the two.

866. Two kinds of people make things equal to one another, as feasts to working days, Christians to priests, all things among them, etc. And hence the one party conclude that what is then bad for priests is also so for Christians, and the other that what is not bad for Christians is lawful for priests.

867. If the ancient Church was in error, the Church is fallen. If she should be in error to-day, it is not the same thing; for she has always the superior maxim of tradition from the hand of the ancient Church; and so this submission and this conformity to the ancient Church prevail and correct all. But the ancient Church did not assume the future Church and did not consider her, as we assume and consider the ancient.

868. That which hinders us in comparing what formerly occurred in the Church with what we see there now is that we generally look upon Saint Athanasius, Saint Theresa, and the rest, as crowned with glory and acting towards us as gods. Now that time has cleared up things, it does so appear. But at the time when he was persecuted, this great saint was a man called Athanasius; and Saint Theresa was a nun. "Elias was a man subject to like passions as we are," says Saint James, to disabuse Christians of that false idea which

My Zen V Plus 4G MP3 player/recorder is back among the living, but while it was down I found a heck of a deal on a RCA (Thompson) "Digital Voice Recorder" that will record up to 26 hours.
Not as good as the Zen, but then it looks to be somewhat more rugged then the Zen.

It has a built in mic and an external mic in that with a suitable attenuator works very well on "line" level. It has a USB port and you can upload MP3 files to a PC running XP or Vista. It will work under 98SE, but requires some registry magic to make it happen. Battery life is better then I expected. I have recorded about 50 hours so far an it is going strong.

Walmart had a bunch mismarked @$9.99. I bought three, one for my home setup, one for notes in the car and one was intended to go in my radio field kit but my wife snagged it.
The correct price should have been $31, they didn't want to sell it to me, so I borrowed a friend's cell phone and called the state consumer protection number, and boy did they get reasonable. Even at $31 these are a great value! After 20 years of faithful service I am retiring my Marantz PMD201 cassette deck.

It has simple editing functions that I don't intend to master. For me this a raw data acquisition device. Any editing will be on my PC with CoolEdit.

It is very RF quiet.

This is all well known. Although they are a class of protection devices
you need to protect them with a fuse so a catastrophic event does not
occur since they are a shunt device with a life span. If the protection
fuse blows you need to replace the MOV.

Keep in mind the guy was a government bureaucrat for 30 years. That explains why he acts the way he does. The arrogance and compulsive need to be in charge (evidenced here by his self appointed moderator role) and his smug "I'm the smartest guy in the room" attitude.

In short, he's a caricature of himself - pompous, arrogant, self righteous, hypocritical (chronically scolding others for off topic posting while he is one of the worst offenders) and obnoxious - the consummate bureaucrat.

Roy's 30 years as a government parasite making the lives of people who paid his salary miserable prepared him well for his current role as resident pain in the ass.

One update is that I tacked up a $4.99 (Radio Shack) dipole antenna to the pole near my office. Making sure the non-tail portion of the wiring was attached vertically to the pole. I then bought dual ended alligator clips and clipped it to the antenna of my cheapo radio and the station came in! I had to do a litte adjusting and there was some static but it made me think that with a better radio I could get a much clearer signal. I ended up ordering the Kaito KA2100 from Amazon. It's a little pricy but I figured if that didn't work nothing will. It also seems to get great AM reception so I am hoping that will help if I want to tune in some of those stations as well but I am not betting the farm those will come in.

BTW, all the suggestions I had from this thread were phenomenal! I especially liked the Crane FM Re-Broadcaster but like the idea of having the radio on my desk where I could control the settings.

It matters because his compulsive posting of irrelevant bs has driven
away many shortwave enthusiasts who visit daily and contribute
regularly to the group. Most no longer bother to even read the group
much less post because they have long ago tired of the little clique
of posters who now dominate the group.

It's like the friendly neighborhood bar that everyone that mattered
once enjoyed gathering that gets taken over by a few obnoxious
drunks. The change in atmosphere is almost imperceptible because it
happens over time. One by one the regulars stop dropping in and soon
the only patrons are the obnoxious loud mouthed few and the bar soon
goes bankrupt.

So yes, it matters sir.

Would say that you are probably correct. Though after I made this

may have been the AARP magazine. So, it must have been a PSA. Which
again begs the question about why certain press outlets would print
the article and others don't.

You will need to purchase converter boxes. These will most likely not
deliver as good a picture as you are used to seeing on your analog set
(pixelization, etc). I know our satellite TV has this problem.

The boxes will not be free. Current estimates are about $70 each, and the
government will give out vouchers, if requested, good for $40 toward the
purchase of up to two converter boxes per household.

RHF always post good stuff.What's I gotta do, take a picture of my big old Peavey whatever it is and send the picture(s) to Peavey in Meridian,Mississippi? Meridian is about nienty something miles East of me, way over yonder near Alabama.I think they have a museum over there at Peavey.About twelve years ago, I saw a Peavey speaker at the Salvation Army thrift store.I went to a pawn shop on Terry Road near Highway 80.I told Kevin at the pawn shop about the speaker.Kevin said even if it doesn't work, it's worth fifteen dollars.Kevin and another guy jumped in his car.I assume they went over to the Salvation Army thrift store.

Age Activated Attention Deficit Disorder.

This is how it manifests:

I decide to water my garden.

As I turn on the hose in the driveway,

I look over at my car and decide it needs washing.

As I start toward the garage,

I notice mail on the porch table that

I brought up from the mail box earlier.

I decide to go through the mail before I wash the car.

I lay my car keys on the table,

put the junk mail in the garbage can under the table,

and notice that the can is full.

So, I decide to put the bills back

on the table and take out the garbage first.

But then I think,

since I'm going to be near the mailbox

when I take out the garbage anyway,

I may as well pay the bills first.

I take my check book off the table,

and see that there is only one check left.

My extra checks are in my desk in the study,

so I go inside the house to my desk where

I find the can of Coke I'd been drinking.

I'm going to look for my checks,

but first I need to push the Coke aside

so that I don't accidentally knock it over.

The Coke is getting warm,

and I decide to put it in the refrigerator to keep it cold.

As I head toward the kitchen with the Coke,

a vase of flowers on the counter

catches my eye--they need water.

I put the Coke on the counter and

discover my reading glasses that

I've been searching for all morning.

I decide I better put them back on my desk,

but first I'm going to water the flowers.

I set the glasses back down on the counter,

fill a container with water and suddenly spot the TV remote.

Someone left it on the kitchen table.

I realize that tonight when we go to watch TV,

I'll be looking for the remote,

but I won't remember that it's on the kitchen table,

so I decide to put it back in the den where it belongs,

but first I'll water the flowers.

I pour some water in the flowers,

but quite a bit of it spills on the floor.

So, I set the remote back on the table,

get some towels and wipe up the spill.

Then, I head down the hall trying to

remember what I was planning to do.

At the end of the day:

the car isn't washed

the bills aren't paid

there is a warm can of Coke sitting on the counter

the flowers don't have enough water,

there is still only 1 check in my check book,

I can't find the remote,

I can't find my glasses,

and I don't remember what I did with the car keys.

Then, when I try to figure out why nothing got done today,

I'm really baffled because I know I was busy all damn day,

and I'm really tired.

I realize this is a serious problem,

and I'll try to get some help for it,

but first I'll check my e-mail....

"VDC" is a Three-Letter Abbreviation with multiple meanings
VDC - http://en.wikipedia.org/wiki/VDC
Most Likely - Volts of Continuous Current (Direct Current)
* For Modern Soild State Equipment it would be the
DC Power Supply Voltage(s).
* For Old-Time Tube {Valve} Radio Equipment the DC "Plate"
Voltage of the Transmitter or more specifically the Plate Voltage
{Plate Current} of the Output Finals of the Transmitter or RF
Power Amplifier -aka- Linear Amplifier.

Peter,

TIP - The Window {Remote} Radio -also- Has . . . {You Got It ! :o}
a Remote Control (R/C) for the Radio's Station Pre-Sets etc.
* On / Off
* Audio Volume
* AM / FM Band
* Radio Station Presets

Your Desk-Top Radio stays on the Fixed Re-Broadcast Frequency
and you use the Remote Control to 'control' the Window Radio.

The question for you Peter, is why do posters like Roy, Burr, Steve and
others get a pass from you when they are the source for most of the OT
garbage on this group? My guess is that you secretly support their
politics and world views but don't want to admitt it here. You didn't
use to be like that in the good old days. You made mostly useful
contributions and rarely responded to the OT posts. Now you almost
encourage them. What happened?

a) A maximum of two per household.

b) The 'coupons' are good for $40.00 towards "approved" converters
(which supposedly will be in the $40-70 range).

c) Even though called a 'coupon', they physically look like credit cards.

d) They expire 90 days from the date the government puts them in the
mail to you.

e) "Coupons", even though you can order them now, won't be sent out
until mid- or the end of February, as they say the 'approved' converters
won't be available until then.

Any other questions?

Use a 15-20A breaker between the mains bus and a grounded MOV. i.e.
mount the PowerMov tabs to the back of the breaker box and treat each
MOV like a branch.

The export version of that radio has a bfo while the domestic version
does not. For the one without a bfo fine tuning well below 1khz will
be a requirement for resolving ssb signals.

Yeah, back in the 40's, I was quite the stickler for the rules. You know, back in the good ol' days, Univac, tube routers, and secret messages over AM radio to subversive forces identified only with decoder rings....I was all about the topic, wasn't I.

Wow. Even I don't recognize me anymore. Perhaps that's why I can't get laid.

Ditto too, and RHF, you're OK in my book - I may not always agree with your politics (but sometimes do), but there is no shame at all in your postings about radios, antennas and equipment, or how to use them. The feebs who have criticized? I doubt if they know a kilowatt from a kilocycle.

And your sense of humor swamps their crassness.

We're with ya.

Some bozo who constantly yammers on, posting when he usually has little
to say, posting links rather than real comments, posting in a completely
unreadable style, constantly changing subject headers, playing
"moderator" when his skill is so horrific that it only makes things
worse, and being a big source of the animosity here, well that defines
the state of the newsgroup. "RHF" isn't the only one, but he certainly
enables the other junk posters.

Wade through the off topic posts, the political bickering and admonishments,
and there isn't much here. Far better for the yammerers to be silent for
a time than to constantly spew. And yes, you will see three or four
posters, including the bozo "RHF", in the thick of all that drivel.

There was a time when if someone asked a simple question, they'd be
told to look it up themselves. But nowadays, this newsgroup is full
of people who do that work for the lazy, merely posting links. And
when people do that, who's to know whether they know anything or not?
There is no value in posting such links, because the original poster
should be doing that work themselves. But instead, we get all these
link posters, and nobody around to really address the question that
may not be properly asked.

The only reason this bozo RHF is getting accolades is because
the newsgroup has decayed so much that many have left, and a new
wave that doesn't know better has moved in. SOmeone who can't keep
his mouth shut is bound to dominate a newsgroup, and that's what people
are reacting to. Look between the lines, and there is little of substance
there, and the only reason he becomes a "valuable source" is because the
good posters of the old days have faded away, so there's nothing better
than a bozo posting links.

A newsgroup is not healthy if only a handful dominate. Drive off a wide
range of readers, and the newsgroup declines, because as long as people
are reading a newsgroup, they may reply when they actually have something
to add, so some obscure topic gets a real answer instead of another
stupid link. Or that person who only replies a few times a year may
have some obscure bit of knowledge that few know, so if they tune out,
there goes the knowledge.

It's telling that the bozo RHF never looks things up in this newsgroup,
he's constantly linking to other sources of information.

This is what the newsgroup used to be like, before the bozos and the village
idiots took over:

How many conversions a receiver has is not a direct indication of performance.

The whole point of superheterodyne receivers is to get the incoming signal to a frequency where amplification and selectivity can easily be accomplished.

The superhet is something like 80 years old, which is barely younger than radio itself. When it was invented, the state of the technology could only mean that the superhet would convert to a lower frequency. It was easier to get amplification there, and since it was a fixed frequency as opposed to variabl4e frequency if amplification took place on the signal frequency, you wouldn't need constant readjustment. Selectivity may have been a mere byproduct; I know I've seen early schematics of superhets where provides no selectivity, only amplification. Of course, with time, selectivity became an important reason for the superhet.

But once the superhet was invented, it became clear that there was a problem. In the conversion to another frequency, the IF (Intermediate Freuqency), you'd also get an image frequency. Basically, that meant that anywhere you tuned the receiver, you would pick up two signals, the one you want and one that was a side effect of the conversion.

With the relatively low frequencies used for the IFs in the early days, the only way to get rid of the unwanted image frequency was to put more selectivity on the signal frequency, which in some ways the superhet was supposed to eliminate. Usually there was no problem in the AM broadcast band, and even in the low shortwave bands, because relatively simple front end selectivity could give enough rejection of the image frequency. But a lot of cheap receivers from the old days bombed on the highest band, the one that ended at 30Mhz, because there was way too little selectivity in the front end to get rid of the image frequency.

Of course, the more expensive receivers did put more selectivity in the front end, and suffered far less. The HRO series were manufacturered up into the sixties (or was it the late fifties?), and they still had a 455KHz IF. But they had two RF stages and associated tuned circuits to get rid of the image frequency.

With time, somebody thought of the idea of double conversion. Convert the incoming signal to a frequency high enough that it would place the image frequency far enough away that the front end would reject it sufficiently, and then a second conversion to a frequency

where the real amplification and selectivity could take place. Of course, if the design wasn't done right, it could be horrible since you now had two sets of image frequencies to get rid of, and of course you added a second oscillator inside the receiver to generate spurious signals.

Triple conversion was just an extension of that, though in some cases it was used to add special features.

One of the problems of double, or triple, conversion is that in that era it put a fair amount of amplification before the ultimate selectivity of the receiver. So the tuned circuits before the final IF would take out the image frequency, but a strong signal not that far from the desired signal would pass without attenuation, and if it was strong enough it could overload one of the stages.

With time, technology allowed for a different implementation of the superhet. You could have good selectivity at a high frequency, and of course tubes and later transistors got good enough that they could amplify with no problem at high frequencies.

So there was a move back to single conversion receivers, with the IF in the 9MHz range, or thereabouts. The IF was far enough away that only the strongest signals on the image frequency could get by relatively simple front end selectivity. And the selectivity could be put right after the mixer, meaning that all the rest of the receiver saw only the bandwidth of a single "channel". The mixer was still vulnerable to overload, though there were improvements in that area around the same time, but at least it was reduced to only one mixer. And in many cases the high IF allowed for no amplification before the mixer, again helping the receiver's overload resistance.

Of course, there were problems. Having the IF in the middle of the range the receiver was trying to tune was a problem. And those crystal filters could be expensive.

With time, mainly when ICs allowed for cheap synthesizers so the local oscillator could operate at a high frequency and still be stable, the first IF moved up above the 30MHz. The whole shortwave band could then be tuned without a gap, and there were other good reasons for moving the IF there.

The problem was that a filter at 45MHz or so could be terribly expensive, and it might even be difficult to get narrow selectivity in that range.

So receivers moved back to double conversion. The filter at the first IF would be little wider than the widest selectivity desired, so the rest of the receiver would have to deal with a relatively small slice of spectrum. And the IF was high enough that virtually anything in the way of front end selectivity would reject the image frequency, allowing for quite a bit of flexibility in the front

end design. Of course, the overload resistance of the mixer
became an issue as the selectivity decreased in the front end; it
had always been a problem, but image rejection had been a more
immediate need for that front end selectivity.

And of course, triple conversion also returned. But it was for
things like passband tuning, rather than to deal with limited
technology.

The point to all this is that conversion is a trade-off. Triple conversion
will give you pass band tuning, but if not done carefully will give
you spurious responses. But that triple conversion is giving you
a feature, better to be assesed on the basis of that feature, rather
than as an absolute. If you wanted to pay the high price, a single
conversion receiver with a bank of filters of various bandwidths
operating at 45MHz or so would probably be best, since you don't
have to worry about the problems of multiple conversion. But
people want multiple bandwidths and lower cost, so you end up
with double conversion receivers. Likewise, they want poassband
tuning, so they end up with triple conversion.

But you can't compare two receivers by looking at how many conversions,
and say this one is better than that one because it has double (or triple
conversion). You have to look at the overall design, and the specs.

As for scanners, that someone brought up in this thread, the need
for multiple conversions is a reflection of the wide frequency;coverage
that many of them provide, and the multiple conversions could be
seen in the same light as multiple conversions in receivers of
yesteryears. They need it to get rid of the image frequencies.
The technology hasn't caught up enough with the needed range.

Well, yeah, like I would. I've made a couple of hundred of

What do you mean by "raw" AMTOR? Is that your very own 'technical' term?
You would have us believe you are a genius. If so, be specific. Do you
mean FEC mode (Mode B)? or ARQ mode (Mode A)? NONE of the literature
refers to "raw". In any case, *neither* variant of AMTOR sounds anything
at all like the recording that the OP made and posted.

Furthermore, at least for the sake of this discussion, -TOR signals
nominally use 1 kHz of bandwidth or less. IF you listened to the OP's
recording while watching him scan the band and IF you noticed the title
of his post (Broad Spectrum Noise / Buzz 6500 kHz - 7100 kHz),
hopefully you would realize that an AMTOR signal, raw, cooked or

otherwise, would not be 600 kHz wide.

> You have to be a fricking moron to tell me what I heard on the radio.

Sorry, YOU have no clue. Me (nor anyone else) was telling you what you heard on -your- RADIO. *I* was referring to the RECORDING made by the OP. Then, we are -all- listening to the -same- thing. Get it now?

In regards to your obnoxiousness, rudeness, vulgarity and name calling above in response to my germane and on-topic post, I can only hope you get along better in real life than you do in this newsgroup. In my humble opinion, you seem to be exhibiting some characteristics of Narcissistic Personality Disorder, megalomania or both. You seems to perpetually want to be controlling, in charge, with an ego as big as Rhode Island. If you are going to ridicule the intelligence of others, you better be sure that -you- are above reproach (just having a stupendous ego doesn't count). "Raw" AMTOR, indeed.
The only things raw here are your vulgarity and half-baked, so-called 'knowledge'.

None bozo, I'm a SWL. However, I used to do a lot of utility listening.

That question has already been answered in the thread. It's not my special term. It would not be logical to expect you to know terms I have come up with unless I posted them to the new group.

I suggest you read up on the subject.

Oh clueless one. You did not hear what I heard on my radio. Get it now? Probably not.

I think you are disgusting and obnoxious in addition to clueless.

OK. This post requires temporary de-cloaking!

Will you please consider distributing to the group whatever you're
obviously on?

You start off complaining about RHF and people posting links, then you cite a silly post from DiverDan about selecting a cheap portable as being what this group should aspire to, and ramble into the most esoteric post I think I've ever read on receiver design.

Wow. That's impressive. Can you say "tangential"?

After leaving this zoo for over 2.5 years (except for a few minor incursions) I think I can say with certainty that though people like Steve Lare (DXAce) and Roy Fisk (RHF) are often difficult to deal with, they are clearly the most valuable contributors in RRS. Lare's contributions to DXLD and BDXC are valuable resources in the international DX community and his links to EiBi updates invaluable in this post-ILG world. RHF's tireless efforts to disseminate antenna info through his Yahoo group is a MONUMENTAL service to the community. I don't like their politics, but they help keep this hobby alive in difficult times. Yeah, they probably shouldn't post when drunk, but none of the rest of us are really perfect, either.

Anyone who really believes these people are hurting the hobby by providing useful links is someone the hobby would probably be better off without.

Who knows? Maybe, if I stay away long enough, I'll gain the perspective to understand what Telamon's contribution to the hobby really is. Right now, I haven't got the faintest concept of why anyone would read his posts.... ;-)

Re-cloaking,

Maybe be important 20 hz, I not sure, I initiate in the hobby in the
year 84' with a receiver hammarlund HQ-120, I like to play with the
knobs, clarify the HAM's stations with the bfo, I have a receiver JRC
525 and Kenwood R-5000 but I like more to take the HQ-180 hi, hi, this
receiver seems to be better than Satellite 800, that I do not have
doubts the 800 enter in this box of 750, for 300 dollars it is a good
price, and if listens better that the Sangean 909 is great. 73 to all

Nice dodge. I guess the answer is yes, you do agree with them and that's why they get a pass for disrupting the group with their BS.

BTW- The dog abandoned this group too. You can find him at one of the Yahoo groups.

1318. Double Modifying the RadioShack Shortwave (SWL) Antenna Kit for use with 'portable' AM/FM Shortwave Radios

Grundig G5 'portable' AM/FM Shortwave Radio
http://www.universal-radio.com/catalog/portable/3005.html

CAUTION - Most 'portable' AM/FM Shortwave Radio tend to
"Overload" {Too Much RF Signal} when used with a 'classic'
Longwire Antenna that is more than 30~45 Feet long.

Look on eBay for a RadioShack Shortwave (SWL) Antenna Kit
and Buy one.
http://search.ebay.com/search/search.dll?from=R40&_trksid=m37&satitle=Radio+Shack+Antenna+Kit

Buy a 6"~8" piece of 1/2"~1" PVC Pipe.

Take the Insulated Wire {used as the Feed-in-Line} that comes
with the Shortwave (SWL) Antenna Kit :

Connect an Alligator Clip to the End of the Insulated Wire.

Leave a 8"~12" Loose-End of the Insulated Wire after the Alligator
Clip and then use Black Plastic Electrical Tape to secure the
Insulated Wire to the PVC Pipe.

Wrap a Coil of Insulated Wire around the Insulated PVC Pipe.
The Coils should be evenly 'spaced' about one wire diameter apart.

Tape_o_o_o_o_o_o_o_o_o_o_o_o_o_o_o_o_o_o_o__Tape
====================================
'=' PVC Pipe - 'o' = Insulated Wire - '_' Evenly Spaced
====================================
Tape__o_o_o_o_o_o_o_o_o_o_o_o_o_o_o_o_o_o_o_Tape

When you have covered the PVC Pipe with one layer of about
40 to 60 Turns {Wraps} of Evenly 'Spaced' Coils of Insulated
Wire : Secure the Insulated Wire to the PVC Pipe at the other
end of the PVC Pipe with with Black Plastic Electrical Tape.

You have now made a "Portable Wire Antenna" (PWA) that
was created and written about by Tom Sevart [N2UHC].
PWA => http://www.geocities.com/n2uhc/portablewire.html

READ - Using the "Portable Wire Antenna" (PWA) with your
'portable' AM/FM Shortwave Radio
http://groups.google.com/group/rec.radio.shortwave/msg/a789c8fd6fcb38f2
Tell you "How To" Use and 'Connect' the "Portable Wire Antenna"
(PWA) <=TO=> your 'portable' AM/FM Shortwave Radio several
different ways.

Place this Wire Covered piece of PVC Pipe where you normally
have/listen to your Grundig G5 Radio.

Run Route the remaining Insutlated Wire out a Window.

FOLLOW - The Instructions that come with the Shortwave (SWL)
Antenna Kit to make your simple Longwire {Random Wire Antenna.

MODIFIED - "Hook-Up" of the RadioShack Shortwave (SWL)
Antenna Kit : Instead of a 'classic' Longwire Wire : Make It a
Windom Antenna.

The Wire {Bare Copper} Antenna Element is 75 Foot long.

* Instead of 'connecting' the Insulated Wire {feed-in-line} at
one end of the Wire Antenna Element

* Connect the Insulated Wire {feed-in-line} at a point that is 28
Feet
from one end of the Wire Antenna Element. This gives you two
Antenna elements from the one piece of Antenna Wire :
The Shorter is 28 Feet -and- The Longer is 47 Feet

* Rig the Two Ends of the Wire Antenna Element using the Plastic
Insulators and Nylon/Poly Rope like you would the Longwire Antenna.

Double Modifying the RadioShack Shortwave (SWL) Antenna Kit
for use with 'portable' AM/FM Shortwave Radios

MOD # 1 - Feed-in-Line Wire at the Radio-End 'modified' to a
"Portable Wire Antenna" (PWA) Connection.

MOD # 2 - Wire Antenna Element 'modified' to a "Windom" Antenna
for Less Antenna Overload and Multi-Banding.

Huh?

Don't you mean you got the clothes -OFF- the line before the rain started?

Or maybe you are trying to say you put them on the line before the rain started to get a "free washing". :-)

Was back on again all last night. Female voice with five numbers followed by a pause. Heard here in NJ with any extremely powerful signal. This is the most powerful numbers station I have ever heard in the 25 years I have been listening.

1322. On The rec.radio.shortwave FAQ Issue

Newsgroup: rec.radio.shortwave

I have just finished creating a basic FAQ for rec.radio.shortwave which is titled "Users' Guide To rec.radio.shortwave" which I shall post to the newsgroup (as well as making available on the web) in a few moments (which is to say, after I first post this prefatorial and finish my morning cup of coffee).

Because of this, I have decided it might be best for me to introduce myself for the benefit of those who don't already know me, and to explain what I'm trying to accomplish here.

I am John Kasupski, age 49 and a resident of the USA township of Tonawanda, New York, which is a suburb of Buffalo. I have been a radio hobbyist since I was eight years old and over the years have dabbled variously in shortwave broadcast listening, AM broadcast band DXing, scanner monitoring, CB radio, ham radio, and shortwave utility station monitoring. I currently hold a General class ham ticket, callsign KC2HMZ, and was also registered monitor KNY2VS back when CRB Research used to issue those registry IDs. Currently, I'm active with two local radio clubs and three or four public service organizations (ARES/RACES, CERT, etc.), and I am a contributing editor for Popular Communications Magazine, for which I write a monthly column on utility communications as well as occasional feature articles.

I have decided to undertake this primarily for these reasons:

1. I am qualified to do so, being not only a person employed in the business of writing about shortwave, but also being an experienced FAQ maintainer who has maintained and continues to maintain an FAQ for one of the sports-related newsgroups here on Usenet, and

2. If someone active in this newsgroup does not assume this responsibility, the group in charge of rec.radio.info will eventually do so. Insomuch as none of the members there seem to be active in this newsgroup or post anything here other than to add to the pollution here by using an autoposter to crosspost the FAQ from their group to this one, frankly I'm inclined to wonder about their motives, but I will not digress onto that tangent - suffice to say, I think it better if the FAQ postings for rec.radio.shortwave are handled by someone who is actually active in rec.radio.shortwave rather than by outsiders.

As set forth in the "Users' Guide To rec.radio.shortwave" document that I shall post in a few minutes, I hope to also come up with other documents to replace the set of postings that Ralph Brandi used to maintain until they basically disappeared from the group back in 1996, which I will write personally if necessary. However, I am not trying to take over the newsgroup, own the newsgroup, moderate the newsgroup,

etc. - I am simply attempting to provide a service FOR users of this newsgroup, BY users of this newsgroup. Thus I encourage everyone who is knowledgeable in the radio arts to write articles explaining the basics of various facets of the hobby such as SWBC DXing, QSLing, AM/FM DXing, etc. to add to the new set of articles, and thus help fill the void left when Mr. Brandi vacated his stewardship of these various documents.

As for the document I shall post shortly, consider it a work in progress, and feel free to supply comments and suggestions for improving it - I'm sure I'm not the only intelligent person in this newsgroup, and if two heads are better than one as the old cliche holds, then with all the knowledge about radio that is on hand in this group, it ought to be possible for us to collectively produce an excellent reference on the subject!

Actually, she died. But thanks.

The point is, your question has no valid answer, so I'm not going to
bother providing one. Nor, since you seem to be fine carrying on both
sides of the conversation, is there any need for me to do so.

If you go back and read the history, and read it closely, you'll see
that the premise of your question is incorrect on it's face.

"Nothing happened" not being an acceptable answer is an interesting
condition. Because the truth is: Nothing happened.

Why not just post a link to the Google results page, instead of posting each individual site?

Why not follow rules for punctuation? Those of us with licenses know the rules require that communications be as clear as possible, in the interest of keeping monkey chatter to a minimum.

(Now, Google "monkey chatter" for everyone.)

I can go back 5 years and find the same RHF posts.

What's so wrong with posting individual URLs? If you aren't interested in the info, why bother clicking on it? Newbies, the ones that might benefit the most from such actions, may not understand how to properly conduct a wide-ranging search. Sometimes the search engines bury you in URLs unrelated to what you're looking for. Castigating RHF and DXAce simply because they post links seems to be focusing negativity on the MOST USEFUL things those guys do in here. You'd think that you, more than most, would be encouraging these guys to spend more time posting links instead of ridiculing YOU daily.

Punctuation? I teach public speaking and I find that most people that even try to have perfect grammar are suffering from delusions regarding their own self-grandeur. Understandability is the key and I don't have any problem understanding what RHF is trying to say. He may not be the best speller in the world, but his efforts at disseminating antenna info hardly are suffering from any non-standard spelling or punctuation. There are many contributors in here with good punctuation and spelling, but nothing of any real value to read.

If you go back five years, you'll see that RHF was posting DIFFERENT links back then. To be honest, I think the quality of his links has improved significantly. To be honest, going back three years doesn't show a whole lot of evolution transpiring in your posts. Talk about "monkey chatter"....

To be honest, RRS is infinitely better than it was in the mid-90s. The racists and neo-Nazis that use to make about half the posts in here have disappeared. If you don't like RRS, there are now plenty of other places (with moderation!) where you can get info.

Do you really believe, David, that your own posts convey as much valuable info as do at least some of the posts of Steve and Roy? I'm truly sorry that you've been picked on as much as you have, but your

posts are NOT the reason I've been reading this RRS without posting.

I know I'm way less rude than DX Asshole. I know that proper punctuation facilitates easier communications, especially for the visually impaired. I know that throwing up a bunch of information, some of it contradicting other of it, is not as helpful as when someone speaks from personal experience.

I am not the subject. RHF has been turned into a filter. I don't bother w/ Ace as he is too drunk to type more than a few words at a time.

Any effort I made to stave off fascism was done in the interests of preventing the demise of the freedom required for this hobby to flourish. HF radios are illegal in many places. My only regret is that we patriots failed and that the USA is a goddam police state.

Rickets, you wouldn't know a 'patriot' even if said 'patriot' crawled up your ass and decided to spend the winter.

You're nothing more than a debutante, malcontent, faux little SOB who cares little or nothing about SW radio.

Now go listen to your satellite 'radio', and leave the real stuff to the big boys.

I'm listening to web radio at the moment. Satellite is passe`.

Your reference to the "big boys" reveals that you are a frightened
blustering twat, who must compensate by acting tough and macho. People
like you are the reason for the collapse of modern civilization. So
fucking insecure, so afraid to be characterized as sensitive, you
swagger right off the cliff.

Nobody in his right mind would live in Michigan.

A maintained FAQ is a necessity for a mainline newsgroup such as this and will be welcomed by many. The document you posted reads like a partial charter document and indeed charter information is also needed and is often incorporated into a newsgroup's FAQ as a preamble. However for a technical newsgroup, the FAQ should contain frequently asked questions and answers from the newsgroup's traffic. How do you propose to manage submissions to and editing of the FAQ? Do you seek an initial set of submissions from one or more people?

Michael

1. Passive aggression can be as irritating (and as ridiculous) as direct aggression. Both some of the most evil and stupid people I've ever met were far less rude than Steve Lare. Even rude people can be useful sources of information. (Thanks for today's Top News link, Steve!)
2. I'm visually impaired. Check the archives. My R-75 has the voice mod. RHF's stuff don't bother me. Why do you feel that you speak for the visually-disabled?
3. You would think that a professional pseudo-journalist, like yourself, would realize that providing contradictory links shows respect for democratic free choice. Let the reader discern which they choose to believe.
4. If the filter is going to be that we should be limited to discussing
only that which is experienced-based, why are you still here? Are you really suggesting that your real experience with shortwave radio comes anywhere near the real-world DXing experience of Steve Lare or the real antenna info being facilitated by RHF? I think these guys are winning on the level of who has the most useful personal experiences to convey.

David, exactly, what is your role in the community, again? Are you here to tell us that we're members of a dead hobby?

Congratulations.

I've noticed them a few times in the last few weeks. My "20" is a few miles south of the Pentagon, where I maintain a VHF listening post to monitor air traffic at Andrews AFB - AF1, Marine1, that sort of stuff. I generally hear them between 2000 and 2100 UTC, which is 3 p.m. to 4 p.m. EST.

The first time I heard them, a few weeks ago, I thought they were Australian, from the accents. They play pop music. They remind me of a station I used to listen to twenty years ago. I think it was called "Radio 5," something like that. They were in Capetown, and I used to hear them about 1 a.m. on the east coast of the US. That would be the middle of the day in RSA. They were especially strong in the winter.

Primetime says CVC International is in Zambia. It also says the broadcasts are aimed at Africa, so the electromagnetic wave thingies are flying a right far piece beyond the target audience.

http://www.primetimeshortwave.com/time.txt

Google also comes up with these hits:

http://www.primetimeshortwave.com/africa.txt

Online Music, Shortwave Radio, Streaming Media - CVC.TV
http://www.cvc.tv/go/fuseaction/schedule.main/lang/english

The website says the target area is NW Africa. Why they would be broadcasting in English to that region, I do not know, as it is largely Francophone.

Please give them a listen. See what you think.

I have a rfi noise that is throughout the entire shortwave spectrum (0.1-30 mhz) at about an equal strength - it occurs approximately every 60 khz (and sometimes every 30 khz).

The noise is very strong - S9 - S9+20 db, on a very short antenna (6 feet) to my Drake R8, despite my radio being 25 feet or more from the noise source. The noise comes from a nearby appartment.

The noise is 24 hours/day and has been going on ever since I moved (over 1 year). It occasionally drops in strength for 1 second. A couple of the noise spurs have a beep noise that is happening once per second (could it be some kind of clock/timer?). It generally sounds like a digital hash (eg more of a hash than a buzz sound).

I'm wondering - what kind of device would produce this noise?

Do you also see this on a TV set with external antenna/rabbit ears (NOT cable)? Try low VHF (channels 2-3-4).

How do you know that it's from a 'nearby apartment' and not from outside the building? Do you have a battery operated receiver that you can use to check outside?

Could be *anything*. If you are sure it's originating in the building, try working with the super or the building maintenance manager. Also, see if any of your neighbors are getting any radio or TV interference...that will give you more leverage with the super.

Sorry to be so brief, but numerous entire books have been written on interference tracking. Hopefully, this will at least point you in the right direction and allow you to gather a little more information for us.

And while you're at it, make sure to also send an abuse to
abuse@newsguy.com for this posting from Desertbob as he seems to have an
obsession to happily spam along with Nudo and is therefore just as bad a

Old Rancher

The banker saw his old friend Tom, an eighty-year old rancher, in town.

Tom had lost his wife a year or so before and rumor had it that he was marrying a "mail order" bride.

Being a good friend, the banker asked Tom if the rumor was true. Tom assured him that it was. The banker then asked Tom the age of his new bride to be. Tom proudly said, "She'll be twenty-one in November."

Now the banker, being the wise man that he was, could see that the sexual appetite of a young woman could not be satisfied by an eighty-year-old man.

Wanting his old friend's remaining years to be happy the banker tactfully suggested that Tom should con sider getting a hired hand to help him out on the ranch,knowing nature would take its own course.

Tom thought this was a good idea and said he would look for one that afternoon.

About four months later, the banker ran into Tom in town again.

"How's the new wife?", asked the banker.

Tom proudly said, "Good - she's pregnant."

The banker, happy that his sage advice had worked out, continued, "And how's the hired hand?"

Without hesitating, Tom said, "She's pregnant too."

Don't ever underestimate old Geezers

You face a tough task.

Finding RFI in a subdivision with separate homes can be daunting,
but in an apartment or condo complex is almost impossible. Try to
obtain a battery operated receiver such as a DX398. While you can
carry a R8 around, it will attract unwanted attention, trust me on
this,
and it is really hard to carry a R8B, a gel cell and actually use the
receiver.

A sensitive MW (AM BCB 540~1700) may work.

First just do a walk through, floor by floor and hallway by hallway.

If you are lucky you will find a 'noise bubble' that is centered on
one area. If the noise bubble covers the entire building, then you
are in all probability out of luck. If the RFI is being distributed
by
power lines, phone lines or other conductors the situation is almost
hopeless. Even if you manage to find a single RFI source, you will
almost certainly not be able do anything about it. Apartment managers
really won't care about your RFI complaints. Getting the FCC
(assuming
you are here in the USA) interested will be almost impossible. I have
fought several nasty RFI sources and only in one case could I get
the FCC interested. And in that case it really wasn't me it was the
FAA because the noise was causing them problems. I found spurs
in the aircraft band and when I contacted the local FAA flight service
station and found they had the same RFI. Since I had it pretty much

pinpointed, down to 2 houses about 4 miles from me and 2 miles from the local airport, the FCC 'swooped in' and shut down a guy who was building a massive parallel processing computer. He had over 50 PII motherboards in bread racks. No RFI shielding at all. They (FCC) gave him the option of shutting it down, or having it all confiscated. He decided
to move to Californica where I assume he is noisily working madly away on his monster.

The point I am trying to make is that the FCC is seldom interested, and
unless the RFI is causing problems for the local police or fire, there is
almost no chance of forcing anyone to act on the RFI problem.

A friend lived in a downtown condo here in Lexington, KY, finally saw the light of reason and simply moved. He fought RFI for 10 years and in the end accepted that in such a communal living situation, eliminating
RFI was a fruitless and hopeless task.

Sorry to be so negative but I try to be a realist.

You might find it useful to consider doing your DXing from a city, county
or state park or wild life refuge. For serious DX I go to a friend's cabin
that is located deep in the Daniel Boone National Forrest, far away from
all man made noise sources.

We had 4 power outages in late December and into New Year's eve. And I had a wonderful time with all of the local, within a mile, AC QRM was simple
gone. If it wasn't so cold, another power outage would be fun. Of course
it will get down to 4degrees F Saturday night, which might make DXing less
then fun.

I didn't complain but you decided to mention me at the end of your post
anyway.

He generally supplies pointless informational links. Same result as
going to Google and search on antenna so what is the point?

Yes junk runs counter to informative responses posted to the news group.

Since you are not technically orientated I doubt it. Maybe if you use
the part of your brain devoted to debating for knowledge on the subject
of SWL, radios, and antennas you will come up to speed.

Oh, for heaven's sake. There's this little button at the top of the
screen -- it's a search button. If you think someone usually makes
sense - put in their name and you can see their posts.

It takes two seconds to pass by the people that you feel don't make
sense. This isn't nuerosurgery -- it's a nice group of people who
like talking about radio - shortwave mostly - and some other forms of
media. And if the others want to post stupid stuff -- just ignore
it.

Yeah sure thing. First off he did not bother to post a link to the news group FAQ, which you can get here <http://www.faqs.org/faqs/by-newsgroup/rec/rec.radio.shortwave.html>

And second off he forgot to mention that I bought this news group from Ralph back in 1996 so if you are posting or reading here "you are welcome." I will continue to provide this news group free to the public for the foreseeable future.

Well, I cann assure most everyone here that I've done 100% of my DX'ing without
the help from anyone here, and I've had a moderate amount of success.

That's very precise. I think I got it now. I'll be watching for
those coupons. Just one question. Who do we order the coupons from?
I know I'm seem illiterate. But I don't watch that much TV so I
haven't really paid a lot of attention to the whole conversion plan.

You're relatively in the tropics; we expect perhaps -20 F on Sat. night
with windchills to -60 F. here.

Sorry, I should have posted the ordering info originally...and yes, I
agree -- there's not a lot worth watching on TV other than some PBS
documentaries. :-(

Here is the site:

https://www.dtv2009.gov/ on the web or call 1-888-DTV-2009.

You may want to order soon, because there are 'only' about 22 million
(!) coupons being offered, and when they're gone, they're gone.

I should have mentioned 2.8 kHz filter, USB. Listening to this sound
and comparing with the 'aussie drifter' sound, it seems to be very
similar, just different duty cycle, on a different band.

It costs next to nothing as it is hosted on servers belonging to ISP's
and some news services that charge their subscribers. Most people read
it for the entertainment value that exceeds most sitcoms.

A lady took a limp duck to a veterinary clinic.The vet said, I am sorry, but your duck is dead.She said, Aren't you even going to examine my duck to be sure my duck is dead? The vet brought in a Labrador Retriever dog.The dog stood on his hind legs with his front feet on the examining table and he sniffed the duck from head to tail and he shook his head sadly.Then the vet brougt in a Cat.The cat jumped up on the table and sniffed the duck from head to tail, the cat shook his head sadly.Then the vet said, That will be $150.00.The lady said, What?,,, $150.00 to tell me my duck is dead? The vet said, if you had listened to me first, the bill would have been only $20.00.Because of the Lab Report and the Cat Scan, I have to bill you $150.00.

G'day Aaron,

A very similar thing happened to me!! I track the bugger down to Touch Lamps. They are the most if not worse than CRT tv and computer monitors, source of RFI.

Touch lamps are "on" in principle 24x7 until you tounch them and the light turn on and off, but to totally off etc.

If your nieghbour(s) has them, then hmmmm not sure what you can do dipolmatically and cheaply :(

For me, told the wife whats what (in otherwords beggged) and got new lamps (The expensive ones she liked).

Another couple of suggestions / possible source are

1. Broadband over power lines (BPL) or worse

2. These new home network things that you can network your house through the power sockets using a network to power socket thingy that plugs into the power socket and acts as a network ....

Mark

Congratulations, you've written the definitive comment on the state of this group. It's become a perfect example of the lowest common denominator principle. Like yourself, I used to make numerous on-topic posts but it's hardly worth the effort anymore. The moderated groups on Yahoo and others are a breath of fresh air compared to here. I encourage everyone who is fed up with this group to check out the alternatives. Maybe someone here, (guess who) will give us a list of all of them, ad nauseam. What alternative shortwave topical groups do you like?

Of course not! Like most of the debutante, malcontent, and faux posters you'd actually rather sit and whine.

In reality, you probably don't have anything to contribute anyway.

A tip for you: Nobody, and I mean NOBODY is stopping YOU from posting ANYTHING.

"couple of the noise spurs have a beep noise that is happening once per
second (could it be some kind of clock/timer?)" also digital hash.
Had this, it was apparently feeding into my house via the cable system.
The cable guy mentioned that it may be some type of local medical appliance
causing the problem, radiating to the cable lines, but I've also had this at
a different location as well. The cable company itself could be the
culprit?
Disconnect your cable at the in connection usually outside at the box
attached to your wall. Just break the seal and disconnect it....tell them
it might have been some kids that did it, if they even ask.
If this fails, run the radio from a battery source and shut the main
breaker off. This will at least let you know if the interference is from
either outside the house or in.

I have no idea what RHF's personal knowledge of antennas entails. I know he puts up links to antennas that don't work very well, are sometimes overpriced, etc. He just seems to be repeating things.

FYI I used to provide the bulk of EE language loggings for a now-defunct DXer magazine. I logged Tahiti's little flea-power on 15.XXX in downtown Houston, in the daytime, on one of my 2 R-390As, and my 120' steel random wire. Confirmed.

This was back in the late '80s, when the Sun was spottin' and the Cold War has hoppin'. SWBC was still viable back then. GHFS was almost as entertaining. Since then, it's been steadily downhill, both propagation-wise and target wise.

The cultural aspect of SWL cannot be disregarded and frankly I'm shocked that so many "American" people here are listening to other cultures but not hearing the message. The USA is a rogue nation. The USA is the greatest threat to world peace. What! Impossible!

I make no apologies for being annoying to bigots.

I don't watch sitcoms, as a rule. However, when my neighborhood's in
flames I like to see the Hi Def helicopter shots. When they bury an ex
president I like to watch the parade. I watch the debates to see who
the biggest phonies are (you can't see body language on the radio).

How do you watch movies w/out a TV?

I don't know what you mean by this, and I don't care enough to"check the archives". I'm 58 and have to wear reading glasses. I am a speed reader and rely heavily on capital letters being confined to proper names and the first letter of a sentence. I don't expect midair hyphens and tildes.

As communications hobbyists we should respect the rules of communications. Do that "artsy" shit somewhere else.

Well, it was 20 kW, hardly 'flea-power', and, it was on 15.xxx.

Also confirmed here, but on 11825 in 1983.

1420. NIST Considers East Coast WWVB Broadcast

Newsgroup: rec.radio.shortwave

This comes from the latest RadioWorld NewsBytes:

==========

The National Institute of Standards and Technology is considering setting up a U.S. East Coast low-frequency radio station broadcasting NIST time in binary code format to complement the present NIST 60 kHz, WWVB broadcast.

"The proposed new East Coast broadcast will operate with the same time code format as the present WWVB signal, however at a different carrier frequency, potentially at 40 kHz," John Lowe, the WWVB station manager, told RW.

Eight years ago, the power of the WWVB broadcast out of Colorado was increased from 13 kW to 50 kW and has since been increased to 70 kW, he said; but "even at this power level there are locations on the East Coast that have difficulty consistently receiving the time code."

Some advocates say an East Coast broadcast would make the time code easier to receive, increase sales of radio-controlled clocks and spur development of radio-controlled timing devices in appliances and other consumer products. Lowe is seeking comments about the possibility and asks that readers write to him. His e-mail address is lowe@boulder.nist.gov.

==========

I think this would be very welcome though it would do nothing for those radio-controlled clocks already out there. I also wish that all newly-designed shortwave radios would feature a radio-controlled clock that could show two time zones - the local one and UTC.

Best,

Joe

He's giving people plenty of different links to info about something
you have to use if you use an actual radio - antennas. given that you
no longer use radios, you're reasons for not caring about such info
are obvious.

Actually Tahiti was on 15.179 with at least 20 kW. I heard it
regularly during those days on portables using just their whips.
Confirmed. (BTW, they broadcast in French...) So, your claim to
experience comes from experiences 25 years ago?

Life is what you make of it. While there are certainly a different
lineup of broadcasters than 20 years ago, I have no problem finding
enough stuff on the air to keep me interested. Lare's links to updated
DX info facilitates that enjoyment and provides a much better source
of info than those old club publications of the '80s.

You sound like your mindset was shaped by listening to Radio Moscow in
the 1970's. Like you, I'm sometimes dismayed by American foreign
policy, but this is simply not the forum for such conversations. There
are plenty of other places where such conversations would be welcome,
but I sure hope that you can refine your observations to be more
specific. Otherwise, you'll get eaten alive in the real political

forums. Also, I've noticed the Lare seldom initiates his own political observations - he mainly responds to people, like you. So,,,,,,,,,

How about just apologizing for being annoying? You were around in here back in the old days when this place was awash with real bigots, like Kevin Strom. I sure don't remember you feeling the need to stand up to them like you perceive you are against Steve.

David, you're negativity against shortwave radio is far more annoying in a shortwave group than are Lare's persistent insults against you or the Canadians. After seven years, most of us just laugh at Steve's posts. Like we do with Cuhulin. But almost everytime I read one of your posts, I want to spit on my monitor. Why do you stay in here? Admit it, you enjoy "tweaking" people's noses, by constantly using your "experience" to tell us how outdated we all are.

Enough. I made my point.

Off to celebrate my 50th birthday,

Why thank you, Steve. I think that's the kindest thing you've ever
posted to me! Don't let anyone ever keep you from posting your links.
Your posted logs on Tanzania back in the summer were awesome. Got me
another country!

I hope you are doing well.

Well, you do mean Zanzibar, correct? At any rate, congratulations on a new one. Don't let the naysayers get ya down!

One thing I've noted of late is that 11735 is sometimes absent. Must be they have occasional transmitter problems. But, when they are on, they do have some interesting music, and of course the sometimes English at 1800.

Well, you are right. In the NASWA country list it counts as Zanzibar,
though that area is now incorporated into the nation known as
Tanzania. The thrill of hearing a new country is what keeps me in this
hobby. Your DX logs serve as valuable targets for me to attempt.
Thanks.

Thanks, again. I was wondering if my recent problems in hearing them
on 11735 might be related either to propagation or antenna problems.
Thanks for clearing that up.

Take it easy!

Thinking of Tanzania itself (which is currently inactive out of Dar-es-Salaam, operating on 5050), I got very lucky a few years ago when I noticed that another DX'er had received a QSL from them. I had sent reports in the past but had not received a reply. So I zipped off a copy of my report from 1993 and was fortunate to receive a QSL.

Here is an example of the card:

This is a hobby where patience is often required.

You're the perfect example?

1435. Interesting - Monaco Radio 8728

18 Jan at 1402 UTC while scanning the bands, noted
presumed National Anthem on 8728 USB. This was
followed by female announcer "This is Monaco Radio.."
She gave the sched of weather forecasts. At the end
"...brought to you by the Principality of Monaco and Naya"
Gave website www.naya.mc then Anthem and off.
The HF sched was a mixture of French time and GMT.
I guess it was like this:
Western Med 0930, 1403, 1930 French time (should then
be 0830, 1303, 1830 UTC)
Eastern Med 1030 GMT
Atlantic 0930 GMT

All on channels 403, 804, 1224 and 1607 which means frequencies
4363, 8728, 13146 and 17260.

As earlier reported by others, Monaco Radio didn't sign-off
at the end of 2007 but is still audible.

I was Dx'ing before you knew what the word meant. I made more on-topic
posts here during the past ten years than most, certainly more than you,
so don't lecture me about what I have or could contribute. Go back and
look at all the contributors that used to make useful posts here and
you'll see that almost all of them are gone. They left because of
'people' (I use the word loosely) like you with a Jekyll and Hyde
personality, who think they can act like a cretin one moment and then
expect to be taken seriously when they post something on-topic. All of
your supposed Dx'ing knowledge isn't worth the grief and insult of
wading through your endless BS.

Insomnia report

Numbers in Spanish on 9238 kHz AM at 2:16 AM PST. (10:16 UTC, Friday).
Female voice, appears to be computer generated (spliced, not synthesized).

I'm a bit puzzled as to the target area. Supposedly these are
instructions to agents out in the field. "Excuse me, honey, I have to
get up at 5 AM to listen to the radio."?

David - OK - Well in that 'respect' We Are Even : Most of the Time
I Don't Know What I Know Either. :o)

Actually my personal Knowledge of Shortwave Antennas is
rather limited to the Practical Application of these three things :
1 - Wire Antenna Element
2 - Earthen Ground Rod
3 - Feed-in-Line

- I know he puts up links to antennas that don't work very well,

David - That is a matter of 'opinion' : What Works Well For One

For the most part Shortwave Antennas are the Practical Application

- are sometimes overpriced, etc.

David - The reality is that 'some people' are NOT Do-It-Your-Self-ers
and simply want to BUY a 'good' Antenna -or- "The Best" Antenna for
Shortwave Radio Listening (SWL). For them the Antenna is not
"The End" : It is simply "The Means" to the End of Listening and
Enjoying 'Their' Shortwave Radio. {A Relaxing Hobby / Pass-Time}

Most of the Antennas here* will meet their needs.
* Shortwave Antenna webpage from Universal-Radio.Com
http://www.universal-radio.com/catalog/sw_ant.html
Posting just this webpage usually leads to a few more
Questions by the Newbie :
Dipole Antenna or Longwire Antenna ?
Dipole Antenna or Sloper Antenna ?
Active Antenna or Passive Antenna ?

- He just seems to be repeating things.

With every new day comes a Post by a Newbie asking Questions

- FYI I used to provide the bulk of EE language loggings
- for a now-defunct DXer magazine.

David - I am really not a Technical Person; just a plain old
Shortwave Radio Listener (SWL).

My Posting Goal is : Keep It Simple And Practical {KISAP}
Don't Lose the Newbie in a lot of Technical Stuff that they
do not need to hear : In their Quest To Simple Hear Better
and Hear More on Their Shortwave Radio.

- I logged Tahiti's little flea-power on 15.XXX in downtown Houston,
- in the daytime, on one of my 2 R-390As, and my 120'
- steel random wire. Confirmed.

David - I just Listen to the Radio and the vast majority of the
Shortwave Radio Logging that I Post are those Eazy-to-Hear
Shortwave Radio Stations that any Newbie with a 'good'
Portable Shortwave Radio with a Whip Antenna could hear.
-Note- I do this in the hope that they will try to Hear the
same Broadcaster; and having done so become more
interested in the Hobby of Shortwave Radio Listening.

- This was back in the late '80s, when the Sun was spottin' and
- the Cold War has hoppin'. SWBC was still viable back then.
- GHFS was almost as entertaining. Since then, it's been steadily
- downhill, both propagation-wise and target wise.

David - I still find Interesting Things to Listen To on the Shortwave
Radio; and still Enjoy Listening to the Shortwave Radio to this very
day.

I will make a 'separate' post dealing with the remaining Going-Off
The-Deep-End statements :

- The cultural aspect of SWL cannot be disregarded and frankly
- I'm shocked that so many "American" people here are listening
- to other cultures but not hearing the message.

- The USA is the greatest threat to world peace.

- What! Impossible!

- I make no apologies for being annoying to bigots.

david, David. DAVID !

Why do you make such "IN YOUR FACE" Statements ?

- The cultural aspect of SWL cannot be disregarded and frankly
- I'm shocked that so many "American" people here are listening
- to other cultures but not hearing the message.

David - "The Message" - You Choose to Believe 'Other' Nations
Over Your Own ! -while- Having Heard Their Message and Our
Message : I Choose To Believe My Government Over Theirs.

David - I Have An Abiding Faith In "My" Country ~ RHF
Sadly By Your Own Admission You Do Not.

- The USA is a rogue nation.

David - There You Go Again - Going-Off The-Deep-End ! -
David - Clearly You Have Gotten 'The Message"
{Bought Their Anti-American Propaganda}
and Swallowed-It Hook-Line-and-Sinker.

- The USA is the greatest threat to world peace.

David - There You Go Again - Going-Off The-Deep-End !
David - Clearly You Have Gotten 'The Message"
{Bought Their Anti-American Propaganda}
and Swallowed-It Hook-Line-and-Sinker.

- What! Impossible!

David - The "What!" - Yes You Are "Impossible!"

- I make no apologies for being annoying to bigots.

David - So the majority of this Newsgroups Readers and Your
Fellow American Citizens : In Your Opinion Are BIGOTS.

David - No Apology is Required For You Have Achieved and
Exceeded Your Goal of "Being" ANNOYING !

Once Again David :
* I Believe In America as a Force for Good in the World.
* I Believe In The American People and Their Basic Goodness.

(OT) : David -proclaims- The USA Is A Rogue Nation. &
The USA Is The Greatest Threat To World Peace.

God {Allah} Bless America and All Americans - Amen ~ RHF

HOW TO MAKE QUICK MONEY WITH ONLY $6.00?!!! turn 6 dollars into
thousands,
IT REALLY WORKS!!!!!

AMAZING PLAN TO BECOME RICH IN DAYS AMAZING PLAN TO BECOME RICH!! HOW
TO BECOME RICH HOW TO TURN SIX DOLLARS INTO THOUSANDS OF DOLLARS:
READING THIS COULD CHANGE YOUR LIFE! IT DOES WORK! A little while
back,
I was browsing through newsgroups, just like you are now, and came
across an article similar to this that said you could make thousands
of
dollars within weeks with only an initial investment of $6.00! So I
thought," Yeah, right, this must be a scam", but like most of us, I
was
curious, so I kept reading. Anyway, it said that you send $1.00 to
each
of the 6 names and address stated in the article. You then place your
own name and address in the bottom of the list at #6, and post the
article in at least 200 newsgroups. (There are thousands) No catch,
that was it. So after thinking it over, and talking to a few people
first, I thought about trying it. I figured what have I got to lose
except 6 stamps and $6.00, right? Like most of us I was a little
skeptical and a little worried about the legal aspects of it all. So
I
checked it out with the U.S. Post Office (1-800-725-2161) and they
confirmed that it is indeed legal! Then I invested the measly $6.00.
Well GUESS WHAT!!.. within 7 days, I started getting $$$$$ in the
mail! I was shocked! I figured it would end soon, but the CASH just
kept coming in. In my first week, I made about $25.00. By the end of
the second week I had made a total of over $1,000.00! In the third
week
I had over $10,000.00 and it's still growing. This is now my fourth
week and I have made a total of just over $42,000.00 and it's still
coming in rapidly. It's certainly worth $6.00, and 6 stamps. Let me
tell you how this works and most importantly, why it works..also,
make sure you print a copy of this article NOW, so you can get the
information off of it as you need it.
STEP 1: Get 6 separate pieces of paper and write the following on
each
piece of paper "PLEASE PUT ME ON YOUR MAILING LIST" along with your
name and address. Now get 6 US $1.00 bills and place ONE inside EACH
of
the 6 pieces of paper so the bill will not be seen through the
envelope

to prevent thievery. Next, place one paper(with a $1.00 bill inside) in
each of the 6 envelopes and seal them. You should now have 6 sealed
envelopes, each with a piece of paper stating the above phrase, your
name and address, and a $1.00 bill. What you are doing is creating a
service by this.
THIS IS ABSOLUTELY LEGAL! Mail the 6 envelopes to the following
addresses:

1. Justin Jones, 121 marlborough road, w. hempstead,Ny. 11552, USA
USA
2. Regan Hines, 22 Stature Drive, Newark, DE, 19713, USA3. Regan
Hines,
22 Stature Drive, Newark, DE, 19713, USA
3. Catherine Mendoza, 2017-565 Sherbourne St., Toronto, ON, Canada
M4X
1W7
4. Eric Thack, 425 Deckinson St., Philadelphia, PA, 19147, USA
5. Zoey Andre, 116 Kirklees Road, Pittsford, NY 14534
USA
6. Michael jones,3273 gilbert ave apt17,cincinnati,OH,45207
STEP 2: Now take the #1 name off the list that you see above, move
the
other names up (6 becomes 5, 5 becomes 4, etc..) and add YOUR Name as
number 6 on the list. STEP 3: Change anything you need to, but try to
keep this article as close to original as possible. Now, post your
amended article to at least 200 newsgroups. (I think there are close
to
24,000 groups) All you need is 200, but remember, the more you post,
the more CASH you make!
DIRECTIONS ---HOW TO POST TO NEWSGROUPS
Step 1) You do not need to re-type this entire letter to do your own
posting. Simply put your cursor at the beginning of this letter and
drag your cursor to the bottom of this document, and select 'copy'
from
the edit menu. This will copy the entire letter into the computers
memory.
Step 2) Open a blank "notepad" file under accessories in windows and
place your cursor at the top of the blank page. From the 'edit' menu
select 'paste'. This will paste a copy of the letter into notepad so
that you can add your name to the list.
Step 3) Save your new notepad file as a .txt file. If you want to do
your postings in different sittings, you'll always have this file to
go
back to.
Step 4) Use Netscape or Internet explorer and try searching for
various
newsgroups (on-line forums, message boards, chat sites,bulletin
boards
discussions.) .

Step 5) Visit these message boards and post this article as a new
message by highlighting the text of this letter and selecting paste
from the edit menu. Fill in the Subject, this will be the header that
everyone sees as they scroll through the list of postings in a
particular group,click the post message button.
You're done with your first one! Congratulations..THAT'S IT! All you
have to do is jump to different newsgroups and post away, after you
get
the hang of it, it will take about 30 seconds for each newsgroup!
**REMEMBER, THE MORE NEWSGROUPS YOU POST IN, THE MORE CASH YOU WILL
MAKE!! BUT YOU HAVE TO POST A MINIMUM OF 200** That's it!
You will begin reciving $$$$ from around the world within days!
You may eventually want to rent a P.O.Box due to the large amount of
mail you will receive. If you wish to stay anonymous, you can invent
a
name to use, as long as the postman will deliver it. **JUST MAKE SURE
ALL THE ADDRESSES ARE CORRECT.**
Now the WHY part:
Out of 200 postings, say I receive only 5 replies (a very low
example).
So then I made $5.00 with my name at #6 on the letter. Now, each of
the
5 persons who just sent me $1.00 make the MINIMUM 200 postings, each
with my name at #5 and only 5 persons respond to each of the original
5, that is another $25.00 for me, now those 25 each make 200 MINIMUM
posts with my name at #4 and only 5 replies each, I will bring in an
additional $125.00! Now, those 125 persons turn around and post the
MINIMUM 200 with my name at #3 and only receive 5 replies each, I
will
make an additional $626.00! OK, now here is the fun part, each of
those
625 persons post a MINIMUM 200 letters with my name at #2 and they
each
only receive 5 replies, that just made me $3,125.00!!! Those 3,125
persons will all deliver this message to 200 newsgroups with my name
at
#1 and if still 5 persons per 200 newsgroups react I will receive
$15,625,00! With a original investment of only $6.00! AMAZING! When
your name is no longer on the list, you just take the latest posting
in
the newsgroups, and send out another $6.00 to names on the list,
putting your name at number 6 again, and start posting again. The
thing
to remember is, do you realize that thousands of people all over the
world are joining the internet and reading these articles everyday,
JUST LIKE YOU are now!! So can you afford $6.00 and see if it really
works?? I think so.. People have said, "what if the plan is played
out
and no one sends you the money? So what! What are the chances of that
happening when there are tons of new honest users and new honest

people
who are joining the internet and newsgroups everyday and are willing
to
give it a try? Estimates are at 20,000 to 50,000 new users, everyday,
with thousands of those joining the actual internet. Remember, play
FAIRLY and HONESTLY and this will work. You just have to be honest.
Make sure you print this article out RIGHT NOW, also. Try to keep a
list of everyone that sends you money and always keep an eye on the
newsgroups.

Have Fun!.. and Make Thousands

JA,

Why not simply add another 50KW Transmitter and a Directional
Antenna pointed at the North East / New England Region at the
present WWVB Transmission Site ?

Or pay half of the cost for Canada set-up a WWVB type Boardcast
Transmitter on their side of the Border somewhere near Ottawa.
It would serve their geographic needs and our East Coast needs too

An article should be self-contained, a link should merely be
to reference it. We shouldn't have to go digging because
someone is too lazy to paraphrase what they want to talk about.
(That refers to the original poster.)

And if "RHF" and his buddies weren't so intent on jabbering
on, it would be far easier to find messages such as these.

That said, the issue is about the needed power. Whatever
power is at the transmitter, it will be terribly attenuated
by the time it hits the moon, and then has to come back the
full distance to earth, which means the same amount of attenuation
on the return path. We're talking massive distances compared to
terrestrial communication.

In order to get a reasonable signal when it gets back to earth, one
needs to start with a nice strong signal. While there are issues
with the higher frequencies, a key advantage is that you can actually
get high gain antennas in reasonable size the higher you go in frequency.
So the effective radiated power can be far greater than the actual
transmitter output power. One way of looking at is that the transmitter
signal is aimed where you want it, rather than dissipated in all directions.

The lower you go in frequency, the harder it is to get much gain in antenna,
for the simple reason that few have the space to make an antenna big enough
to get any sort of gain down there.

If you can't get the gain with the antenna, then you have to boost power
quite a bit, because a lot of it will be wasted. The moon is a pretty
small object in the sky, yet the less directional antenna will spray
the transmitting signal all over the sky, with very little of it in
the direction of the actual moon.

A lot of moonbounce expects a reasonable gain antenna at the receiving end.

If they really expect average people to be able to receive the signal, then that accounts for an even higger boost of power, since they have to compensate for far lower gain at the receivers.

On the other hand, it's far easier to generate power at 6MHz than at 2GHz. And receivers are simpler too.

The US Signal Corp were the first to do moonbounce just after WWII, if I remember properly it was about 110MHz, and I don't remember the power level.

A couple of hams did it in January of 1953 on 144MHz, though it was only one way. Two way amateur moonbounce happened in 1960 at 1296MHz.

For the handful working on it in the early days, it was easy for them to get surplus parabolic dishes, which gave lots of gain, but then getting enough power at that frequency was an issue. On the other hand, unlike the Signal Corp, the transmitter input power was limited to a kilowatt.

Receivers were a problem too, since you needed good noise figure, and circa 1953 that meant tubes, and only a handful of relatively obscure tubes were suitable. Transistors helped a lot later.

When Sam Harris moved down to work at Arecibo about 1963, he got permission a couple of times to use the actual Arecibo antenna for moonbounce. THat had so much gain that they apparently could hear lots of signals from stations with no more than single yagi.

The lowest frequency that hams have done moonbounce was 50MHz, and that didn't happen until the seventies. I don't know if non-hams have done any previous work at lower frequencies.

With transistors supplying good gain at VHF and above, and more important good noise figure without all the fussing of earlier days, amateur moonbounce has become relatively common. It's helped because some stations have more than enough gain on their antennas, so simpler stations can be at the other end.

I bought an amp from him and about a year later he posts in this forum that I'm a cheat and never paid him etc etc... Anyway I did send $s but for some reason he never got it??? I have no problem giving him the money but after his behavior I could care less about him at all. Here's a link to when it started and my reply at the time:
http://groups.google.com/group/rec.radio.shortwave/browse_thread/thread/2c858e05f5338497/353ff695f80efa1c?hl=en&lnk=gst&q=cahulin#353ff695f80efa1c

I shouldn't even have to defend myself. Everybody knows me and I've been around for years and made hundreds of transactions with people on these forums and people know I'm good for my word. I'm sure you can attest to that. I don't know? I've sold him stuff before with no problems. You would think he would have given me the benefit of the doubt and let me know he didn't get the pymt in a reasonable time and not a year later on this forum by defacing my name. I don't get it? Like I said, I don't care any more.

I've recorded it with fast AGC and no AGC. I don't believe I am
hearing an echo. Signal strength is S9 to slightly above. But when
using an amplified antenna, signal strength doesn't mean all that
much.

I'll upload some audio later.

Nothing heard except the occasional radar.
Are you sure about the 6.7925 MHz? That is outside
the normal ham band.

Nothing heard here on 7407.5 kHz, listening from 0600 -> 0630Z, although
this frequency is quieter.

Note after 10PM PST the frequency changed to 7.4075. This signal is
not nearly as strong and fluctuates. At the half hour, they tend to
rest a few beats, then start up.

Again, no echo heard. (SF Bay area)

Oh bugger. My bad. I misread it and thought the
6.7925 MHz started at 0600z. I'll try again tomorrow.

- HAARP Test - Lunar Echo Experiment
- Broadcast Dates and CW Frequencies
-
- 19 JAN 2008 - Maybe 18 JAN in your 'Local' Time Zone.
- 6,792.5 kHz @ 05:00 ~ 06:00 UTC
- 7,407.5 kHz @ 06:00 ~ 07:00 UTC

FWIW - On 7,407.5 kHz @ 06:15 ~ 06:18 UTC

All I heard was a clear CW Tone about every second
with an S9 Peak at the Tone and an S7 background
noise level on the Frequency.

Re-checked 7,407.5 kHz @ 07:15 but could not hear
any CW Tone and the background noise level on the
Frequency had dropped to around S2.

New 100 kW mediumwave transmitter planned for Marathon, Florida
January 18th, 2008 - 16:32 UTC by Andy

The Broadcasting Board of Governors - Office of Cuba Broadcasting (OCB) has issued a tender for the supply of turnkey services to upgrade the power distribution system at its Marathon Transmitter Station in the Florida Keys. Work involves upgrading one of two existing electrical power services provided by the public utility service to better accommodate the planned installation of a new 100kW mediumwave transmitter system.

They could put the new station on 60 kHz as well. If they can't get them adequately synchronized they could alternate every 30 minutes or whatever. This would avoid everyone having to buy new watches. Any commercial entity who really needs accurate time switched over to GPS a decade ago.

I'm not against shortwave radio. I've never said that. I said SWBC is irrelevant. I still enjoy listening to the USCG SAR and to WWV with an automatic notch filter to take out the annoying whine.

I used to run a news department in Houston. A middle aged man signed up
as an unpaid intern, did shit work (e.g. taping the City Council;
catching feeds and archiving, etc.), and eventually got an official City
of Houston press pass. He did all this so he could have access to court
proceedings in Dallas, where it turns out his family had been killed
when a jumbo jet tried to land in a thunderstorm.

Nobody listens to AM radio anymore. What a waste of money. Does this
mean KFI can go to 100 kW?

This station is a special situation. It's most likely beamed toward Cuba,
and meant only for their listening. You can bet a LOT of folks in Cuba still
listen to AM radio, since it's reasonably easy to get Florida stations (when
the jammers aren't going... that is.. ergo the need to have a 100KW signal).

Mark,

Thanks for posting the nice recording. I would presume you are hearing the transmitter, as it is the more powerful signal. There is quite a bit of path loss to the moon and back, so if you are only hearing -one-signal, bet on it being the stronger (terrestrial) signal.

Also, to hear a reflection from the moon, the moon has to be above the horizon. As the moon was high overhead in the USA for the duration of the test, wouldn't the moon have already set (or not yet risen) in Canberra?

Also, Cuba has a really handy thing on medium wave AM radio -- Radio Reloj
(Clock Radio), with time signals every second and the time announced every
minute. (And newscasts which you can ignore, underneath the time ticks.)

One of the odder items in my QSL album is a Radio Reloj bumper sticker.
Yes, Cuba has bumper stickers, or did in the late 1980s when I was
collecting QSLs actively.

At the HAARP web site for the moon bounce experiment (http://www.haarp.alaska.edu/haarp/mbann.html), they display a graph that shows relative power of the incident and reflected signal versus time. They show the transmitted signal at ~ -65 dB; they show the reflected signal at ~ -77 dB.

Are they implying that the round trip path loss to the moon and back is only ~ 12 dB???????

You can get FL FM in Cuba, can't you? I suspect the Cubanos listen to
pop twaddle as much as anyone else and have little use for muddy old AM.

Jammers aren't necessary. Just make sure they get lots of cheap
dimmers. That's an AM radio killer.

It's gotta be closer to 100 dB path loss I would think. BTW, an
absolute level must be in dBm, or something similar. Plain XX dB always
refers to a comparison.

For comparison purposes, I should have mentioned that the nominal path
loss at 144 MHz (2 meter band) is about 252 dB.

Are you implying that fascism is a feature descriptive of anyone from Germany? Or are you just implying that a German has more likelihood of overlooking bad foreign policy?

As usual, your political observations, though supposedly couched in anti-bigotry, are excellent windows into your own ethnocentricity.

I think they're talking about the relative power *as measured at some distant point*. If you're listening at a point say, 5,000 miles from the transmitter in Alaska, you might hear the direct terrestrial signal from Alaska at -65dB, and the lunar reflection at -77dB.

In other words, 12dB is the *difference* in path loss between the lunar-reflected signal and the terrestrially-propagated signal.

(that difference still seems awfully small to me)

Another way of putting it... if there was a ham 200 miles away doing a moonbounce transmission on 144MHz... his direct, terrestrially-propagated signal at my location would be pretty weak... especially since his antennas would be pointed up, at the moon, not down along the horizon... so I would not be surprised if the *difference* between his lunar-reflected signal and his terrestrial signal was a lot less than 252dB.

VOA / Mart&#65533; Marathon has been running 100 kw for many, many years. It is the
only 100 kw MW station in the US.

In Cuba, the majority of listening is to AM. While FM exists, it is not
universally available across the country and most of the government
programming budget is spent on AM networks, not FM. They don't have HDTV,
either.

Yep. There is a 3 tower in-line directional system, and it is aimed at Cuba. There is a sw parallel out of Greenville, and there has even been recent use of an airborne MW transmitter once a week on 530 AM... a search of Glen Hauser's bulletins will find details on this bizarre use of taxpayer money.

> You can bet a LOT of folks in Cuba still listen to AM radio,

They do. Almost all the state budget for radio is spent on AM. FM broadcasting exists, but not in the scale found elsewhere in Latin America.

> since it's reasonably easy to get Florida stations (when the jammers
> aren't going... that is..

Actually, it is not easy to get FL AMs, since Cuba has stations on all but a couple of AM frequencies, and multiple stations on the channels where there are Miami Spanish stations, like 710, 670, 1140, etc. Mart&#65533; is blocked on 1180 by some of the biggest transmitters still running in Cuba. There are no jammers in the conventional sense (either the ones that produced hets, or noisemakers) any more.

> ergo the need to have a 100KW signal).

Interviews with emigrants from Cuba show that Mart&#65533; gets considerable listening despite the locals on 1180.

Cuba has FM... all stations are run by the goverment, and FM is not a budget priority. Most resorces go to AM programming.

Many parts of Cuba can not get FM at all due to terrain, and the limited power and number of domestic FMs.

5 AM would be an ideal time. The agent could hook up and listen just before
most others woke up. Probably not the best time for 007 to listen in
between mid afternoon and midnight while daily activities are taking place.

Who knows... I still cant figure out why the hell they would use analog
signals anyway. I've always felt that the numbers stations were just a

Billy,

Likewise mate, at least with your posting you can hear the Source then
echo :(

Regarding the moon, hmmm it has been high in the sky very early in the
night several days back, so its possible the moon was visible, however
its been raining hear for past 48 hrs and have major cloud cover, so I
can't visually confirm. Based on
http://www.ga.gov.au/bin/astro/moonrisenset it says for South Canberra
it should rise 1739 AEDT which was 0439 UTC.

Thats said, on the side of hope, the faint tone does sound like your echo ??

Also, during the afternoon, I not sure what the 6.9-7.5 freq like for
progation between Australia to US propagation, but I don't hear to much
until the sun sets ?? There again the Moonbounce Transmitter where using
a fair it of power.....

BUGGER!!!! hopefully ARRL / Moon Bounce team may respond to my email and
put me out of my misery :)

Either which way, your recording was brillant and shows what the signal
was suppose to sound like, do you mind if I use it on my BLOG ?

Regards
Mark

Billy,

Bloody maths failed me on UTC conversion moon rise at 1739 AEDT which is
0639 UTC, 20 min before the tests finished !!!!!!.

So once again - BUGGER!!! :)

Guys,

Reading the article http://www.haarp.alaska.edu/haarp/mbann.html If I
make sure my computer clock is acturate, I should be able to time for
the 2sec then 3sec period start from the top of the hour and this should
confirm or not if its been the transmitter :)

I bloody well should have done that yesterday :(

Last night I found out that my roof mounted vertical does a good job for 99% of the
signals I want, but the moon's elevation was maybe too high. Tonight I intend to use
several antennas. My wife and some friends erected some test antennas.

WL1030 15' high on a fiber glass ladder located in an adjacent vacant lot.

40M dipole, more like an inverted V, with the main lobe aimed where the moon will be.

An older version of one of Dallas Lankford's active dipoles in the horizontal plane.

And I will still have my Dallas's micro active antenna mounted on the roof ridgeline.

It will be interesting to see which, if any, antenna wins!

It was very odd to hear the 2 second CW tone followed ~2 seconds later by a much
weaker tone that was the signal from the moon. I never thought I would be listening to
moon bounce on ~7MHz! Tonight I intend to record it all on my Zen V Plus with WWV
on the right channel and HARP on the left. I will try all of the receivers here to see if
any has any particular advantage.

Mark,
Just a tip for automatically having your computer clock set every time
you turn it on (or additionally, it will reset at an interval you define
during your computer session).

It's a program called 'Dimension 4' that stays resident on your computer
and will run at start up (or manually) as you desire. I've been using it
for years...nice program, no bugs, free (or donation if you wish).
Highly recommended. Never worry about your computer clock being off ever
again.

Good call, Doug...that's exactly what they did (see HAARP response I
posted elsewhere).

Unfortunately, it seems like a rather meaningless comparison, as the
terrestrial signal can be all over the board due to the vagaries of
propagation. Sort of like measuring something with a rubber ruler... :-)

In general terms, where are you located? I am in NH and the terrestrial
signal here was not much better than your echo return with the echo
return here weaker still. There was considerable fading in and out on
the terrestrial signal and the echo was absent more than it was present.
The echo was strongest here at 35 past the hour. I never did hear a
signal on 7407.5 kHz that I could say for sure was there.

Hi guys--

For those of you interested, My RF Systems MLBA-MK4 is relisted on ebay. The original buyer turned out to be Canadian contrary to the auction rules-- we tried shipping but it got so screwed up with customs and UPS that we cancelled the deal.

Great chance to save on one of the best antennas still manufactured today: http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&rd=1&item=330205699107&ssPageName=STRK:MESE:IT&ih=014

Had that happen to me once-- I said "Ships to U.S. Only" for one particular auction and high bidder was a Canadian, eh. Not sure if he didn't understand the "U" or the "S" or the "Only". It pays to keep an eye on your bidder's location, but you're sort of stuck if they snipe and don't leave you enough time to bounce their bid.

Interesting...and confirms what I've already discovered. Don't know why, but I've had an easier time sending eBay stuff to Japan, Hong Kong, Taiwan and South Korea than Canada. (Exception- Canada seems OK for items small enough for U.S. Mail).

It came and went here , I happened to record when I was hearing the echo

Me either, but that was due to Major QRM/QRN at my location

The Reverse is also True - Canadian Sellers on eBay face a problem
when Mailing/Shipping to the USA.

The High Cost of Postage to the USA from Canada drives the Total
Cost of the Items up so much that it in-fact Cheaper-to-Buy America
{from a US Seller on eBay from within the USA}.

The Smart Canadian Sellers near the Border : Drive Across the US /
Canadian Border and simple use the US Mail : To Save Cost & Time.

Payments To Canada {Except for PayPal} are another Real Issue.

Pipester,

You can hear both the Originating Earth Pulse and the Reflective
Lunar Tone : Although I understand that the Reflective Lunar Tone
that you are hearing is actually Echo from a couple of Pulses
before.

Note - There is a 2 1/2 Second Round-Trip Lunar Propagation Delay.

David,

Yeah - There must be some way of 'expanding' the WWVB Broadcast
System without requiring a Major Upgrade / Replacement of the basic
Receivers for the newer service.

It's very easy to restrict bidders. It has nothing to do with any words in the listing like "Ships to US only", etc. When you list the item, you specify in a drop-down box where the item is available. Bidders with addresses outside that area cannot place a bid.

I notice that this listing says Ships to: Worldwide, so there are no restrictions on who can bid.

Greetings:

Last night here in No. MN, I heard nothing and the two frequencies had serious QRN. Today, at 0300Z, the 20th, their is a vicious buzz on these frequencies, +/- 2 Mhz across the band at my QTH, and also heard on an Internet rcvr 150 miles south of me. It is unlikely that I will be able to copy any weak signal under these conditions and propagation on these frequencies is not conducive under the best of noise conditions to hearing any skywave signal from Alaska anyway here at the scheduled time.

I wonder if there really is demand for it. Being outside of the U.S., I can't say for sure, but I thought that GPS location was required in cell phones sold there (not here).

If that's the case, it would be likley that cheap GPS clocks could be made, and they are not affected by the noise commonly produced by many modern electrical/electronic devices.

For the home and many businesses, a WiFi or ethernet clock synchronized using NTP (Network Time Protocol) would be preferable as more and more people have broadband Internet connections which are on all the time.

Another option would be to insert time signals in cell phone control channels, if they are not already there. Cell phone receivers are cheap, would not require a service contract as they would never transmit anything, immune to most RFI, and cell phone service covers almost all of the U.S. and most other countries.

IMHO it's a case of trying to extend a service that is rarely used (how many people actually have radio synchronized clocks?) and can be easily replaced with much newer and better technologies.

I understand that this would require the few people that want synchronized clocks that have not gone to GPS or NTP already to buy new ones, but isn't that the way things are done these days?

Geoff.

Absolutely. GPS only works in a clear area with good view to most of the

I think that echo you hear is the one that results from the terrestrial pulse you just heard, and not 1 or 2 back. My guess is that the leading edge of the reflected pulse arrives approx. 2.5 seconds after it leaves and the same for the trailing edge of the pulse. That means if you look at entire 5 second time line, at 0 seconds the earth pulse starts and at 2 seconds it ends. At 2.5 seconds the beginning part of the echo pulse arrives and at 4.5 seconds (2.5 seconds after the terrestrial pulse ended) the end of the echo pulse arrives. There is always 2.5 seconds between any reference point on the timeline of the sent pulse to the corresponding point on the timeline of the return pulse. One complete cycle of send/receive should be approximately 4.5 seconds. I think that

is why they selected 5 seconds between sending 2 second pulses. At
least that is the way I view it. I am open to other views.

Agreed, Michael. That is why the document I posted mentioned the other documents that were also formerly posted by Ralph Brandi, indicated an intention to also include documents to replace that set of postings as soon as they could be written, and invited knowledgeable individuals to assist in their creation.

>How do you propose to manage submissions to and editing of the FAQ?

As far as submissions are concerned, obviously anyone with access to rec.radio.shortwave can post submissions to the newsgroup. I'm not sure what you mean by "editing" - but if anyone writes something up for potential inclusion in the FAQ documents and would like me to check spelling, grammar, punctuation, etc. I can do that - and the e-mail address on my posts here is not munged. If there are issues related to the accuracy of the content od those documents, those can hopefully be discussed in the group, and a consensus reached concerning what the documents should actually say.

>Do you seek an initial set of submissions from one or more people?

Well, yes. I believe I indicated that while I am willing to write them myself if need be, that I encouraged persons knowledgeable about a particular topic to consider helping to create the new set of postings. If you refer back to my post just prior to posting the dicument, you'll see that I said, "I'm sure I'm not the only intelligent person in this newsgroup, and if two heads are better than one as the old cliche holds, then with all the knowledge about radio that is on hand in this group, it ought to be possible for us to collectively produce an excellent reference on the subject!"

Bottom line, I'm not trying to take over the show, merely act as a facilitator to get the ball rolling here.

The bio info there is somewhat outdated, having not been edited in
quite some time, but obviously the info on the status of my ham
license shown there is current - and updated bio info was offered by
me in my post to this newsgroup titled, "On The rec.radio.shortwave
FAQ Issue" so that anyone who wishes to find out who I am may do so.

Yes, and countless more, but that's not what a newsgroup FAQ is
supposed to be for. A group's FAQ is to familiarize users with general
information specific to the topic(s) of that newsgroup, not to
familiarize them with Usenet etiquette.

I'm sorry if you have a problem with the fact that the document is
copyrighted, but if you look around at other newsgroup FAQs you will
see that the vast majority of them are, in fact, copyrighted, which
practice started long ago and was intended to prevent unscrupulous
individuals from using them for their own personal gain rather than in
the manner in which they were intended to be used.

Beyond that though, your comments have caused me to realize that the prohibition contained in the copyright notice against unauthorized review might tend to inhibit discussion of the content of the document in this newsgroup, which is not at all what I intended. Quite the opposite, in fact. Therefore, the next posting of the document will have a modified copyright notice indicating that quoting from the text of the document in posts to this newsgroup for the purpose of discussing its content in this newsgroup is not considered by the author to be a copyright infringement.

In the meantime, do not let the copyright notice discourage discussion of the document's content.

HAARP test--1-19-08//0550z--6792.5khz.

both HAARP(very loud) and echoes heard in central texas-echoes were
weak but entirely readable--some QSB meant there were times when
echoes became inaudible----7 meg. freq. was a basket case of SWBC QRM--
nil hrd there--

will not try tonight--

Sure, and do you realize that 60kHz signals don't work in many
buildings, around a lot of modern electronic equipment and so on?

If it produces noise that interferes with an AM radio, it will interfere
with a 60kHz clock. CFL's are especialy bad.

Even if the signal did reach here, which according to the NIST it
won't, nothing could receive it over the noise.

True enough, though I would suggest the same would apply to the lunar signal. The Moon isn't perfectly flat - and any signals bounced off it have to pass through the ionosphere (twice). Ham moonbounce VHF communications are subject to changes in propagation, and I'd bet those effects would be even more pronounced on HF.

I would suggest the purpose of the graph was to show in general terms how to identify whether you were hearing the HAARP signal or not, and if you were, whether it was the terrestrial signal or the lunar signal. (or both)

G'day Guys,

I can hear the tones, but based on the timing sequences, what I'm actually hearing is the Transmission Tone faintly, so there is no change of me hearing the echo :(

I have two recordings:

1. The first is a screen video capture of the Atom Clock Software and the radios audio for audio to show the timings:

http://www.mediafire.com/?2v11ey4l1xd

2. is just an mp3 recording of similar period.

2008 01 20 0635z 6792.5 kHz
receiving repeated 2 seconds key down, 3 seconds key up
peaking at s7 with QSB in socal.

Hmm. The moon is about one light-second away (one way)
isn't it. So the echo should return in the key up
intervals. I haven't heard an echo but it has sorta looked
like there was a faint one in the waterfall a couple times.

They should transmit a chirp.

Oh yeah. Definitely got it.
2008 01 20 0740z 7407.5 kHz peaking s3 in socal.
receiving repeated 2 seconds key down, 3 seconds key up
with definite echos in the key up periods. Echos are audible
and visible in the waterfall display. Comes and goes. When
the echo is there it almost sounds like a continuous tone.

I'm using a JRC NRD-535D receiver and a Heathkit active audio filter.
The up signal is about S-4 and the reflected is about S-2 with the
usual up and down fading.

Guys,

The 7407.5 khz freq was had slightly louder tones, but still no detectable echo :(There was a couple of jokers also that played CW a few times :(

Like before two Recordings:

I wish I could but I'm not set up for recording. I'm actually
listening on 7.40690 which is an offset of 600Hz with the active audio
filter in peak mode.

The reflected bounce signal seems to have a little bit of dopler shift
on it and sounds slightly higher in frequency than the two second up
transmission.

The 7 MHz signal is louder than the previous 6 MHz signal hear in West Virginia. I also hear some goof balls transmitting CW near the frequency

At times the reflected signal is almost as loud as the up

And the echo is lower pitch. Negative doppler. So the moon
is moving away from the earth at the moment. I estimate
the pitch difference is about 5 Hz. Which I think works
out to 100 m/s. Sounds a bit high.

- FWIW - On 7,407.5 kHz @ 06:15 ~ 06:18 UTC

- All I heard was a clear CW Tone about every second
- with an S9 Peak at the Tone and an S7 background
- noise level on the Frequency.

This could have been every two seconds since I was just
Listening and not watching the Clock.

BUT at that Time both Tones Sounded about Equal and
the S-Meter was moving with both Tones.

Tonight the Tones were 'different' and the Lunar Echo
was definately a weaker Signal.

HAARP Test - Lunar Echo Experiment Shortwave Radio
(HF) Broadcast Listening Results for 20 January 2008 :

On 6792.5 kHz @ 07:21~07:26 UTC - I heard a Faint Earth
Signal CW Tone {~2 Seconds} followed by a Fainter Moon
Reflection in about 2 Seconds that lasted for about 2 Seconds.

Note - The 6792.5 kHz frequency's background noise level
was S4.5~S5.

On 7407.5 kHz @ 07:34~07:36 UTC - I heard a Good Earth
Signal CW Tone {~2 Seconds} followed by a Fair Moon
Reflection in about 2 Seconds that lasted for about 2 Seconds.

Then on 7407.5 kHz @ 07:38 - I could still hear a Good Earth
Signal CW Tone {~2 Seconds} -but- the Moon Reflection was
gone.

Note - The 7407.5 kHz frequency's background noise level
was a steady S1.5 .

Joke's on them. GPS time is implemented by the atomic clocks in the
GPS ground control stations and the GPS satellites themselves. Since
it is not updated with leap seconds, GPS is currently ahead of UTC by
14 seconds.

FWIW, the time obtainable from LORAN-C transmitter sites is an
additional 9 seconds ahead of that (23 seconds total), and the
international atomic time scale, called TAI for Temps Atomique
International and which is a statistical timescale based on a large
number of atomic clocks, is currently ahead of UTC by 33 seconds.

That's a software bug. For location purposes, a leap second is a
very bad thing when it happens. So it's better for GPS to ignore
it, and if you really need accurate time, compenstate for the extra
seconds in the routine that takes the GPS data and converts it to
whatever you are using it for.

It would not take much, a simple calculation of missed leap seconds
subtracted from the current GPS time would do it perfectly.

I wonder if the NTP (network time protocol) GPS drivers do it
already?

Geoff.

I answered that with:

According to:
http://www.eecis.udel.edu/~mills/leap.html

The NTP network automaticly deals with the difference between NTP and
GPS times. The web page also states:

While of less use to the computer timekeeper, the Global Positioning
System (GPS), which is widely used to disseminate standard time, has its
own timescale. The GPS timescale is syntonic with TAI, but at a fixed
time offset of -19 s from that timescale, apparently because the final
system design review was in 1980. GPS clocks typically convert from GPS
to UTC for external readings.

So someone already thought of it, and it is no longer, and may never
have been an issue.

Geoff.

No, the moon certainly isn't flat, with a radio reflectivity of about 7%.

Additionally, the effects of libration of the moon can cause the signal
to fluctuate a bit.

Agreed. They just didn't label it properly; as 'I.H.' (the HAARP
spokesperson) stated in his response to me: "I'll need to add some
clarifying information to the figure, I can see".

This has not been my experience. I have CFLs everywhere except in the fridge and in the oven. They don't make any significant noise. My neighbors' lamp dimmers and motion detectors produce way more noise than my RF light bulbs.

I have an "atomic" clock on my bench at work, inside a steel framed office structure, inside a big tilt-up warehouse, and that clock manages to set itself about 3 times a week.

GPS receivers cannot run for a year on a single AA battery.

Is there anything left of the ionosphere above the HAARP array, once the

Nope, I'm referring to the whole damn lot of them. Both Repugnicans and Demoncraps.

Love the latest BS about tax rebates and more tax cuts for big business that are supposed to help the economy that those same big businesses have already run into the ground. Sure, a $400 check from the government will buy you a half dozen tanks of gas, but in the grand scheme of things, it will do nothing whatsoever for an economy where most high paying jobs are being sent overseas.. and that's only the tip of the iceberg. And this is bipartisan bullcrap. I've got plenty of gripes to go around for both parties.

But you can't put all the blame on the "Democratically controlled congress". Their majority is smoke. They have no teeth. They can't pass anything because if the Republicans don't filibuster it, it's not getting past Bushes veto pen. And unless or until both houses of congress and the presidency are in full control of one party or the other, that's the way it will remain.

OK, I see where you're coming from. A better explanation appears to be in order. But before I do that, I will comment that your information is essentially correct to the best of my knowledge. The GPS time was zero at zero hours on January 6, 1980 (That is to say, the start of the GPS time scale occurred at UTC instant 1980-01-06T00:00:00.0), but that occurred at TAI instant 1980-01-06T00:00:19.0, hence the 19-second difference between the two. The GPS is now 14 seconds ahead of UTC because of the leap seconds, which are not inserted into GPS but are inserted into UTC.

OK, now, on to the problem of using GPS as a time standard.

GPS *satellites* reference an atomic clock (actually several of them) and produce a time standard that is continuously monitored, not only by the U.S. Naval Observatory (which is responsible for providing the time and frequency references for GPS) but also by the National Institute of Standards and Technology, which maintains the official time standard here in the U.S. The time on the GPS birds themselves is not the problem. The problem is with the GPS *receivers*.

GPS receivers use an internal clock that is set by accessing the time broadcast by as many GPS birds as the receiver can "see" and coming up with an average that the receiver then sets its internal clock to. That average is based on the time contained in the birds' transmissions and the distance between the bird and the receiver - which the receiver calculates based on the time it took the signal from the bird to reach the receiver (which is also how it accomplishes trilateration, the process by which the receiver determines its position).

Now, since it bases this calculation on its own internal clock, the distances will all be proportionally incorrect, and thus so will the receivers subsequent calculations, including those of its own time errors! The calculation is also based in part on the receiver's understanding of where the bird is located. It determines this from an internally-stored almanac that tells it where every satellite should be at any given time. Things like the gravity of the moon and the sun do change the satellites' orbits slightly. The USNO and NIST constantly monitor their exact positions and USNO transmits any adjustments to all GPS receivers as part of the satellites' signals.

In any event, the accuracy of this process varies from one GPS receiver to the next, depending on the quality of the algorithms that the receiver is using to process the data received from the birds.

Furthermore, while some receivers use a quartz (or maybe rubidium in some models) crystal oscillator to control their internal clocks, others simply let a temperature controlled crystal oscillator (TCXO) free run, divide its output to 1 pps, and then synchronize that to the GPS signal. The receiver then accumulates time errors until the total time error approaches a certain level, at which point the receiver inserts a phase step to reduce (notice I did not say "correct") the time error. This actually works pretty well over the long term in comparison to the models that use a quartz controlled oscillator, but its short-term stability is questionable.

There are also other differences in the internal programming of GPS receivers. Some have routines to toss out bad data when a bird is broadcasting bad data (as happened with one of the GPS birds in 1997), others do not. The point is that with a receiver having a poor quality oscillator and/or poor quality algorithms, the time it displays at any given instant may not be as accurate as its user might hope.

Note that we're probably talking errors in the amount of nanoseconds (per second) here, certainly not errors that are going to cause somebody to be ten minutes late for work, but for commercial or scientific applications requiring a time reference that is related directly to a national or international reference, GPS may not necessarily cut the mustard.

Well, that part of it is, but see my reply to Geoffrey's posts on the
subject. There are other issues with using GPS as a time standard,
which are related to the quality of the algorithms GPS receivers use
to process data received from the satellites, as well as variations in
the circuitry used to control receivers' internal clocks.

Did you visit the ESE web site? They make the master clocks used in
broadcasting (and a lot of public service and labs) and they have very
well thought-out innards.

Is GPS like NTP in as they just give a raw number of seconds since a
certain date and that the receiver computes the real time from that,
based on its firmware?

Yes, but don't loose sight of the fact that this discussion is really
about consumer items. One person metioned in a previous post that his
clock syncs three times a week, other than that, it "runs free".

So IMHO if you build a consumer device that syncs every 5 minutes to
a GPS or GPS based standard, it will be a lot more accurate than
the average one that syncs every 2-3 days to a radio signal.

If it were to sync every minute to a time signal inserted in a cellular
control channel, it be even more accurate. Last I checked, the AT&T
Wireless 850mHz GSM (whatever name it is called now) network covers 98%
of the surface area of the U.S.

Since it is a receiver it can be broadbanded and if it were to cover
the GSM 850/900 mHz and 1800/1900 mHz bands it would work everywhere
there is GSM coverage. Except for Estonina and Brazil, an 850/900 mHz
receiver would be enough.

This does leave out parts of the Pacific Rim (Japan and Korea) and
some parts of Oz, but on the whole it cover almost the entire
populated earth.

Geoff.

"FlyTunes - Radio for the iPod that eliminates Radio Stations"

Here's a peek at FlyTunes, another of what will be a long list of radio-like services for iPod Touch and the iPhone.

This one - like many to follow - is "Safari-based," meaning it just needs a WiFi connection (and perhaps not even that) to cache a radio station that can be customized to your liking...

...and, of course, involves not a single terrestrial radio station.

The thing you guys need to understand is that just as music has been untethered from CD's, radio will be untethered from radio stations.

This is the most important lesson I can give you.

And once you break radio away from radio towers and the stations that serve them, almost anybody can build a "station" and almost anybody can be a radio industry competitor - especially if music is primarily what you're about.

All you need is distribution (and perhaps a touch more simplicity).

What's also interesting about FlyTunes is that it is presented as a "satellite radio-killer." And here you thought that would be HD, right?

Here's a closer look at FlyTunes...

...where we learn that Quiet Riot is evidently an Alternative band.

http://www.hear2.com/2008/01/flytunes---radi.html

Oh, that's right - HD Radio was supposed to be on the iPod and iPhone! Ha! Ha! Eduardo, HD Radio!

Well, my comments about GPS stemmed from David's comments that "Any commercial entity who really needs accurate time switched over to GPS a decade ago." But you're right, this has drifted off the topic of the original post to the thread, which was related to consumer devices - and David's comment downthread is also correct in pointing out that there are GPS receivers (such as those made by ESE) that are properly designed and can, in fact, provide a GPS time and frequency standard that is traceable to a national or international time standard.

Yes, assuming it can get a signal...which problem exists with the WWVB-based devices as well (and which was the whole point of the article cited by the OP).

FWIW, this Wikipedia article states that around 80% of the world's population enjoys mobile phone coverage as of 2006 and that this is expected to increase to 90% by the year 2010:

http://en.wikipedia.org/wiki/Mobile_phone

Despite that claim, even here in the United States there is still a significant amount of territory away from major cities and interstate highways where no wireless phone will work at all - but radios will work, and consumers have other sources for getting the correct time provided that they aren't too lazy to do it themselves rather than expecting every device they own to do it for them.

IOW, self-setting clocks as consumer items are a convenience, not a necessity. I'd be more concerned about wireless phones not working due to the fact that this renders them useless for placing emergency calls, rather than because it prevents these devices from updating their time displays.

On the first transmission, (Jan 19, 05:00 UTC), I tried using an
oscilloscope to see if I could see the echo. It was a 4 second cycle
with 2 seconds on and 2 off. (Which made syncing the scope (with a 5
second sweep) a real pain. The next pulse was going when the first one
ended, triggering it again).

Anyway, with the narrowest (2 kHz) bandwidth on my old R-1000, it
just didn't cut it. When the outgoing signal was S9+10 (in Seattle)
I thought I might have heard an echo or two, but just couldn't be
sure.

What bandwidth were you successful listeners using?

Yes, and yes. I never meant to insinuate that it was impossible to obtain an accurate time standard using GPS. I did mean to point out that to do so requires a properly designed receiver, which goes way beyond the type of consumer-grade device the original poster had in mind when telling us about NIST's plans to possibly add an east coast equivalent to WWVB.

> Is GPS like NTP in as they just give a raw number of seconds since a
>certain date and that the receiver computes the real time from that,
>based on its firmware?

Well...I'd have to say yes, since they are both based on the same standard, which is TAI.

As I understand things, NTP actually references the UTC time scale with a refined version of Marzullo's Algorithm called the intersection algorithm. Like the original Marzullo's algorithm, the intersection algorithm is used to select from among several sources for estimating accurate time. It supports leap seconds, and the sources it uses can include atomic clocks, GPS clocks or other radio clocks, computers that are directly connected to such devices, and/or computers that are able to use the Internet to poll computers that are directly connected to such devices.

UTC (again as I understand things) is defined by a large collection (about 300) of atomic clocks in over 50 national laboratories worldwide, using the atomic time scale TAI (Temps Atomique International, or International Atomic Time). TAI is sort of based on counting seconds, in that it counts something called SI seconds, which are defined in relationship to the radiation state of the Cesium-133 atom by international agreement. UTC is then derived from TAI, and is periodically updated with leap seconds in order to more closely track time standards based on the Earth's rotation.

I think I pretty much explained how GPS receivers estimate the time in my previous reply upthread to a post by Geoffrey, so I won't repeat all that again here, but when all is said and done, a fixed 19 second offset from TAI gives GPS time. UTC and TAI were synchronized to an exact fixed offset of 33 seconds at the end of 1971.

So the answer to your question. I would conclude that GPS and NTP are alike in that both are synchronized to the same international standard, based on cesium atomic clocks.

That is a problem of any radio based device, whether it uses GPS,
60kHz (or the European equivalent) signals, cell phone, etc.

I understand that analog TV signals in the U.S. also had time
coding in them to eliminate the flashing "12:00" problem.
Of course that's about to go away, and I have no idea if U.S.
HDTV signals include time coding or not.

When someone asked on another list about this several months ago,
so that he could get an heirloom digital clock to receive the 60kHz
signals in a place that was too well shielded and electricaly noisy,
I looked into generating the time signals with a PC. :-)

Programing wise it was simple, one could take the system clock
and build the data stream. If it was kept in sync with NTP, it
would be close enough for those clocks that only display to
minute or second resolution.

The problem for me was building a transmitter, because such parts
are almost impossible to get locally, and I had no clock to test
it and not much chance of getting one.

At some point I would like to build and market a WiFi NTP clock,
but that has to wait.

I like my atomic clocks and my atomic watches because they are always correct, without having to use the internet. I have always insisted on having the correct time (see Ken Nordine). The example of the clock that only set itself 3 times a week was to show that they can work inside a commercial building, albeit not terribly well.

If you're between Tucson and El Paso, or between El Paso and Laredo, etc., you'd best be carrying a 4 Watt CB radio for emergencies. That fancy telephone is very hit and miss.

JK & GSM,

Where Do You Find The Time "Tick-Tock" - To Argue . . .
The Finer Points of Time Down To The Nearest Second ? :o)

And the Reality -is- for most Non-Techincal Consumers of Time :
Time that 'is' "Accurate to the Nearest Minute" is Good Enough.

=SO= For Them - Any Time In-Accuracy Less-Than 31 Seconds :
Is To The Nearest Minute. -and- That Is Good Enough For Me ~ RHF

David is Right : An Atomic Clock that resets itself a few times a
Week and uses a single set of Batterys {runs independently} that
Lasts for a Year of more : Meets the Needs of Non-Techincal
Consumers of Time.

-But- Then Again - Any common Consumer Product that has
a Time Display and is "Accurate to the Nearest Minute" also
Meets the Needs of Non-Techincal Consumers of Time.

Heck, I remember when folks were making fun of my big GMT clock here in the shack, but it keeps on a rockin' and a tick-tock'in, and has been for almost 25 years now. Put in a new battery once a year, set it to WWV every few weeks and that's good enough for me!

Yes there is the practical consideration that most common
Consumer Products that have a Time Display "Only" display
the Time-to-the-Minute {No Seconds} and therefore Time that
is "Accurate to the Nearest Minute" meets the Needs of these
Non-Techincal Consumers of Time.

Hey David, the ionosphere reestablishes itself shortly after the
experiments conclude even if the object was to burn a hole in it.

Mike, you're a stupid son of a bitch. I have been letting it go for years about this three voting shit, but you just keep on.

I made a joke about living in the corner of three counties and making a circle and voting in three counties. The fact that you are stupid enough to think that I could do it and get away with it and that if I had to think I would tell any body about it.

YES, I voted for Bush two times because at the time I thought he was the best of the bunch. I don't know whom I'll vote for this year but I'll try to vote for the best "person" at the time. Do you vote?

Why don't you pull your head out of your ass and try being worth something, you have run this into the ground. I think a lot of the people on the list are a little tired of your bull shit and trying to hurt people.

You want to be a troll then I'll do you like I have a few others, I'll not open any of your post.

Until they travel away from the populated areas. Big stretches of Death Valley with no service. May have changed since I was last there in 2000, but there were even quite a few dead spots on the highway between Stockton and Fairfield. By contrast, here in the ROK, we have nearly 100% cell penetration (can't say absolutely 100%, since there is the occasional dead spot inside a building or a tunnel, but even most tunnels have service... they make sure there is a cell tower posted at at least one end of every tunnel).

Of course, the states is a much bigger place, so much more difficult to get 100% penetration of service.

I just received an email from Roland Weibel at The Cross Radio in Micronesia regarding my inquiry about their antenna problem.

Roland states:

"Thanks for your inquiry. Sorry, we are still off the air with the SW. We don't have the new antenna up yet."

Please check our website for info:
http://www.pmapacific.org/ministries/radio/shortwave.php

Website says:

Our short-wave station 4755 kHz has been off the air since Oct. 20, 2007. We are changing our antenna and we will be back in January or February 2008. Please check back for updates.

Some people just don't get it. They don't understand technology of any kind, politics, religion or that they should be breath through their nose most of the time. These same people are the classic "horses ass" that will post that you are wrong about something and not even know what they are talking about. Not knowing the subject does not stop them. They misconstrue what you post due to reading comprehension problems. Then they want you to explain things to them after they have insulted you like you have some kind of obligation to educate them like the malevolent freaking idiots that they are. Heck, usually they can't even post on topic or follow Usenet conventions.

So I thought I would start a clueless poster thread where we could vote for the most clueless poster boy of the week.

Billy Burpelson - ADD and totally clueless
Mike Bryant - past award winner looking for a comeback
m II - Just plain strange and disgusting as usual.
David - What's in the pipe mixture this week?
3D - 3 different dimensions of clueless.
oneway - His clueless way or the highway.
IBOCcrock - The broken HD record.
RHF - The kitchen sink of links, punctuation and the spam answer man.
cuhulin - King of trolls. This man knows the proper way to Troll.
pachurmurthy - Only one clueless post but starting off strong.

This weeks winner is Billy Burpelson. While listening to his radio, which he forgot to plugin power and connect the antenna to Billy had a rare double burp (a large beer belch follow a few seconds later by an after-belch). At the time Billy mistook these sounds for the HAARP signal and moon reflection. He then reported his observations to the amusement of all readers of this news group.

So now, for this selfless, mirthful act on behalf of all rec.readio.shorwave readers I hereby award the distinguished clueless award upon Billy's miserable head.

Well, Billy's off to a fine start but can he keep up with the other Trolls? He is up against some big names and it's going to be tough sledding.

Damn... you're gonna win next weeks award for sure!

In fact, I'm gonna vote 5 or 6 times to make certain that you do.

- If you're between Tucson and El Paso, or between El Paso

BURR in order to commuicate effectively with Mike [M II]
You have to Post All Replies Five Times :
1st to "Stupid"
2nd to "Dumb"
3rd to "Ass"
4th to "Obsessive"
5th to "Idiot"
and just then he might 'get it'.

-But- If you simple Post to "Stupid-Dumb-Ass-Obsessive-Idiot"
it will go completely over his Cranium-Vacuum-Ongous :o)

Mike [M II] might understand that you Voted Three Times
1st for "George" -or- "John"
2nd for "W" -or- "F"
3rd for "Bush" -or- "Kerry"

Although the temptation to be judge, jury, and executioner are great I'm
going for open voting for the clueless person of the week.

Looks like RHF is in first place so far with 10 self votes and M II a
close 2nd with 3 so far in this weeks opinion poll.

Cast your additional votes for the clueless in this thread. You get to
vote as often as the Troll posts to the news group so M II could go from
3 to 6 in a hurry.

RHF - 10
M II - 3

Like the $2500 starting wasn't a clue?

I like Bill Halligan's products as much as the next guy. Probably more. I have a couple that are never going away.

That said, Halligan's success was in putting quality gear in the hands of hams on limited budgets. His top end gear held its own with Hammarlund, and contemporaries, and his in house designed military hardware was on par with any of the military contractors.

HOWEVER.....this money for THIS radio? Puh-LEEZE. This is for nostalgia buffs, collectors and speculators. Because as a radio it can't hold its own with recent Drakes, for $1000 less. It can't hold its own with recent Ten-Tecs for $1000 less. And it certainly won't stand toe to toe with high end boxes like RX-340 which go for $1000 less than this radio will likely sell for.

The mystique attached to this radio is absurdity, itself. And I speak with some confidence, here: my grandfather owned one. I don't need to mention where it's sitting now. It's a nice radio. But not a GREAT radio in company of today's current production.

You don't need a reserve auction to see this radio is way overpriced.

Perhaps it was a different Hallicrafter model. I just did some checking and it appears Joe Walsh paid
4-5 k for one and apparently owns two.

The Saturday morning test was perfecgt.
Even though I was using a vertical antenna and I never planned on
trying to receive anything from
directly overhead I recevied very good returns from the moon.

I decided to add some extra antennas for the Sunday morning test, and
see what differences I
would experience between the active roof mounted active vertical, an
active horizontal dipole and
a WL1030 loop elevated at 15' on a fiber glass ladder in the
horizontal plan.

I had great reception of everything but HARP.

I didn't even get the outgoing signal. At 4 degrees F is was just too
cold to go out and play with the
antennas. Did anyone within a 100 miles of Lexington KY receive the
Sunday morning test?

I had three receivers, and after the first 10 minutes of no signal I
made every test I could.
I Received WWV on 5 and 10 and CHU on 7.X.

Does anyone know if there is going to be another HARP test?

Bummed out in Nicholasville.

True. They are a rare radio in good condition though. They were quite
expensive when new and that's why their rare, few could afford them then and
few can afford them now.

I think I bid on it around the $3000 level, I can't remember!
Alas, it's not to be. But it's a nice receiver, and well maintained
is surely to increase in value.

If I recall correctly, Joe Walsh, WB6ACU, bid on one
and it went for a very high price.

He did win one, and it went for $10,000.
I just looked it up on Google.

* SX-88 on Ebay -posted by- Starman - 04 Dec 2003

They made about '500' of them. There are about '76' known to exist.
The question is what happened to more than '400'? I can't believe
all of those are really gone. If had one, I probably wouldn't
advertise
it either.

The pictures of the one on Ebay show that it still has the original
paper capacitors, such as the 'Tiny Chiefs' and 'Black Beauties'.
Since these caps' are notoriously leaky, should an owner take a
chance on running a very valuable radio like the '88' and possibly
damaging an irreplacable part such as an I.F. transformer?
OTOH, would it lessen the value of the radio if it was recapped to
make it safer to run?

BTW- The SX-88 cost about $3800 in today's dollars when it sold
for $600 in 1955.

Joe Walsh (The Eagles) payed $10,000 for his. I guess he wanted
it real bad. I wonder what he did with it?

* SX-88 on Ebay -posted by- N8KDV - 04 Dec 2003

I believe he has at least 7 operating positions in his home.
He gets into old radios, and CW. I sold him some FT-243
crystals a few years back. He sent me a personalized
autographed copy of "Hell Freezes Over" a picture and
some personal guitar pics.

Yeah, I know. But on the other hand, it might actually be an 'investment' to purchase one?

I was reading some info a while ago, think it was on the Radio Netherlands site, indicating that production runs of the KWZ receivers might be quite low.

Have to check and see what the KWZ 30 receiver is currently selling for.

Who knows.

Reasons for the Great UFO COVERUP

As some of you with open minds may gather from the following paragraphs, the recent UFO sightings in Texas are just the tip of an iceberg - in terms of stunning events that are soon to come. The insanely greedy billionaires who control our military, politicians, and national media do not want to change the world. They like it as it is, and are hiding the information about civilizations that are thousands of years ahead of ours, who will eventually help us eliminate environmental degradation, war, and poverty.

Soon the billionaire war profiteers will be overwhelmed and their attempts to hide the truth will fail. The truth that they hide will set us free - forever from the clutches of their corrupt and incompetent politicians and all the needless misery that they cause via war and poverty.

Just in case you didn't know...

The reasons for the [UFO] secrecy are simple: The inertia of highly classified [government] programs, embarrassment over past illegal actions taken to enforce secrecy, and the fact that the energy and propulsion systems behind the mysterious UFO objects have been studied and fully understood... and would spell the end for oil, gas, coal and other conventional forms of power - and with that, the end of the current oil-based geopolitical order and economy....

The full disclosure of the facts will enable humanity to attain a sustainable civilization without global warming or the need for oil.

Dr. Steven Greer has put together a group called "the disclosure project" with recorded testimoney from over 400 former gov't (military & intelligence) employees who all state that they've seen, heard, UFO's and been told to shut up about it, and that they are absolutely willing to testify to congress about it. Their testimony can easily be found on youtube.com - after searching on "disclosure project".

Dr. Greer's website is here: http://www.DisclosureProject.org/

Furthermore/ most importantly...

The UFOs are 100% related to the appearance of an immeasurably great and noble person prophesied by all the world's great religions - and known by a multitude of names.

He will soon present His credentials to an amazed world and inspire us to rebuild the world so that it will become a great place for everyone. He will NOT endorse any particular religion over any other. Believe it or not Details about Him and His mission: http://www.Share-International.org - ----------

Here is a copy of a recent press release from Dr. Greer's group:

http://www.DisclosureProject.org/PressReleaseNov132007-revised.htm

Note to all those receiving this second Disclosure Project press release entitled "Insiders Expose Reasons for UFO Secrecy". Please note that two paragraphs - those referring to Laurence Rockefeller and to Bill and Hillary Clinton - have been removed from the second one. The service we use for sending out press releases: PRNewswire.com refused to send out the original press release with those references. It was referred up the chain of command at their organization and censored by them. When you think that we have a free press, think again. This was not even censored by the outlets themselves, but by the entry point to those outlets!

INSIDERS EXPOSE REASONS FOR SECRECY (Revised)

Washington, DC

Disclosure Project (www.DisclosureProject.org) Director Dr. Steven M. Greer reports that government insiders have revealed the existence of a shadowy, highly classified program related to UFOs.

The reasons for the secrecy are simple: The inertia of highly classified programs, embarrassment over past illegal actions taken to enforce secrecy, and the fact that the energy and propulsion systems behind the mysterious UFO objects have been studied and fully understood. This disclosure would spell the end for oil, gas, coal and other conventional forms of power - and with that, the end of the current oil-based geopolitical order and economy. The truth is our tax dollars have been used to investigate this matter for decades and it is time for a dividend on that investment. The full disclosure of the facts will enable humanity to attain a sustainable civilization without global warming or the need for oil.

Recent calls for a US government investigation into UFOs have not taken into account the fact that such investigations are on-going, highly compartmented and top-secret.

Dr. Greer states "As early as 1993, when I personally briefed CIA Director James Woolsey on the UFO matter, we knew of on-going, secret projects to which President Clinton and Mr. Woolsey were denied access. The senior counsel for the Senate Appropriations Committee, then headed by Senator Byrd (D-WV) told me directly that upwards of $100 billion per year was going into so-called 'black' projects, including UFO programs, but that with a top-secret clearance and a subpoena power, he could not penetrate the veil of secrecy."

Since then, The Disclosure Project has uncovered thousands of official US documents and over 400 top-secret military and corporate witnesses to programs dealing with UFOs, along with project code names and numbers. Such operations are rogue and deny access to Congressional oversight committees.

The Disclosure Project is calling for open hearings in the Congress and UN so that these whistle-blowers may testify. Previous government/ civilian panels, such as the Condon Committee of 1969, proved to be white-wash operations and were penetrated by CIA involvement. Dr. Greer states "We feel that an open hearing process would be the best avenue for our democracy to reassert control over these rogue operations. We have hundreds of heroic government whistle-blowers who need to be heard."

For further information or for an interview with Dr. Greer contact: http://www.DisclosureProject.org

##########################

This is the part that was edited out:

Subsequently, working with philanthropist Laurence Rockefeller, Dr. Greer provided in-depth briefing materials for President Clinton and Hillary Clinton, who reviewed the matter while staying at the Rockefeller's JY Ranch. (The briefing materials are at http://www.DisclosureProject.org/access.htm).

Dr. Greer reports that "The Clintons refused further disclosure of the matter. CIA Director Woolsey frankly stated that they could not disclose programs over which they had no control or access. Mr. Woolsey and the Clintons were shaken by the secrecy, and the power behind it."

BENJAMIN CREME of Share International on UFOS:

Most of the UFOs visiting this planet come from Mars and Venus. Most of them, even the Venusian ones, are made on Mars, which is a kind of great industrial planet. All of them are of subtle, etheric, not dense physical, matter. They can lower the vibrational rate of that matter until it comes within the range of our sight, so for a limited period they are visible. Normally, unless you have etheric vision, they would be invisible, but to the Martians, the Venusians and so on, they are visible because they are in that same kind of energy. If you went to Mars, you would see nothing, yet there are more people on Mars than on this planet. Their technology is thousands of years ahead of ours at the present time, but when we have the new Technology of Light, which will be as soon as the planet settles down, the principle of sharing is governing and there are no wars, the Technology of Light will give us all the energy we need directly from the sun. This is how the people on Mars and Venus and elsewhere receive their energy. That will speed up our evolution tremendously from a technical point of view.

Our planet has exerted on it, from a great body in space, a force which pulls it very slightly off its axis, and if it had not been corrected by the Space Brothers, then all life would have been very painful; we would have had cataclysm and so on. They have put around the planet an energetic ring of light which keeps it intact on its axis, and so long as they patrol the planet and keep that going we are safe. They also, so far as our karma allows, neutralize much of the nuclear radiation which we pump into the atmosphere from our nuclear power stations. They also go down into the oceans and neutralize waste which we have dumped there and which otherwise would kill off marine life and further poison the planet.

The planet is already polluted to a degree which is now dangerous. Pollution is the greatest killer of all diseases of humanity, and much of it is of nuclear radiation. The advice of Maitreya and the Masters will be to close down immediately all nuclear-fission power stations in the world. They could be replaced tomorrow with a safe, fusion, process of nuclear power, as an interim measure before the coming Technology of Light. from:

I have the Saturday audio recorded as well. I suppose I could process
it and upload it tonight. I didn't hear any echo then either.

Brian Hill,

The photos of receivers on your website show immaculate chassis, transformer iron, mounting hardware, etc. In my experience, it is nearly impossible to clean up an old rig to the levels I see there. Did you break down these radios, depopulate the chassis, restore or replace the metal and then reassemble/rewire?

You miss the point.

This radio is not expensive because it is good; it is expensive because
it is RARE. I believe only around 500 were made and of those, I'm not
sure how many have survived.

They have sold for as high as $10,000, so a $2500 opening bid is far
from unreasonable.

Performance-wise, virtually any modern Yaecomwood or Ten Tec will run
circles around it...

It seems those that heard the reflected signal were in the south.

I used a crystal CW filter. 250hz BW. My recollection is that is at
-6dB, not -3dB.

Coast to Coast radio hosts are traitors who forbid the American Patriot to know: General Ahmad funded Atta, and that we have video of iron flowing like water from the towers

The HPV vaccine is being used officially (according to official FDA documents) to kill American female children, and Americans refuse to hunt to bill happy George Norry for it. No, Americans murder their very own children to please the silence George Norry offers, as fictions to hide their cowardice to defend Christ and Man as their very own family dying criminally under continued mortal threat. While the pro-child killer george norry is happier than ever conning to kill more freedom in voiceless America! Support my call to host for open line communications. Again, CBC, CNN, and FOXNEWS with the coast to coast radio host celebs are enemies of God as the Human race. Reagan would guaranteed, with his "War Crimes Act", have publicly executed Romney's buddy for the torture of innocent people Cofer Black freely confesses to have kidnapped. Yet, CNN whores America to ride on that torture is Reagan's best bud. Romney, who's demonicly evil religion IS centered on Satan's temptations against Adam and Eve, forbids a belief that black people are not worthy the godly freedoms granted all sentient beings, all because Romney has magical 35 year old underwear it is waged. DUMB. No, CNN forbids such truth in dialog, but to say, a Ron Paul newsletter of near twenty years ago, suggests he hates blacks because the Federal Reserve is printing money for their own private profit at the loss of

every American wage earner.. blahblahblah. Bushite are OPENLY selling tons of heroin, and cocaine, while bombing our communities indiscriminately. Not newsworthy. Gates has taken responsibility for dropping 40,000 lb. of bombs in Baghdad to murder people indiscriminately in a city the bushite terrorist thieves OCCUPY as openly demonic. Gates will receive a death sentence by the will of US, as just another bush bitch zionist neocon war monger threatening Humanity with more indiscriminate murdering. P2OG - designed to KILL America with naked neocon terrorism disguised as "Patriotic". Remember: near none in the entire Bush administration has been ever elected, yet, they bomb the innocent with lies for "Democracy." [The Innocent is ourselves for you beginners out there...]

/ / The AMSI statement continued: "The bombing entirely targeted homes of residents in the area and resulted in the deaths of dozens of innocent civilians, including women, children, and elderly people, in addition to wounding a comparable number." "This dastardly crime clearly demonstrates to the whole world the ugliness of those who committed it," the statement went on. "It shows that they are totally unconcerned about people's lives and do not care for the honor and esteem accorded to human beings in all divinely inspired religions." \ \

/ / Nazario separated a young Iraqi, [around the age of 10] known as "Number 2," from the group and led him into a bedroom where he [as loyal bushite enemy] shot him with his rifle. \ \

Calling all Lawyers, Judges, and Police Officers

We shall track down every bushite charged under all military "Judges", and publicly try them for execution as: aiming to and murdering, innocent people - to thieve from US all for ungodly zionist necon LIARS. While American gun owners from any number of gun groups will bill any and all bushite who grunt their satanic disapproval of freedom as Justice for All. We shall bring the perpetrators of 911 to Justice before Man, bar none. God is Risen - die bushite die.

Orders given to the bushite child killers of Haditha:

"anything that moves you kill and don't take any prisoners."

Nazi bushite lawyer's surmisal to war criminal "mad dog" Mattis: "If the defense version of events is true, dismissal of the charge is justified." No, they would be just as assuredly guilty of aiming to and murdering innocent people as enemy of Life bushite do with bogus dumfukker excuses. Billing bushite is saying to God, you really care. A bushite is an enemy of America who wars innocent Humanity for the

escape of the zionist neocons for 911. traitors are the bushite soldiers - to everyone.

/ / no evidence has been publicly released that implicates the young men of the 1st Squad, 3rd Platoon, Kilo Company, 3rd Battalion, 1st Marine Regiment in any criminal activity arising out of events of November 19, 2005. Indeed, as there is none that exists, let those who say otherwise prove it. \ \

"None". See? a total dumfukker who's religion is lie to GOD about murdering helpless children, because the event is over as transpired. Yet, Gun Owners of America, WILL UNDERSTAND, this demon enemy of Humanity tells US openly, he gets off on indiscriminately murdering innocent people like those too, who committed 911 by zionist excuses such as: "shoot first and ask questions [answered by Coast to Coast radio hosts, CNN and CBC only] later." Or, a made up bushite enemy's pronouncement titled, "Rules of Engagement", an "official" excuse given to bushite who willingly shoot innocent women and children in the back, all becasue we were running from an explosion. Will you not join Johnny America and kill every last bushite judge or jury breathing who agrees such murderous conduct doesn't warrant an immediate death sentence during war time against TRUE EVIL?

In the documentary, "Why We Fight", bushite bombers are interviewed, who knowingly bombed, easily, more than thousand defenseless innocent people of Humanity indiscriminately downtown in Baghdad as precision first strikers. See them smile and laugh at knowing after the fact of understanding, they only murdered innocent families as their ungodly sadistic fetish, while lifeless CNN with FOXNEWS is letting them get away with murdering so many of US as love forsaken, then ask yourself, do you feel lucky? punk? "See the bushite, kill the bushite", the Son of Man always says. Kill an ungodly bushite enemy, and be loved by God and Man as just an ordinary everyday run of the mill, True American Patriot Warrior alined with Christ, the Greatest bushite biller of all time! Death to the bushite thieves who war for the traitor neocon liars, death to the Enemies Of Justice for God and Humanity. Evidence is Everything. Bushites are ignorant liars of evil.

' 'The "heroin lifers" are a group of prisoners, who were arrested under a Louisiana state law that mandates a life in prison without parole for the sale of any amount of heroin or possession with intent to sell.' ' How can Louisiana be so unjust to promote soldiers to push dope as bushite dumfuk losers, while addicting the citizens into private prisons for excepting the freebees?

Bushite push the dope, and American kids go to jail for Life in cowardice by the millions not hearing... Make the call, be a Human.

Big News : Election Rigged!

This is incredible for real - so incredible that I'M freaked out!

It's just crzy that a private company charges 24 cents for
each ballot re-counted... just think about that for a second
again.. Oh yeah, and there are no ballots, or records of such
events actually occurring. Johnny calls for paper ballots
without exceptions, along with immediate criminal
investigations. And let's let me take open line calls on the
coast to coast radio network of ideas for just causes. A fair
vote for freedom sounds right to begin our speech as heard
from for understanding - We demand paper ballots, along with the
911 perpetrators brought to Justice to end all wars by
peaceful resolution for freedom to triumph over bad guy
terrorists who lie like George Norry. Answers are all here.
Hello, my name is who?.

Here's to clarifying! what the hell we are actually doing
provides..

at your service,

King Johnny Wizard

/ / Two American-registered drug planes busted in Mexico carrying four and 5.5 tons of cocaine are just the "tip of the iceberg" in a blockbuster aviation deal which sold 50 American-registered aircraft to the Sinaloa Cartel

[..] the FBI executed a search warrant at the house of the No. 3 official in the Central Intelligence Agency, Kyle "Dusty Foggo, soon to go on trial for corruption with accomplice Brent Wilkes. \ \

for dealing in TONS of COCAINE shipped to America, to additionally, pump the prison market with life term prison sentences on simple grams bag possessions. TONS. Cocaine for Crackers.. WOW. American trivia: Did you know, there are nearing at 2,500,000 people in expensive prisons for private profit operations nation wide in the land of the free, and home of the brave? We gotta get a count of prisoners on life term prison stints for carrying the bushmob doper deals in a double cross, The "oops.. who me?" Top Secret Strategy - shhhh.. - the cia planes selling TONS of illegal dope, and Americans go to prison for being too weakly represented politically to defeat these criminals with just words. big bucks. We need an American People standing up for the defense of speaking freely, as a voice of universal liberation. With evidence as a prerequisite - we have near no critics of millions.. Why so great? We all could benefit by Justice enacted fairly actually ruling our strides towards a better future through international communications, where all peoples have rights equal as beings worthy the respect we deserve.. Yes, we are amazing. Can you hear me now? Could I convince yourself in investing in a worthwhile cause such as ours? Who knows how far this takes us into a better future where we respect ourselves as others. The freedom to be all you can be by not infringing on the rights of any other to do just the same. Now, you should give me a least some dollars for sharing that repeatedly with ourselves.. Do you have any idea on how great we are here my friends?? We could be all incredibly gifted if I do say so myself.. So how about it? Johnny for Presidential debate questioner, Nationally contesting the tally in Anytown USA - open for suggestions? What do you say pilgrim? Am I not Great?

Justice is Freedom

WE WANT our votes verified as fact.

This isn't about Ron Paul refusing to support a re-count to discover more than 0, ZERO, votes in one district, Bingo!, it

is about YOU, as an American refusing to defend yourself from no measuring!, no measuring! what they will get away in blind tyranny as enslavement termed 'Freedom'. It is TRULY up to you to make a call to talk radio, it is truly coming down to You. Pick up our phones you bunch of good for somethings, and call for clarity on the justice is freedom angles. Johnny Wizard has come for diplomatic talks on the thorny issues that confront our storied days absent our found leadership. LOOK, the election body is not requesting fairness for the American voter, as rigged. WE WANT our votes verified as fact. It is not the realm of any private company to "own" the rights to deny us, me and you, public accountability as fairness to all parties - sworn in. Representative Democracy. Doubtless Dealings for Dummies Doubting. We DEMAND: paper ballots.

Uphold Lawman Johnny for any paid Public position, for, I'm hungry for making a worth out of living. Otherwise, I'm going to have to leave for other matters of survival. If you spot me some change, I'll give you a thanks, and, it'll be just like you own shares. No special favors, but, I might just return your investment plus interest. So, join in with Johnny, and spot me some cash family. It'll go towards a good cause, us. Think of these words of art worth a dollar or two of your time here living. As for you BILLIONIARE bankers out there... buddies.. Help me up kids, your old man here is in need of some assistance in the form of a desperate cash infusion.

Then, we shall begin our international media empire headed up by the President and CEO of Shareware Earth Co., The Great,

King Johnny Wizard!

http://rawstory.com/news/2007/Bogus_Iran_story_was_product_of_0116.html

/ / Starr added that one American boat had been given the order to fire, and the Iranians had moved away just in time.

Porter identifies Bryan Whitman, the Pentagon's top spokesman, as the culprit for the spurious [TREASONOUS] account.

Fifth Fleet commander Vice Admiral Kevin Cosgriff denied that his ships had been close to firing on the Iranians. So did destroyer commander Jeffery James. \ \

Remember, these bushite are trying to con leaderless America into a another needless conflict, where we die for their growing riches as war mongering privateers of this, our 'popular will' contesting as defeated already.. Johnny America for Presidential Election Questions! Or, go back to dying needlessly then as dunfukked "Bushite", you losered.

I'm willing to Challenge America to a Presidential Debate on successes we've achieved as the governed for enlightenment. A person accused of a criminal offense without any evidence is innocent. We, as Americans, are appalled at the fact neocons have been able to steal our authority for so long to take America DYING into a needless, causeless war, but for to criminally plunder at the expense of anyone's innocent son or daughter.

Pro child killer George Norry, enemy of the American soldier, still blabs about how more must die unjustly for bin Laden with LIES, knowing full well, video of steel flowing like water from the WTC exists, and that General Ahmad funded Atta.

Why We Fight

Bushite are using Satanic Rituals While Torturing the Innocent

http://media.switchpod.com/users/democracynow/ftp/dn2008-0111-1.mp3

Bushite enemy to Innocent prisoners "Satan is your God now."
(seen on many bushite tanks "666" Praising Satan while
chanting, "whore yeah, whore yeah", while raping, thieving,
and murdering as antichrist enemies of EVERYONE - including
GOD, if can you believe what is witnessed before all.)

Bushite ENEMY interrogators use Satanic ceremonies ordered by
Maj. Gen. Geoffrey D. Miller, during the torture of
INNOCENT People to death they kidnapped, all because American
religious males refuse, "Christians", so far, refuse to kill
SATANIC bushite on sight for true freedom and Liberty. Do not
except the excuses of bushite nazis, that being openly Satanic
for Bush's Skull and Bones, and the Bohemian Grove, is to war
for Freedom and Democracy in the New american Century. The
Son of Man States to all religious PEOPLES: Kill a bushite to
defend God in America. If necessary, You, as a dying America,
shall give every last drop of Christian blood you have to bill
the unarrested Satanic General Miller and his praising DEMONIC
ilk for their murderous treasons against GOD and Man.
(Atheists included die too with these routine indiscriminate
bombings don't you know anything.) All because America still
refuses to demand Justice for 911. Make the call, be a man.
Al-Qaida = General Mahmoud Ahmad. Bush, "The Puppet", needs
to be executed for 911, putting mercury in American vaccines,

torture, Afghanistan, Iraq, and the Military Commissions Act.

U.S. Military Wanted to Provoke War With Cuba
ABC News
http://abcnews.go.com/US/story?id=92662

/ / In the early 1960s, America's top military leaders reportedly drafted plans to kill innocent people and commit acts of terrorism in U.S. cities to create public support for a war against Cuba. \ \ And Proud Vietnam Vets are TRUE fascist cowards, who'd kill our Families for stolen riches given to billionaire war mongers who, to this day, bask in our stolen lives living in Mansions, while homeless vets eat their own shit and die, worthless to the struggles against tyranny for God. Still cowardly as evil is always ignorant. More committed to colonies for the French like Haiti, than Freedom for the Human beings granted the rights to Liberty.

Joker to the Thief

We laugh with Jon Stewart regarding the seven Christians set up by the bushite to be al-kinda, to be put to death, or serve life term prison sentences as the Innocent. BUT remember, CNN is serious. Pro-zionist CNN, with salaries in the tens of millions, will lie cheat and steal from Christian Americans while smiling. Sending you to death while cashing in on all the 'free' loot. Funny?

(EXAMPLE: So what? that BILLIONAIRE Mitt publicly supports torturing innocent people to death without Lawyers for our Judgment with his nazi bum chum traitor Cofer Black?. Not CNN newsworthy as a defense for the People of America. Or how about that Black People can't be Bishops as a moron Mormon?)

Soldiers of Ummah - unite US all to defend America from the evil bushite thieving liars - the enemies of Justice, the enemies of Life. Bill a bushite grunt to save innocent lives, and in that process, be truly loved by mankind through Peace.

/ / He said they [the innocent humans] are like dogs and if you allow them to believe at any point that they are more than a dog then you've lost control of them \ \ Who'll save the life of an innocent Dog from the savagery of the bushite enemy though...

Who is this senior U.S. intelligence official not mentioned?
Are we suppose to just go in faith that bin Laden has every
micro second timed perfectly greater than a computer meshed
with clockwork oranges? Either it is the same, or it isn't..
EASILY provable. So why the ambiguity??? The ENEMY of GOD
bushite war criminals can be found here, one way, or the other
lying. Therefore, I want to engage in the Presidential
Debates to demand Justice for all concerned..

Also, Evan Coleman of NBC is a blatant traitor as al-Qaida
propagandist, and deserves to be publicly executed after a
fair trial by US, the suffering Humans. Olbermann be damned.
Al-Qaida = General Mahmoud Ahmad. I am the most prolific
writer on Earth, present on the Internet everywhere, even in

exist for fair measurements. Press for Freedom. Death to the
bushite, death to the enemies of America.

! ! ! Boston Globe had PROOF the election was RIGGED ! ! !

http://www.ronpaulwarroom.com/?p=941

They said, "oops".. defend the Boston Globe no matter what any person or persons say. If the Editor disagrees, love him anyway - if the paperboy shrugs, take the moment to explain - DEMOCRATIC ELECTIONS ARE CRITICAL. So says Johnny the Dictator. (realize: the tabulations haven't even been formally released, and CNN, CBC, and FOXNEWS told US who won before ANYONE was granted the opportunity to force such MEASURED conclusions. We were asking for a re-count before the count was even measured. If mathematically, 2 plus 1 doesn't equal 3, we are doomed. I want to participate in the President's Debate for Freedom's cause - Liberty and Justice for All. Paper ballots, paper ballots, arrests, arrests. Otherwise, we shall be politically entertained by McMcCain! Help us! help us! No funny.. 100 years of dying Humanity as murder victims sound laughable? We shall therefore, hunt bushite down to the ends of Earth and billl them where they mute as our eternal enemies. Justice for the war profiteering thieves.

Allah Rules

"God promised land of Israel to Jewish people alone" The Satanic Rabbi stressed as a demonic liar enemy who speaks injustice against US as the innocent loved by a true God held in silent awe.

G-D wills a demand this quote verified by the Rabbi, if true, he will, and all other LIARS like him, be severely punished as a blasphemer against the Torah, the Quran, and Johnny - The King of Earth - Son to God. For a true Jew, as God wills through Law, loves all People to be free to live for happiness: be We Catholic, Hindu, or Atheist. Zionists of today, all abled men bill for Justice to defend our innocent lives, for, they as Satanic liars steal from US as the ungodly. Real Jews don't murder innocent people to steal their rights to Life for money. Nothing worse than a Zionist nazi "jew" with money they never earned, but stole in the names of the suffering Peoples. We, the Jew of Jews now kill 'lawless' bushite daily for the pleasures of all Humanity. Their surviving pro-nazi families faithfully cry as bushite out to "God", not for understanding, but in contempt of America and Liberty. It is always a shame on me and my Brother Jesus, but bushite die RIGHTLY to defend a desperate G-d as an innocently dying eternal Mankind. The People. Please, do not Forsake me.

A Bushite is an enemy of America

voting machine firm has [HUGE] executive criminal record

Sure, the only guy who supports the DEMON Bush religiously "wins" a landslide of support. Despite the fact that Bush holds MUCH less than 24% support, and murdered thousands in New York City, and that REAL men hate bushite to death for warring Humanity without cause but for to murder, rape and THIEVE. (only 125,000 people voted in a State that is told they are critical in corporate media determinations on who will terrorize my undefended America further - who buys this C.R.A.P.? Happy George Norry of course does, and as such, isn't allowing US to speak any important questions on life and death. Why? Because he's happily into murdering defenseless innocent children. He told US so. And his loyal fans, couldn't care less for THEIR OWN alien offspring, never mind YOUR forsaken child.)

Something Crazy Here

/ / Pakistan President General Pervez Musharraf has disclosed that Omar Sheikh, who kidnapped and murdered American journalist Daniel Pearl and is now facing death penalty, was actually the British secret Agency MI6 \ \ Mr Zubair was the lead investigator - Omar Sheikh was reported executed,

[JUST BEFORE BEING MURDERED] BBC had censored Bhutto's remarks in which she claimed that Omar Sheikh had murdered Osama bin Laden several years ago. - Man, imagine if she were questioned on what info she had based her conclusion, and had had the story that the BBC wouldn't have reported either. Again, CBC, CNN et al., are traitors pretending to be open for communicating the facts. just like the pro-child killer traitor George Norry, Ian Punnet, and the evil Art Bell.

/ / Daniel Pearl was kidnapped in Karachi in 2002 and beheaded by Al Qaeda's number three, Khalid Sheikh Mohammed. Mr Zubair was the lead investigator \ \

See? this is why the True American Patriot Soldier bills the unarrested for TREASON as a self confessed war criminal, Rommney's "lawless" undie buddie, Cofer Black and partners for raping American women, kidnapping, torture, and pre-meditated mass murder.

/ / In spite of being evil geniuses of the internet it never occurred to anyone in Al Qaeda to put Adam Gadahn into Google. So unconcerned and trusting is this secretive criminal uber-gang that they made Mr Pearlman their chief spokesman. \ \ As this writer stresses, REALIZE: CNN, CBC, and FOXNEWS with George Norry, the Demon, make no words over it.. Fuk, George Norry, that pro-child killing bush bitch nazi whore for the lawless antichrist, who is nationally broadcasted for blinded dumb amerikans - who as reported, will continue to die US as his treasonous annunciations. All by refusing to demand our interests be defended TRULY - with his BLANTANT demonic LYING and cheating of the facts to make others believe his demon con to die further innocents as more murder victims. Again, the pro-killing of innocent People george norry doesn't own my voice for Justice, but apparently, he owns amerikans when he says "We" love to suffer god on a cross as Our

Proud bushite enemies of God and Man state:

"Heaven Won't Take Marines and Hell Is Afraid They'll Take Over."

See? A bushite is an enemy of the Family, who rapes and murders for the demon antichrist thieves. Dishonorable to the core of what it means to be a free man, they die in cowardice, too afraid to defend what's right as true. A liar, a thief, a murderer, that is what a bush whore nazi grunt who states life must die for as lawlessness. They war Humanity as bush whore slaves for the escape of the neocon liars for 911. (General Ahmad funded Atta) They support torture by silence, they support raping women by silence, they support robbing The Peoples by silence, and they support killing themselves for FOXNEWS to continue LYING to America about what it costs to be a bush bitch who chants routinely, "whore yeah, whore yeah" Death to the bushite, death to the enemies of freedom in Johnny's America to talk openly with the FACTS absent Coast to Coast hosts Demonic censorship of American voices as Liberty.

Coast to Coast hosts are TRUE traitors to God as our dying America. They, like CNN, CBC, and the BBC state they read our emails, and receive our calls. But like Art Bell, they just ignore our concerns to die for their continuing bounties of lawless tyranny through demonic proxy. Happy George Norry is truly a demonic evil force for enslavement of our species. Sure, he might tell you the NWO is out to get you, BUT, he will also tell you, you can't do anything about it. "Truthers" will near tell you the very same thing, again, absent the two indisputable pieces of evidence, that point MORE directly at who is personally responsible for closing criminal investigations; not bin Laden. Bush and Cheney. No no no no! the "truthers" scream, that would require taking a stand for freedom against terror, a stand for justice as America - and Americans would rather die, than admit their cowardly dying nazi fascist savages for the Zionist Neocon. Look at the child killer Tatum, pronounced by CNN as a "Hero", yet, the bushite, (like Judge "mad dog" Mattis,) freely confesses without remorse to slaughtering defenseless innocent children at point blank range for his sadistically demonic pleasures. And American Gun groups make little of no effort to identify the culprits, so all of everyone alive can know where these two true bushite enemies of Humanity can be found

'escaping'. Never. Tatum, the child killer will not live in our world as a "free" bushite, found "innocent" of the crimes he "freely" confesses to committing against Humanity and God. Kill a bushite, and be loved by America as True Liberator.

Death to the bushite, death to the enemies of Justice as reason to believe: The truth shall set US free!

Evil Beyond the Extreme - they want to imprison the dying American as intelligent while bushite openly murders women. Women. Support my call to demand open challenge for public debate. Please, be real.

Bush administration officials KNOW HPV vaccines cause an INCREASE in Cancer by 44.6% for women, and men of zionist america refuse to demand Justice for Humanity, or Justice for Johnny. Demand WE be allowed to debate bushite regarding this, torture, and 911 for God as Liberty. American corporations actively attempt to MURDER American women, and American "Men" refuse to phone someone who cares... Support Johnny's call to allow truth prevail through American public debates, or don't you good for nothing evil nazi vermin scums. In Canada, and the USA, the 'talk' radio circuit promote torture because blahblahblah - they refuse a real man like Johnny to speak for public challenge. Not allowing US, The People to know why torture is irrational as a high crime warranting the death penalty. With wisdom?, or the dark tyranny of ignorance through theft and murder? What Art Bell publicly today advocates without a defensive measured challenge for Justice.

A New America

Bush tells America, it is WE who should be fearful of being caught innocently, instead of himself personally as a war monger traitor to Humanity, who closed police investigations on 911 immediately after the terror action going down. Again, even if bush were "just a puppet, just a puppet!!", his criminal action would just as assuredly, warrant his immediate arrest for high treason. Ask any Judge. then a Jury for Your verdict on the entire criminal spectacle of mass murderers escaping the Justice of a New America.

`You Will Not Open Criminal Investigations'

George W. Bush "A country that hides something, is a country that is a.. afraid of being caught."

These naked LIAR enemies who bank to thieve more from Iraq, Afghanistan and America, must be brought down by Humanity's ultimate triumph over tyranny through Law. A just law, where those accused without any evidence are Innocent, and WORTHY yOur defenses.

Our Mr. Bush Jnr "We do not torture"
Our Mr. Bush Jnr. "Torture is not a part of our soul."

So, those that profligate acts of torture, should be brought up for charges by the True will of US, The Peoples People fairly verdicted? Bush should be tried and executed for ordering the torture of INNOCENT people to death as a capital mass murderer, a murderer 'escaping' the crime scene leads of 911 as unanswered questions of peace through liberation - garnered by Justice held indivisible so as the understood facts.Jack..

Telling US what?, that it is a crime to not commit a crime? It isn't only high treason against America the ungodly bushite are guilty of, but of a madness held by those truly Satanic..

Easier approach to getting officially "started", is if we consider the unmovable anchor issues as outstanding regarding the 911 questions ever yet, publicly stated in regards to how the event actually went down. Remember: Bush and Cheney worked diligently, directly after the terror trifecta occurring, to close current police investigations regarding the case of mass murder in Johnny's New York City.

God is coming to town for bushite nasties on his sled of make believe. A halted bushite, is a mercy on our souls, in defense of ourselves the innocent. The innocent that a 'lawless' bushite holds for ransom in pain dying. Hell hath no fury like that held against the bushite enemy, a savage zionist criminal waging war against Life as our shared Universe, 'escaping' those who personally carried out 911. Bush, Cheney, Rumsfeld, Condi, and Myers as topped suspects. Other 911ers will tell you no no no, it's impossible to apprehend them all, for the arrows can go on for never. Bush personally closed criminal investigations on 911 immediately after the terrorist event of no questions occurring. The Bush administration were well aware of their PERSONAL dealings with the Taliban prior to the "Pearl Harbor" event conveniently occurring. And they were all most certainly aware of the plans in place to: within weeks, invade Afghanistan for Enron to stave off criminal proceedings. Walla! Johnny G wills every able bodied man, woman, and child to defend ourselves against bushite that indiscriminately murder ourselves for cash profit. Stolen profit. Ours. By the Will of US alrighty, we shall recognize...

The King Has Arrived

Look, let's "say" Peter Power didn't do the crime he did, and told us so for our own benefit, it would still SUIT Peter Power for him to be arrested immediately for the crimes of 7/7. For it is Peter that alleged HE was running terror drills at the same time and locations of those that murdered many good people from London. London England. Privately, with his bud at Scotland Yard he's saying. I'm sorry, all Bobbies do not want to kill indiscriminately so Peter Power will score a few extra BILLION dollars to hypno mug us to say we can't find'em no matter how hard we look.[*ILLUM I NATII*]. Americans are just poorly being spoken for, by those who lack the skills to win justice denied from the average Joe who knows so. So...

Americans. I am your leader. True, and skilled at the art of leaving it all up to US. Equals. That means the Taliban are warring in the defense of women, in defense of children, and in the defense of America. Now in Afghanistan, NATO leaves the nation undefended without a police force, since, the bushite murdered all the cops as acts of evil, leaving the tribes to hash it out together but alone near starving. Remember: the bushmob stole the emergency food from Afghanistan as a carrot, and in it ate our diplomatic dialog, while directly closing outstanding criminal investigations. While then blaming bin Laden single handedly pulling off the entire show without US knowing how so. Explosives were set by Laden?, for example?

Now, when any men gather for gaining liberty through acting for defensive purposes, their labeled "Taliban", translated: Students. The bushite war with heroin pushers who sell their illegal drugs on our streets, putting people in prison for maybe 25 years as a felony third conviction. Do you know how many charges in California are called felonies, for the simple fact, that smoking a joint, can get you 25 to life? Sold to you by your, making it real illiterate brother, who was always stoned away living and dying in the movies so... Everyone media popular jokes or confesses to smoking pot in the movies, yet, some of US are expected to go to jail for a lifetime, because we can't seem to get together to make a fuss. We have to change laws on pot. In Amsterdam, legalization has brought addict levels down for it's publicly recognized there humanely as a weakness to overcome. Heroin I mean, pot is great!

A Dying God

Look, these soldiers who war for enemy Bush are not warring for freedom as Justice for Ourselves.

Evidence is Everything

there is more than enough supporting impeachment of washington insiders, but the news media refuses to say so to defend our dying interests.

Let's demand CNN, BBC and CBC respect our interests by publicly advocating accountability in respect to the terrorist acts of 911. Their position of neutrality is unwarranted in respect for our victimized selves due to indiscriminate warfare. The Iraq war has no legitimate cause, for they are warring to bring about an end to what they started/starting. Nazi fascist Cowards, as enemies to every man woman and child speaking.

Oath to God

The bushite took an Oath to God and country to defend America from war criminals, and instead, as cowardly neocon bush bitches, commit war crimes of theft and mass murder against the great Iraqi People. A soldier in the air force, is a dishonorable nazi savage, worthy the death sentence for assisting in bombing Humanity indiscriminately as zionist enemies of Christ, attempting to destroy Johnny's America with their provable DEMONIC LIES. Death to the bushite enemies of Life, who lawlessly war Creation with torture and slavery to 'escape' the neocons for 911. Your magic TV exec excuses don't mean squat when the facts are so readily available. But a bushite don't read, or write, or think freedom. Zionist enemies of ALL Our humanity, murder to believe US won't ever hunt them down by Law to defend ourselves over. Hammurabi LAWS to bill the false capital accusers first, and everything else will fall into place. [note: Hammurabi founded Civilization.]

Christ Begs America

If there is ever a reason Christ begs Americans to joyously, with pride, bill a bushite terrorist enemy of God, it is with the actions General Sattler took in murdering more than 200,000 defenseless innocent people in Fallujah. At youtube you can see and hear these grunts cheering "whore yeah" in praises to the demon antichrist, while committing horrendous war crimes Nazi Germany would have been proud to see the bushite die for. They walk through the city, killing every woman and child they find hidden. No Joke: first strike targets - Health Care Clinics. I am serious. [during the

Nuremberg war crime trials, German Judges confessed with plenty of paper work, such action by Nazis would have warranted immediate death sentences] I have written on the demonic action of godless bushite of the antichrist for years while begging Humanity in joining We in hunting these demons down one by one for the glory and love of GOD, but, was not directly aware of all the video testifying the true will of US and God in demanding the destruction of bushite brayers to defend freedom as Life for everyone. Including America. check out youtube. These proud bushite child killers, can not be allowed to freely walk our Earth, after lawlessly murdering so many for nothing but to please the antichrist enemy of all humans Being. All the while chanting monotonously "whore yeah, whore yeah" Death to the bushite heroin pushers, death to those who war God's World indiscriminately with NATO, Sattler, Mattis, and Blount to escape the neocon zionists for the treasonous unholy crimes of 911 back in New York City, where thousands of whomever Americans, were murdered don't you know?

I'd like to see Americans enforce the law of the land, and advocate the public execution of those responsible for torture. Again, the TV celebs pretend there is actually some possible meritable argument to support these truly demonic actions as criminal. Bushite have admittingly kidnapped innocent people, then tortured them to death for the pleasures of doing so, 'knowing' also, that they couldn't be held accountable to US, the human species. All for hating us so as loved by Life. They say, we're too weak to stand for freedom's defense against naked tyranny - While Johnny says otherwise: Death to those who advocate torture in war time, for there is no legitimate argument, but for the practice of censorship to understand why the Laws against torture have

never failed for defense, but, for the treasonous actions of a Bill O'Really, who recently reported internationally that the majority of Americans support torture, because it means.... blahblahblah -- Bill Bill. For, it warrants the death sentence in America. Still. Bushite are the enemies of US all my friends, enemies of US all.

Bush "Iran has openly declared that it seeks nuclear weapons."

/ / "Iran was dangerous, Iran is dangerous, and Iran will be dangerous if they have the knowledge necessary to make a nuclear weapon," Bush told a White House news conference.

Hello!?!? Has everybody forgotten that Bush has already given the secrets of building an atomic bomb not only to Iran, but to every evil empire in the world? \ \

www.whitehouse.gov is where the plans to build your very own nuke were offered for download! Bush sure is seriously evil in just about everything he does when you think about it, no? Look, there is no evidence.. .. ! So, they can not truly believe their therefore false allegations. But as demonic liars, they intend to murder the innocent as enemies to G-D to thieve further from our precious resources. All because Americans refuse to demand open challenge through international debate with Johnny against neoconner TRAITOR George Norry. Again, no soldiers appose me publicly speaking, Look for yourself. While George is all into murdering innocent children for cash profit, knowing honorable but deeply ignorant American teen soldiers WILL die as evil doers in collateral for HIS personal contempt. George Norry is a traitor to freedom to be a Patriot American. Death to the neocon GOD betrayers who con to escape the war criminals responsible for 911 through the censorship of our voices for

accountability. Death to the bushite, death to the enemies of Man. Death to the torturers of innocent people, death to the enemies of Christ in America. Thank you to the fathers, brothers, and sons who have helped die off more than a hundred and fifty per week as 'suicides'. Bushites are enemies to freedom as justice wills a demand of evidence to form our conclusions regarding a capital offense. Death to the 'lawless' bushite traitors, death to the enemies of a love for a Just God never ending. Make the call, be a man.

Well, a criminal willed the murder of another, and now it thinks it can't be arrested because it says for US to do so, would be anti-Jew. And no, I'm sure Johnny would word it in today's climate, arresting a murderer for murder. See? / / The mere fact that one can deduce a motive for a person or a group does not mean that they perpetrated the act...and it hardly suffices as proof of anything. \ \

Just try telling that to 'why work to make life better' CBC, CNN, or FOXNEWS censors. Look at me!! They refuse to acknowledge my documented info as REALLY important to your continued ACTUAL survival.

Who fuking cares right? Certainly not the enemies of America at the Coast to Coast radio network, who would kill Americans for the rich neocons without question. It's JUST American kids getting conned to die as bad guys.

God is Great

Again, George W. bush did 911 with General Ahmad, but CBC zionists, actual treasonous LIARS, actually smile to dying Canadian soldiers with only true contempt. CBC kills Canadian kids, with their intentional demon lies, trying to subvert Justice for God and Johnny. In fact, yesterday, they did a special, all on how "God is NOT Great", giving that bush bitch demon LIAR, all the space to pontificate it's hatred for Wisdom, Science, and GOD, with only nods and smiles from the 'illiterate' hord. Remember: A zionist KNOWS it's an enemy of Humanity when it supports dropping seven million land minds to murder indiscriminately OUR CHILDREN for decades, or stealing a Christians Home because they say God says Jews would do such ungodly acts. Blame innocent Jews the holocaust denying zionist shout, of which not one, is a Jew. Like me.

REMBERANCE DAY

So Remember: Bushite grunts told the world they wouldn't let anyone out of the city, because [enemy Sattler LIED] pro-bushite Zarqawi was there present, so the innocent families who believed they had nothing to fear from the liar disciples of the ungodly enemy of ALL HUMAN LIVES, remained in the tiny city to be indiscriminately 'protected' with more than nine two thousand pound bombs, or made dead instead by

heinous pro-bush escaping war criminals who used white
phosphorous on civilization. All to die our Humanity for the
thieved loss of evidence to demand ourselves of some official
freedom time to deal with our terrorized as suffering reality.

'Why is it so crazy'?, you might ask an un-responsive big sky
of Love? Well, the Bush administration committed 911 with
General Ahmad that's why.. and threatening Humanity with
torture, is how the neocons plan to fear YOU into speaking
nothing for the defense of innocent others.. As a
consequence, more than half the monies spent each month on
this war against civilized Life, isn't accounted for by
anyone. Except those at the Pentagon STEALING from a deafened
America. In fact, Moyers at PBS reported none! of the
billions flowing out of American pocket books EVERY MONTH for
the bushmob war monger shysters is actually audited for the
taxing payers.

Mr. Bush, the terrorist, doesn't care to war for your stolen
billions, instead wants to kill even more innocent others as
neoconner traitor. In your name as "American."

Support my rise against Living's enemy George Norry, by making
an effort to demand real Justice for dying American values.

CBC just did a report about all the great heroin coming in
from Afghanistan, that will still cause crime, and be illegal,
(and maybe give you life in prison as an American,) but
brought in with the help of the demonically evil bushite
thieving murderous military, by the likely ton full to attack
our direct family left un-protected, BY YOU PERSONALLY. And
guess what? THEY, our media masters, couldn't care less if
they actually tried to be our good guys. Reminder: the god
guys is good, the demon liar antichrist evil enemies who
thieve from Life with censorship is bad. If they hide
ourselves too far, they loose all around, up and down. So get
to it. Or don't. Your choice. Life lived Now, or damnable
death by cowardly design brought forthwith under your own
power to do nothing under such terrible costs against our
suffering natures.

Typical tyranny for media control over all of Life for the beginners is this treasonous betrayal against our Nature, by refusing to be honest about our potential to be far greater than first considered. If they'd only allow US to have open communications, all our worlds would be better living for it.

Demand Coast to Coast hosts allow America to defend America.

I want air time with the one and only real man in these here parts, Mr. Johnny America, our glorious make believe creator of all we perceive religiously, self realized. He's a genius!

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

God Damn America

You f-cks, because Bush told congressmen secretly about truly torturing innocent people to death in YOUR name, doesn't make the crime any less satanic. True Christians will execute bushite torturers with glee. America will pay millions a head for each bush bitch nazi traitor to children as family. The neocons will all be tried to death for treasons like 911, and for supporting a slaughter against Iran. For Petraeus has giving US no evidence to form our conclusions on the validity of his therefore, TREASONOUS statements. Bushite are murderous thieves of Iraq and deserve by the measurements of any civilized man, a action worthy of death as demonic, before allowed to further steal from our Humanity. SAUDI Bush bitch Buford Blount gave out 170 tons of explosives to KILL marines with, and Petraeus doesn't call for his rightful death, nor for death to be brought to bushite soldiers who kidnapped bare footed children to be beaten to death on video tape. hundreds of thousand of guns were 'lost' in Iraq through bushite management skills, and liar Petraeus speaks no outrage. Private death squad goons are committing crimes against GOD, and Petraeus blames no one. MORE than half the monthly bill for these bushite bleeding atrocities to Humanity, are not

even accounted for by ANYONE, but for the thieves at the Pentagon who are ROBBING america with Petraeus' silence on the life and death issue of America. Again, Petraeus knows the bushmob did 911, and would rather kill your stupid american teen, than stand for freedom in America by holding evidence a pre-requisite in determining OUR capital allegations. Death to the false accusing bushite, death to the enemies of America,

al-Qaida = General Mahmoud Ahmad. Torture IS against the law, and deserves the death sentence. Bushite Cofer Black MUST be put to death for being a Satanic demon enemy of Human life, who freely admits he tortures innocent people to help escape the neocons for 911. Bill a bushite for America, bill a bushite for God. What do Texans own guns for, if not to bill a bushite child killer like those in the evil enemy pro-bush air force. Bushite repeatedly have been found killing innocent people without apology,

and now, as reported, the narco-gov has put to death at least twenty Afghans, who were claimed, without trialed evidence, to be guilty of such actions. The narco-gov refuses to call for the execution of known bushite who torture INNOCENT PEOPLE, or rape them, or thieve the 80% of charitable aid given from Canadians. Despite CBC refusing to report on the facts to let US decide for ourselves. Fight back for Christ, fight back for love, fight back for freedom, fight back for God.

George Walker Bush, "The Puppet" is GUILTY of TREASON a thousand and one times over already. We all love Alex Jones, but this nwo bullshit doesn't apply to the lawless demon enemies who inflict harm on our humanity because they confusingly tell US, they enjoy it. Murder, rape and pillage for the sake of murdering, raping, and pillaging. Look, I'm sure we'd be able to easily work out our differences, if George Norry's amerka would take our calls for clarity, on Justice ruling our ways to a fool's paradise where those accused of a crime without any evidence would be US, as the INNOCENT forsaken in God's good name.

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Therefore, to survive US all for something better, halt the 'escaping' murderous bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

ABCNEWS.com : FBI Called off Terror Investigations

investigations, immediately after the terrorist crimes of 911?
Shouldn't the demon enemy be put to arrest for that godless
act alone in this forsaken dying world? A world left instead
suffering further the tyrannies of the war criminal ENEMY of
all Human Life?

A refresher: the neocon will tell you openly, they live to
lie to the Public for cheating and stealing by murder of US as
proxied, innocent peoples purposefully enslaved by a made
ignorantly entranced TV audience that is repeatedly reminded,
we have no power worth respecting.

CNN, CBC, and FOXNEWS aren't taking are calls presently, but

True Enemy of Liberty

I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really set ourselves free with..

"Al-Qaida" = "General Mahmoud Ahmad"

A neocon bushite soldier is a true enemy of Liberty for America. They as DEMONIC LIARS, are dishonorable THIEVING nazi savages that bomb our innocent families with criminal intent to MURDER. Enemies of Life and Love, a dead bushite is an enemy of GOD halted from victimizing further our loved brothers and sisters, mothers and fathers. Death to the neoconner bushite dumfuk grunting liars who bomb our families, death to the enemies of Christ who war for the escape of the true culprits responsible for 911. TRAITORS.

See my friends, this is why I, plead
for all able bodied men, to kill treasonous bushite on sight, for every time you love God by defending the innocent from murder, (the innocent whom any pro-bush corporate professional hold in total self contempt,) you save REAL peoples lives, and you defend God's good name to love God as ourselves committed to true Liberty. Bushites are enemies of freedom, enemies of God, and worthy of death, before allowed to further bomb people indiscriminately like the commanders of NATO order day after day without risking instant frag because, bushites are blind cowardly thieving nazi fascist savages, brain damaged, who believe as satanic demon whores of Molech, they can con all of US including me forever, just like dare dubya. Dumfuks to their bitter end.

To Kill a Bushite, is to be Heroic

American soldier: Your enemy is TRULY LIAR happy George Norry. The demon knows of Ahmad, and forbids any guest from uttering such understandings in defense of the DYING dumfuk grunt nazi - Good riddance? Do you care that your country men are dying for the criminal zionist neocon as traitors? Support my demand for US to be heard GOD DAMN YOU. ...or die by the hands of Humanity.

defense of our innocent forsaken dying lives. CBC producers
know the bushmob did 911 but lie with propaganda to kill our
families for the ungodly as thieving neocon enemies. They
refuse to inform ourselves that Al-Qaida is General Mahmoud
Ahmad, as according to the FBI. Or that video of iron flowing
like water from the WTC towers exists indicating without
doubt, the bushmob enemies did 911 as TRAITORS.

Today, there is nothing more i wish, than to hear bushite nazi
savage thieves for the neocon die rightly, before the innocent
they target for murder. All in an attempt to 'escape' those
truly responsible for the crimes of 911 a bushite whore
practices, as an enemy to Christ and America.

I AM AMERICA

Sattler ordered the murder of more than 200,000 innocent people in Fallujah, and they speak nothing but lies on how such demonic behaviors are godly as just ignored. Our Lives forsaken, as they hold their very own to die sacrificed for the unelected traitor neocon. I AM AMERICA.

America MUST demand war crime trials for the propaganda CNN broadcast "Anvil of God" regarding the demonic actions of Bravo company. They forgot to tell America importantly, nazi forces forbade the population from leaving, gunning originally for everyone between 15 to 55, but sided instead to murder infants and the elderly too, when beginning the Zarqawi campaign by bombing hospitals as first strike targets. As such, the bushite murdered many good doctors and nurses - so all to send bushite snipers on hospital near rooftops gunning for every seriously injured woman and child who tried to get help from the Humans. While driving down residential streets, grenading every home of humans being. Remember that when you hear these dishonorable bushite thieves die rightly for god and country.

[Sideline: It's been thought the reason why rescue efforts in New Orleans were provably sabotaged by Rove, was an attempt to make the blue state, commi red.]

See?.. women and children, who the enemy bushite forbade to leave the city with their innocent families, who, as were all living in the entire city of mosques conveniently found labeled therefore by bushite, "Insurgents" (or did leave earlier, and had our innocent families reportedly indiscriminately murdered two miles or so down the road by the most evil war crime act of recorded history.)

Importantly, there was no evidence made awared of, that legitimately offered PUBLICLY, from the UN or the U.S. to indicate a refugee camp anywhere, but for maybe a small group photographed - then some belligerent bushite bogus pocus - all headed up by a blatant traitor to America named Sattler. Reminder: after the indiscriminate carnage, they couldn't

find near anyone for weeks who would take money offered to any
citizen freely who survived for their satanic benefactor. So
insanely disturbing as ungodly evil doing, war criminal
Sattler called a halt to giving out charitable considerations
from Americans to the unseen surviving victims - all in an
'escape' attempt to make it look better for US, the paying
audience. So, where did our stolen values go to then eh?

TWO OF THE PROTECTED 911 HIGHJACKERS WERE WORKING WITH SAUDI INTEL!

Murder for stolen money in America's America!, and CBC, CNN, FOXNEWS report no cause to care! Treasonous George Norry CONS Americans to murder for the evil neocons with threat of his going "ballistic" against any or all Americans who try to stand up as a Just peoples for what is righT, for Life and/or God by SPEAKING FREELY. Will You try?, or go silent to die as unworthy? Your call bud...

What Freedom do bushite war the innocent for to rape, pillage, and murder as blind neocon followers of the 'lawless' demon antichrist? Eh?

"Al-Qaida" = "General Mahmoud Ahmad"

CBC, CNN, FOXNEWS, the Zionists, purposefully work to LIE to the dying American Marine, that the ungodly bushite wars to escape the 911 perpetrators hold some hidden benefit, as the TREASONOUS neocon thieves freely rob from both undefended American and Iraqi citizens, The neoconner, Mr. Bush closed criminal investigations on 911 immediately after the event occurring, while Billions are stolen through 'ear marks' and TVed Americans have no care known to speak of.

Done with American tax paid for rapists, torturers, and terrorists like Aegis who dress up as al-Qaida to murder godly lovers of Justice. CNN, CBC, and FOXNEWS would rather kill the Marine, than teach them where to aim their weaponry of liberation.

CNN, CBC, and FOXNEWS speaks NOTHING to demand the execution of hiding as 'British' soldiers who on prized video tape, beat to death young barefoot children for erotic fun, nor on mercury vaccines not banned minus "The President" in name. BANNED if God were Loved by America, or that the man or woman on the street would financially support my rise by popular command. Would you leave me to know, I will be left without a home to rest, or food to feed my hunger? Would an American?, I ask all Peoples of Earth to witness the American's contempt for Our worthy lives. Sattler ordered the murder of more than 200,000 innocent people in Fallujah, and they speak nothing but lies on how such demonic behaviors are godly as just ignored. Our Lives forsaken, as they hold their very own to die sacrificed for the unelected neocon. I AM AMERICA.

ABCNEWS.com : FBI Called off Terror Investigations

THERE ARE certain principles that we would all agree to publicly speaking. There are criminals who don't like these ideas, but they ain't going to speak out against us. Example 'I don't want to be held accountable to the American public, cause I want to steal that 16 billion dollars for myself. That's my public opinion.' What are we going to do but defend ourselves of deathly lawless tyranny, eventually. Or, you won't by DECIDING not to decide. Support our rise as the top cop of Humanity, coming down for diplomatic talks to engage the flagrant wanton stupidity of the bushite grunters. All on hopes you'll consider also, these Kingly texts worth a couple hedge funder salaries, a sixty cent barrel of oil marked up to 74 dollars, or a thousandth of the money America would save in a year, if you adopted Canadian Health care systems overnight for yourself to immediately provide all People the respect for life we deserve. Or don't, and needlessly continue to pay twice as much, while dying broke as self made losers without a cause worth preserving. A free market open to waste for profit

Mike Huckabee Publicly Questioned on 911's ISI General!!!
http://prisonplanet.com/articles/august2007/230807_b_huckabee.htm

Do you care to buy the bushite lies, when they commit openly the very same terrorist acts they say we should all be outraged against? Somalia is a case to point. They murder helpless people as bushite, then say they'll remain dying to thieve further as enemies to Humans being. It doesn't fool me, but perhaps it does you. A neocon soldier murders innocent Iraqis, while selling you they are all there risking their lives to bring freedom. So, they die. For lies. Die. Again, KNOWN Aegis goons openly commit crimes against Iraq done officially to get killed! the supposed to be Patriot Marine. P2OG. Soldiers under bushite command would rather die cowardly, than to honorably demand the bushmob's arrest for public trials as defeating ungodly fascist war criminal savages.

Why suffer otherwise this way under the tyrannies of naked neocon plunder to deny our lives for measured justice I ask YOU again, please believe: truth will set us free.

Al-Qaida = General Mahmoud Ahmad = ungodly bushite liars

I can't understand why you can't help get this party up as starting by supporting our rise to highest acclaim with my authority free willed to anyone. Let's face it, we're great because Your great. 911 Leaders Saying They Are Jesus
http://rss.nfowars.net/20070802_Thu_Alex.mp3

I've given my phone number several times to Alex Jones, of which he's not as of yet, invited me on as official guest, for fears he can find no arguments against US I presume. 911 financier Ahmad = al Qaida, and we have molten iron on video flowing like water. Demon Bush Jr. gave US zero, while closing criminal investigations immediately after the terrorist offense of no questions!, no questions! Case closed. But no, the American media rarely if never mention these facts, while insisting Bush's deathly war criminalling is as only a puppet, look away! look away!, leaving without challenge on the, teen like naivety of wearechange.org's consistence that "we", who demand justice for 911, who might also hold the opinion that zionist behavior does not blindly equal being Jewish, should not be allowed to speak Justly for our public challenge, because bushite Amerika has no defense for censorship against ANY of our judicial wanting, as

documented positions on behalf of the suffering to death victimized public. Why? Because we are Just. Well, I try to be anyway. (I've spoken as written for YEARS, with NO ONE WORLD WIDE countering in the public realm, but for the strangely odd insult. Bushite do exist, don't get god wrong, but dumb evil bushite brood in darkness with censorship like all zionists do, selling to be 'godly' honorable men, when in truth, they'd murder anyone of US for a stolen nickel given to a neocon. I, as open line talk radio producer, win every time, always, forever, never fail. [er.. yet..] Why? Because I treat YOU fairly. America should do the same. We are all in this together. Zionists like robbing then killing defenseless innocent Christians, and Jews, while just lying that they don't without scened factual TV perception. Demon 911 WITCH, zionist Condi 'okayed' the dropping of more than SEVEN MILLION land-mines on Lebanon, purposefully done to indiscriminately murder ourselves for generations. Jason might foolishly call you an "anti-Semite" in fear for speaking such not understood truths. And importantly, not because they can publicly disagree so in open debate, so sides to not allow US to rise in acknowledgement to bring about Justice as demanded, for ALL as ANY. (Gee, who's the neocon now eh? (we're all sinners.))

If Americans really want 911 Justice:

Help US out by putting the video of molten iron flowing like water out there in the minds of any who have doubts, tell them hypno mugger Bush, gave US zero to substantiate his public falsehoods, and tell US about Ahmad as more than a passing fact that means little of nothing, then, WE, The People, will believe this has more to do with Justice for Humanity, than the American suffering movie goer ego being, "leading the free world", by voicing no public concerns on the criminality of the bushmob shysters. Left happying in the George Norry, as a TRAITOR to a dying America not hearing. An enemy of Liberty to the, tried to be free soldier, who is led TO DIE still un-wittingly by lie for the misfortuned neocon bounty of global tyranny through coast to coast story lining. Look, the peenackers will tell you freakishly, that they work to lie to us all, to take advantage of a plain to view weakness. I swear. The neocon wants to con your kid to die for a war lied into with as our stolen goods. We lose as crime victims, while they win free accountability because, (well... I'll just let you finish that one liner sucker punch..)

Do Republicans mean to bring health care suffering out of control with no market values, because truly they have little of no skills when it comes to fixing their own buffoonery? Hmm... unless they count to hide the bean all together, fixing the game intentionally to have US lose by remote controlling stupidity! 300 channels, and nobody's taking our call from the space cased file of, "what's this freedom war against Life for again"? Look, is mercury as a medicine good or bad do you think?, let's ask someone for Christ's sake. Or for Deb, Henry, Bill, Beth, Mark, Carol or Tony. Johnny Wizard, our everyday normal magic man of folklore, opens up the stage to ask all the people together, "Are we Man or machine to take this all lying down quietly"? We need to talk about what a King like me, is doing in a place like this, under appreciated, and left alone without my home, dying for a break in radio programming, as President of the company that started the sands running, Shareware Earth Co., a god-like production of miracle and wonder!! You just participate, and you won't even believe how good we could have it, Rejoice, for Johnny Jesus has come down for diplomatic talks. Give away! Give away!

Again, CNN, CBC, and FOXNEWS, (who advertise their listening) suggest G.W. Bush and Co. have publicly acted nothing warranting immediate arrest, or have openly supported the great Kucinich's plan for Impeachment, and consequently, are leveraging America into this mess 'because' we were portrayed as sold to the U.N. for freedom as Iraqi's Grand Strategy. BOGUS! Nothing about the PLANNING of killing people indiscriminately for financial criminal gains as bonafide terrorists, for we had unrestricted access prior to dropping bombs for mangy LIAR neocons. ORHA. I have yet heard FOXNEWS complain in pains of liar BUSH personally being the al-Qaida cause responsible, (like Alex Jones sells foolishly falsely also) More than a million INNOCENT people have been murdered directly by the criminal action of the broken Bush Rule, UN-CONSTITUTIONAL! Don't they know of what You speak? Now???

Liberty. Did you know, many bushite sing a song about killing

hasn't even been acknowledged as evil doing in progress.
(Every time you read, "The Army says..", become aware.)

It should be noted, ungodly bushite enemy commanders call
every car bomb in Iraq, al-Qaida, without even pretending to
do freedom operations for YOUR protections, as just another
dead body in the rubble. (Likely caused by Aegis for cash
profit.) So then, look my friends, Amerka refuses to demand
justice to save the lives of their very own sons and
daughters. And when, WE, Humanity, beg them to answer our
calls for accountability, they refuse but for to LIE, stating
publicly, "God" would grant robbing from innocent others, to
enrich their great unholy tyrannical demon liar. They know
easily that the bushmob did 911, and they like it. No, they
crave it. The chance of murdering their own "loves" to
enslave the human race for the antichrist, sounds great, just
as long as they can get themselves in on the take.

Your Constitution is laying undefended, a National act that can not be done by any other terrorist group but those who claim your freedom rights denied by bushite command. Not treasonous? Look Condi, the demon 911 nazi witch PERSONALLY assisted in dropping more than seven million land-mines on Lebanon indiscriminately in Your terrorized dying names. Hate Life and God as yourself do You?

Don't anyone be deceived that the neocon enemies minimally assisted these crimes by refusing to allow US pursue the evil doers by following the actual crime scene leads, but we lack REAL leadership skills that are naturally required to see molten Iron flowing like water from the 911 towers on YouTube.

They, as America's Coast to Coast voices, would rather richly die YOU sacrificed for CRIMINAL zionist Israel, (Israel, where the government leaves actual Jews to die in the streets starving as garbage dumps, to make it look good for MORE giving American charitable donations to disappear elsewhere) before saving the lives of THEIR VERY OWN. Americans don't seem to care they die by their own unwillingness to communicate openly for Justice. I ask you again, to spare me a few dollars so I can feed myself. Death to the bushite instead of the innocent loved in God

/ / IntelCenter issued a tacit warning \ \

Don't EVER forget, the private company Aegis has been officially found dressing up as AL-QAIDA! - AL-QAIDA! - AL-QAIDA! to murder pro-western forces in Iraq, while desecrating Elvis. Elvis Presley. If you don't love Elvis, there is something seriously wrong with America.

Time is Up

Al-Qaida Kagan "Al-Qaida, their whole strategy revolves around generating sectarian violence, because that is how they embed themselves within local communities "

What?? For friendship?

What is the demon TRAITOR to HUMANITY in America saying about the reasons he embeds an Iraqi under 50 odd divergent NEOCON labels? Wouldnt most Al-Qaida take great joy in killing a bushite nazi grunt like any real Family man would also? These LIAR dumfuk grunts who cheer "whore yeah", routinely, can barely read or write, so, how possibly does this FOXNEWS expert, expect such ungodly antichrist forces to delineate Al-Qaida from the local communities they PROVABLY indiscriminately bomb as Satanic?

Kristol and Kagan: Put Everything Behind Escalation So We Can Bomb Iran and Syria

Kristol and Kagan MUST be put to death for treason against America, treason against Life, treason against GOD. They both have continued to Publicly advocate murdering more innocent peoples indiscriminately they call, "Al-Qaida", all to rob further monies from an undefended America. It is easily learned by any as all, the victims of bushite tyranny are exclusively, US, The People, guilty of nothing but our shared love of GOD. Remember forever: there was NO JUSIFIED REASON for bombing PEACEFUL Samara, NONE! that bombers confess was done as ordered by Allawi INDISCRIMINATELY, all for getting killed Marines sent in later for more stolen cash from America. P2OG. [hundreds of bushited Marines died rightly almost immediately - (wow eh?)] A Satanic action, Kistol and Kagan, both blame without thought to question on "Al-Qaida".

The action of Satanic bushite bombers targeting Samara as war criminals is FULLY documented.

Death to the bushite neocon LIARS, death to the enemies of Freedom for Humanity. My beloved friends of GOD, please, when you see the mute bushite, kill it for Christ, kill it for Love, kill it to defend your loved family. (Any soldier who

doesn't proudly talk of how it hunts those British soldiers who kidnapped barefoot children and victimized them on video, is a soldier worth destroying NOW to defend GOD and Life from needless death.) I HATE the REAL demon antichrist Christ says.

/ / The US has also been backing some pro-western politicians like Iyad Allawi \ \

Do you know who Allawi is? Allawi confesses to blowing up school buses filled with children for "CIA" money. NOT THEORY. HE ADMITS IT AS AN ACTUAL SATANIC DEMON! Allawi, the truly insane mad man, confesses to having ordered the murder of doctors and nurses that treated wounded god loving women and children from Fallujah. It was these DOCUMENTED acts that had him thrown out of 'the CBC, CNN, and FOXNEWS TV expert scene as workable', all for fears that US humans might actually wake the fuk up on WHO is Our True Enemies here. All three, pro-private-bank zionist news stations are well aware that the bushmob did 911, but lie to YOU as forsakenly dying for their growing riches and world wide broadcast fame.

CBC National Newz - July 11th 2007 'tens of thousands have died in Iraq since the war against truth started.'

Anyway, these two Allawi incidences are fully documented, look it up, then demand the "The US" pro-western politician person quoted as supporting Allawi - be found guilty of CRIMES AGAINST HUMANITY, Demand publicly, having the neocon zionists EXECUTED by America, for America, as America. A Just America that defends America from criminal madness. Or don't. Death to the bushite, death to the enemies of Man I say.

It seems Tenent wants to inform us he actually meant when saying "slam dunk" - that, selling the war to the American Joe, without establishing any real facts would be easier than anything against the powerless as media unrepresented!

Bushite War LIFE Itself - and - They Couldn't Care Less

'Alpha company patrols the poppy fields.'
20070420_taliban28.mp3 (pbs broadcast)

"About the poppy harvest, currently gathering pace all around them, they couldn't care less." Instead they kill unarmed innocent people indiscriminately as enemies to ALL HUMAN LIFE.

They Couldn't Care Less

The 82 Airborne, in assisting in defending the world wide distribution and production of heroin, tells of murdering innocent farmers, that would never raise a gun in anger, are those they openly confess to target for first degree murder as labeled the, second tier Taliban. That's when not defending American Pension thiever ENRON'S pipeline managed under their extremist Muslim fundamentalist regime of intolerance for public communications, as the continuing thieving of 80 percent the Humanitarian Aid given by Canada to feed the STARVING, and school our children of the impoverished Afghanistan, as so reported. Eighty percent. 80. 80 percent

stolen. I'm telling YOU: CBC couldn't care less about what Canadian soldiers are actually dying as COWARDS for: "Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime" CBC national radio management needs to be arrested in Canada for high TREASON. Please, be a Patriot, and demand these zionists allow open communication with the facts to save the lives of Canadians soldiers they hold in contempt to die as the bad guys committed to no better good.

AMERICAN

The Pentagon's Power to Jail Americans Indefinitely
http://www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun, paid for by the silent American tax payer. Americans refuses to bother making a simple phone call to Coast to Coast to raise some concern. THEY don't. They refuse to hunt bushite down in their streets for death to defend the innocent held indefinitely against GOD'S will. Death to the bushite, death to Johnny's godless, lawless, fascist enemies of FREEDOM.

Look, CNN, CBC, and FOx News know the bushmob did 911, but will smile while watching your son or daughter sent out to die

CONNED by their demonic hatred for US freely communicated. How do I know this? I made the effort of making the phone calls.

He and his family
have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering?

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real

Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

Al-Qaida = General Mahmoud Ahmad

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys

secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

/ / The Mujahideen aren't students of power and don't compete for power like others do. We are students of truth and work for establishing this truth and for this cause we sacrifice our power \ \

/ / Timothy Griffin, Karl Rove's assistant, the President's pick as US Attorney for the Eastern District of Arkansas. Griffin, according to BBC Television, was the hidden hand behind a scheme to wipe out the voting rights of 70,000 citizens prior to the 2004 election. \ \ Timothy needs to be arrested for high treason, for fixing an election, or instead, what? we'll make him a State US Attorney in bushville?

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and

they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

-

Like Coast to Coast's fun guy, he ain't taking our screams, George "pro Arab child Killer" Norry??

Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911.

/ / As a result, the Defense Department put up a Web site in 2005 designed to clarify [to the dumfuk bushite demon liars] that sexual assault is illegal [...] \ \

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush: "If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win." http://cleveland.indymedia.org/news/2007/03/24652.php

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq

indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of iron running like water moments before the first tower fell is freely available for download all over the place.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 10,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

REPENT. [from the Greek, meaning to think.]

Life
begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

1. We, as the People, demand you allow US, the human species
to openly discuss the public evidence on who funded the
terrorist acts of 911 according to the FBI. And full
disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a

Mercury is scientifically understood, without question, (no

5000lbs of radio-active toxic waste that will murder for years
more like, while after, then striking again to get the god
helpers and screaming children, then even, as in Fallujah,
going house to house to murder every one, young and old as the
truly Satanic. Just obeying lawless orders to thieve from
Humanity as bushite for neocon zionist traitors of G-D doesn't
fly in the big book. When anyone kills a bushite, all
humanity benefits truly from the defense. You defend a real
suffering God by ending a soulless bushite threat against our

species.

Exit strategy to save the lives of dying Americans:

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt
those who stole billions with ear-marks, Social Security,
no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the
emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People
like in Fallujah or Somalia with land mines and mini nukes

The godless as lawless bushite is the enemy to America, kill
it proudly for freedom, as an undying love for a real God and
Humanity.

For those interested - there is a HAM FEST in St. Charles, Illinois, at the DuPage Expo Center, 4050 E. Main St. from 8 -1 p.m. on Sunday, 1/27/08. Tickets are 7 bucks, I think. I don't receive any kick - backs from this. I just know lots of people go, and there is a lot of equiptment and goodies for sale. Thought maybe some of you might be interested if you're close by.

I would not get to excited about this yet as the picture is drawn and
not an engineering mockup. I know the web site states availability at
the end of February but it could be vaporware for longer than that.

*** Welcome to rec.radio.info! ***

Welcome to rec.radio.info, a group that aims to provide a noise-free
source of information and news for the entire rec.radio hierarchy.

Two introductory articles about rec.radio.info are posted to the group
every month. You are now reading the first article, which explains what
rec.radio.info is, and answers some Frequently Asked Questions. The
second article is titled Posting Guidelines, and you only need to read
it if you want to submit an article to rec.radio.info.

You can skip to the next section of this article by searching for the
next
" -- " string. The sections available are:
- What is the purpose of rec.radio.info?
- Why are messages almost always cross posted to rec.radio.info?
- What is a 'follow-up', and what does 'moderated' mean?
- OK, so now I know what 'moderated' means. Tell me more.
- What type of material is considered inappropriate?
- I do not have access to news, how can I get the information posted to
rec.radio.info?
- Will the material appearing in rec.radio.info be archived somewhere?
- I have a regular posting with timely information, is there a way to
speed up it's delivery, or automate for more convenience?

-- What is the purpose of rec.radio.info?

The purpose or charter of rec.radio.info is to provide the Usenet
community with a resource for information, news, and facts about any and
all things radio.

All the other rec.radio groups are intended for discussions and general
chit chat about radio. Rec.radio.info will contain informational,
factual articles only. Follow-ups are redirected to an appropriate other
group, and further discussion (if any) will not take place in
rec.radio.info.
```

In order to ensure that rec.radio.info contains only appropriate articles, it was decided to create the group as a moderated newsgroup.

-- Why are messages almost always cross posted to rec.radio.info?

It provides a "tag" for each article to be assembled into a filtered presentation in rec.radio.info (even with cross-posting, only one message, with a unique Message-ID, is propagated across the net). This tag also facilitates a pre-existing method of dropping or canceling the articles locally within the discussion groups if you don't want to see them. This accommodates individuals who want to separate the bulletins from the discussions, discussions from the bulletins, as well as those who are adamant about not reading another newsgroup and wanted to see everything all in one basket.

With the total size of Usenet (in number of newsgroups and total traffic) doubling every year or so, this is no insignificant contribution to reducing information noise and chaos. Making the discussion groups a catch-all, and making extra newsgroups filters on that catch-all, is also the most realistic way to implement such a scheme (It's not intuitively obvious what the charter, contents, and general appropriate topics for each and every newsgroup are. Seeing FAQ's and charter/intro postings in the home newsgroup is beneficial for new readers).

By cross-posting one only is adding a few tens of bytes to each bulletin (to specify the extra group on the Newsgroups line), but are adding the capability for very powerful filtering features available on most news servers, listservers and readers. Your local news guru could probably explain these features in more detail.

In rn, for example, according to Leanne Phillips in her rn kill-file FAQ, add a line of the form:

/Newsgroups:.*[,]rec\.radio\.info/h:j

either in ~/News/KILL (if you don't want to see rec.radio.info articles anywhere) or ~/News/rec/radio/amateur/misc/KILL (if you don't want to see them just in rec.radio.amateur.misc). The latter method means your kill file will only be consulted during rec.radio.amateur.misc (and hence runs more efficiently), and will probably work for most people.

In nn, according to Bill Wohler in his nn FAQ, add a line of the form:

rec.radio.info:!s/:^

in ~/.nn/kill (if you don't want to see rec.radio.info articles anywhere), or put the following lines:

sequence
rec.radio.info
rec.radio.

at the end of ~/.nn/init in order to see all the rec.radio.info bulletins first, then read the remaining rec.radio.* without the

bulletins.

More information about kill files may be obtained from Dave Fawthrop's Killfile FAQ at:

http://www.hyphenologist.co.uk/killfile/

-- What is a 'follow-up', and what does 'moderated' mean?

If you are new to Usenet and are not familiar with the terminology, you might want to read the general introductory articles found in the newsgroup news.announce.newusers. Doing so will make your life on the net much easier, and will probably save you from making silly beginner's mistakes.

If you think that at this moment you are reading an echo, a conference, or a bulletin board, I'd also strongly suggest a trip over to news.announce.newusers.

For the rest of this article, we will assume you have a basic knowledge of Usenet terminology and mechanics.

A moderated group means that any article that needs to be posted to the group has to be accepted by the moderator of the group. Since we need to ensure that followups to an article (discussion) do not show up in the rec.radio.info newsgroup, the `Followup-To:' header line contains a newsgroup that is appropriate for discussions about the specific article.

-- OK, so now I know what 'moderated' means. Tell me more.

Rec.radio.info is a moderated newsgroup, which means that all articles submitted to the group will have to be approved by the moderator first.

The current moderator of the group is the rec.radio.amateur.moderated Moderation Team. Submissions to rec.radio.info can be posted, or e-mailed to:

rec-radio-info@panix.com

Comments, criticisms, suggestions or questions about the group can be e-mailed to:

rec-radio-info-request@panix.com

But before you do so, please be sure to check out the "Posting Guidelines" article.

The influence of the moderator should be minimal and of an administrative nature, consisting chiefly of weeding out obviously inappropriate articles, while making sure correct headers etc. are used for the appropriate ones.

-- What type of material is considered inappropriate?

There are three broad categories of articles which will be rejected by the moderator:

1) Requests for information: rec.radio.info is strictly a one-way street. We receive information in our mailbox; we then post it to rec.radio.info. Requests for specific information belong in the normal discussion newsgroups. If your request gets answered, you might consider passing the answer on to rec.radio.info, though. Especially if you can edit it into a informational, rather than a discussion, format.

2) Obvious discussion articles, or articles that appear unsubstantiated.

3) Commercial stuff: a relatively unbiased test of a radio product would be accepted, but any hint of for-profit might be reason for rejection. For three reasons: This is not the purpose of the list, for-profit is a controversial topic, and this list may be passed onto Amateur Packet Radio (where for-profit is prohibited except under certain provisos).

rec.radio.swap may be more deserving of the posting in any matter.

Similarly, copyrighted material generally cannot be used. If it's TRULY worthwhile to the net, We would recommend obtaining permission from the copyright holder. Please note the source, and if permission was given. We reserve the right to make the final decision concerning appropriateness in all situations. In most cases, a brief summary of, or pointer to, the copyrighted information may be all we can allow.

-- I do not have access to news, how can I get the information posted to rec.radio.info?

Google has an excellent web interface to Usenet newsgroups. It is available at:

http://groups.google.com

It supports both reading and posting.

Another excellent web interface to at least the radio-related Usenet |
newsgroups is the RadioBanter site: |

http://www.radiobanter.com |

sponsored by the NewsgroupBanter project: |

http://www.newsgroupbanter.com |

It, too, supports both reading and posting. |

-- Will the material appearing in rec.radio.info be archived somewhere? |

Yes. See Google Groups and RadioBanter above. |

Effectively this means that anything you post to rec.radio.info will be permanently stored, so your work will not be lost.

-- I have a regular posting with timely information, is there a way to speed up it's delivery, or automate for more convenience?

Yes, there is! It may take a bit of chatter with the moderator, but we are willing to take responsible people and provide them the means of posting the articles directly from their site. We will try everything we can as we fully realize that DX (distant signal) and astronomical data can be somewhat transitory. We are also willing to allow regular posters of information the same courtesy, even if the information is not as time critical.

We refer to this as self-moderation, which is partly based on the model for rec.answers/news.answers. This requires co-operation and goodwill to be beneficial to the community in the rec.radio hierarchy.

Please direct any comments, questions, or criticisms about this article to rec-radio-info-request@panix.com.

*** rec.radio.info - Posting Guidelines and Etiquette ***

Two introductory articles about rec.radio.info are posted to this group
and to rec.answers/news.answers every month. You are now reading the
second article, which explains how to submit something to
rec.radio.info, and which answers some Frequently Asked Questions about
the submission process. The first article is titled "Welcome to
rec.radio.info", and it might be a good idea to check it out as well.

-- How do I submit something to rec.radio.info?

Two possibilities. You can use your newsreading software to just post
the article to rec.radio.info, as you would do with any other
newsgroup. The difference is that the software recognizes the special
status of rec.radio.info as a moderated group, and will e-mail your
article to us, the moderation team, instead of posting it to the group.

Alternatively, you can mail your article directly to us at the following
address:

rec-radio-info@panix.com

Mailing us directly is probably (a wee bit) faster, but using the
transparency offered by the newsreading software is probably more
convenient.

If you have any questions, or wish to deal with some administrivia with
the moderation team, we suggest mailing to the following address:

rec-radio-info-request@panix.com

-- How soon will I see my article appear?

It depends on how busy we are. Your article reaches us as mail, we have
to read it first, give it the stamp of approval, and finally send it on
to the group. We will attempt to read and decide on all submissions
within 72 hours at the very least, though we will probably be able to
process submissions much faster in actual practice.
```

The site from which we moderate this newsgroup, "Public Access Internet and Unix, NYC" (Panix), is directly connected to the Internet, and articles posted at that site should appear at most major news sites, including Google Groups, the same day. The principal delay, therefore, will be the wait in the moderator's submission queue.

If you post a periodic article, and have shown to be trustworthy, we may allow you to post directly if the article is of a timely nature. See the section below on direct posting.

-- Should my article be in a specific format?

No. If it is not totally illegible, we will accept it, and if it does not have a correct subject-line we will correct it with your permission -- that's what a moderator is for.

However.

You could do us a big favor by making sure your article conforms to these simple requirements:

1) The article must present information, not discussion or requests, We will reject the article or require you to change the wording if it is worth it.
2) A good, descriptive Subject line.
3) Always mention what source you got the information from.
4) Don't forget to include a Followup-To header, at least if you don't want further discussion to automatically be forwarded to you, the poster, which is the default if the article is only posted to rec.radio.info.

As we said: if your article is appropriate we will post it even if you don't follow these guidelines, but then don't blame us for not processing it immediately. 'Perfect' articles we can send on with a couple of keystrokes. Stuff that needs minor editing is going to have to wait until we have time to do so.

Please do not waste both our and your time by posting requests, as this is an information only news group.

-- What about crossposting?

If you send something to rec.radio.info, just name any group you'd like to cross-post to in the Newsgroups field. Then, when we approve the article for rec.radio.info it will get automatically cross-posted to any other groups mentioned. This will also override the default Followup-To: poster, replacing it with the groups you cross posted to.

We would prefer if the group be cross-posted to the various discussion groups in the rec.radio.* hierarchy that are appropriate:

rec.radio.amateur.misc Amateur (ham) radio and related matters
rec.radio.amateur.packet Amateur Packet Radio discussions
rec.radio.amateur.policy Amateur Radio practices, rules, etc.
rec.radio.noncomm Non commercial radio discussions

rec.radio.shortwave International broadcasting on the 'HF' bands
rec.radio.cb Citizens Band (27 MHz) discussion
rec.radio.scanner Scanner discussions (unsupported group)

or in one of the moderated groups:

rec.radio.amateur.moderated Amateur radio practices, rules, etc.
rec.radio.broadcasting Discussion of *domestic* radio broadcasting

We will leave it up to the poster to decide which group(s) are appropriate, but reserve the right to add groups if we feel it has broader interest. We will consult with the poster first.

Notes on crossposting:

- rec.radio.broadcasting is also a moderated group. The rec.radio.broadcasting moderator prefers to review all articles himself before posting. Placing rec.radio.broadcasting before rec.radio.info on the Newsgroups line should accomplish this. We will typically abide by the rec.radio.broadcasting moderator's decision whether the article is appropriate for rec.radio.info.

- rec.radio.amateur.moderated is also a moderated group. As the rec.radio.amateur.moderated Moderation Team manages both rec.radio.amateur.moderated and rec.radio.info, we can manage crossposting and approvals for both newsgroups. The rec.radio.amateur.moderated group does not allow crossposting to other discussion newsgroups, whether moderated or unmoderated. However, we would like to manage rec.radio.info as consistently as possible with how it was done by previous moderators, including the grandfathering of existing regular postings. Therefore, the submitter can choose rec.radio.amateur.moderated or the other unmoderated rec.radio.amateur.* discussion newsgroups for crossposting, but not both.

- Any FAQ or informational posting approved by the rec.answers/news.answers moderation team that is also crossposted to any rec.radio.* newsgroup (besides just rec.radio.info) is also automatically pre-approved for rec.radio.info. See below for more information.

If you post to another moderated group, it may be better to make special arrangements with both moderators before posting by contacting us at our administrivia addresses.

In addition, cross-posts do not take up extra space; modern newsreaders can be configured to show you cross-posted articles only once anyway; not everybody reads rec.radio.info; and rec.radio.info was never meant to reduce the volume of the regular discussion newsgroups. But keep in mind that some of the mail gateways may filter out the informational postings (at request of the subscribers) to keep the load down.

You decide.

-- I have a regular posting with timely information, can I make arrangements to help speed up delivery by posting directly from my site?

Yes, there is! It may take a bit of chatter with the moderator, but we are willing to take responsible people and provide them the means of posting the articles directly from their site. We will try everything we can as we fully realize that DX (distant signal) and astronomical data can be somewhat transitory. We are also willing to allow regular posters of information the same courtesy, even if the information is not as timely.

We refer to this as self-moderation, which is partly based on the model for rec.answers/news.answers. This requires cooperation and good will to be beneficial to the community in the rec.radio.* hierarchy.

If you are currently maintaining (or plan to maintain) a radio-related periodic information posting, you may wish to consider crossposting it to rec.answers/news.answers. Postings that are approved by the rec.answers/news.answers moderators for this treatment are automatically pre-approved for crossposting to rec.radio.info (as the news.answers requirements are far more rigorous than the requirements this newsgroup ever plans to use). For more information about this option, consult the appropriate information articles and posting guidelines in rec.answers/news.answers.

Realize also, that even if your post is not approved for rec.answers/news.answers, it can still be approved for rec.radio.info. The intention is not so much to get every last bit of radio-related information on rec.answers/news.answers, but rather to provide an alternative avenue of approval (as well as grandfather existing maintainers of radio-related information and spare them additional bureaucratic hurdles). Again, crossposting to either rec.radio.info or rec.answers/news.answers, both, or neither, is at the discretion of the poster (subject to the approval of the moderators). You decide what is most appropriate for your article.

Please remember that as an information maintainer, you are not alone. There are many others on the net who maintain and post periodic information postings, using various intermediate-to-advanced features of Usenet (usually via automated tools). Various degrees of technical support and general hand-holding are available from many Usenet veterans. Send us some E-mail describing your needs to our administrative address below, and we'll try to help, or at least refer you to the right knowledgeable individual(s).

-- And Follow-ups?

If the only newsgroup you have specified is rec.radio.info, then the Followup-To: field will always be set to poster. If you do not want this, you must supply a Followup-To line of your own, and we will honor that one, as long as it is a subset of the original Newsgroups line.

If you specify newsgroups to cross-post to, then the Followup-To field will be set to include all the cross-posted groups, excepting rec.radio.info itself. Again, if you do not wish this behavior, supply your own Followup-To line.

We maintain other standards on the various RFC-1036 (news transport) header lines. For example, if the article is appropriate for passing into the Packet Radio Information Network, we encapsulate the Packet Bulletin Identifier (BID) in the Message-ID: news header line indicating the machine of origin as the ampr.org domain:

Message-ID: <$opa.55.1994@ampr.org> |

where the Packet Radio BID, in this example, is `$OPA.55', and it was posted in the year 1994, because some of the Bid numbers are cycled yearly. Hopefully, this can be used as a key to re-introduce the articles for the Packet Radio network. Also, if the article is a repost of an already existing information article in the rec.radio heirarchy, we ensure that the References: header line is linked to that previously posted article. This also helps to tag articles, and may be used for additional filtering if needed.

Since the articles are archived, please use the Summary and Keywords header lines to help one search for your article.

-- Why have I received no reply from you?

We never reject anything in silence, and we make a point of it to answer all our mail. However, E-mail, like a brain cell, can and does get lost, every now and again.

So, if you send us something, and you don't see it appear it rec.radio.info, and you still have not heard from us in reply after say, five days, you can be pretty sure that either your mail never reached us, or that our answer has never reached you. In that case, please try again (We will filter out duplicates).

Please direct any comments, questions, or criticisms about this article to rec-radio-info-request@panix.com.

I don't think that is quite correct. If the pulse were only a millisecond long, 0 to .001 on the time line, you would receive the echo at between 2.500 and 2.501 seconds on the time line. If you think of a two second pulse as only a series of millisecond pulses, the first pulse (or the beginning of a two second pulse) would be hitting the moon after 1.25 seconds and starting on its way back before the last millisecond pulse (or the end of the 2 second pulse) even left.

I think you are treating the pulse as a single discrete object that actually doesn't leave until the pulse is complete, like bouncing a ball off the wall. I don't think that is the case.

I think it is more like a long train (2 seconds long) on a short U shaped track (1.25 seconds on each leg). The engine coming back will pass the caboose still on its way to the end of the U. The engine will reach the end of the return leg 2.5 seconds after it left. The caboose will also reach the end of the return leg 2.5 seconds after it left, but it will be 4.5 seconds after the engine left making the total time for the train (2 second pulse) to make the trip (one cycle) 4.5 seconds.

An interesting and thoughtful response. However, it generates a question:

In your train analogy above, what is to keep the leading part of the
echo from being QRMed by the trailing part of the transmitted signal?

Nah, the long path echo probability is much more plausible.

Dear Friends,

The following SW Transmitters of All India Radio will start their transmissions on their day-time frequencies between 0335-0350 UTC (ie much earlier than usual) on 26 Jan 2008, Indian Republic Day.:-

5965 Jammu,
5985 Ranchi,
6000 Leh,
6040 Jeypore,
6065 Kohima,
6085 Gangtok,
6150 Itanagar,
6190 Delhi,
7105 Lucknow,
7120 Jaipur,
7130 Shillong,
7230 Kurseong,
7240 Mumbai,
7280 Guwahati,
7295 Aizawl

Frequency change between 0215-0230 UTC:
7115 Port Blair,

Several other stations like the ones below are already on their day time frequencies
6020 Shimla,
6110 Srinagar,
7140 Hyderabad,
7150 Imphal,
7160 Chennai,
7180 Bhopal,
7290 Thiruvanathapuram.

Other frequnecies to look for are 7195 Mumbai, 7360 Chennai & 9870 Bangalore.
Of special interest is the use of 6085 Gangtok which does not have afternoon broadcasts usually. This frequency is used only on rare occasions.

You bring up an interesting point Ace - I did get a continuous signal here and couldn't decide whether it was long path and short path at the same time, or whether I was actually getting the moon bounce? Food for thought!

Well, they said they were selling me one thing, to which I agreed. But, they put me into something else, then tried to tell me how much better off I was because of that.

Somewhat akin to going to a car dealership, signing the papers for an SUV, then at pickup time finding a sub-compact waiting. Them saying how much better off I am!

The delay, even via long circumnavigation, is too short to account for
some echoes I've heard. I especially remember such an echo when
listening to the Caribbean in Texas in the morning.

Collectors are motivated more by the rarity of an item than it's
performance, although there are collectors who also use their old
rigs. Whether it is an old Hallicrafters, National or a more recent
Drake, Japan Radio if two people are motivated to fill a collection
the sky is the limit. We've seen collector interest send floor radios
from the 1930's into the 5 figure range.

I'm more of a user who is interested in performance and convencience.
Consequently chasing an SX88, HRO or R4 isn't of much interest to me.
But if others enjoy collecting the old iron so much the better.

There is something know as "Long Delayed Echo" where it appears that
signals
get trapped in a duct like event in the ionosphere and make several
round the world
trips. At HF very few signals have the power to be detectable via moon
bounce.
Think about it, 2.5MW aimed at the moon with a electronic steerable
antenna.

There are some guys in Oz (Australia) that are detecting US UHF TV
carriers via moon
bounce. Super high gain antennas with very good front end, at the
antenna, amps.

Some LDE stufff.
<http://www.df5ai.net/Material/articles5.html>
<http://www.df5ai.net/ArticlesDL/LEchoes%28E%29.pdf>

When I was a kid, about 5,, my parents where making a trip to eastern
Kentucky to visit their parents. My folks could tot stomach "Hill
Billy" music

so mom was always tuning the MW radio looking for something to listen
to.
This was late on a spring Friday afternoon. She tuned in a station
that had
a pronounced echo. The delay was significant enough for my parents to
talk
about it. The main signal was strong but the echo had the common sky
wave
comb filter effect. After maybe ten minutes the echo just fluttered
away leaving
a strong signal that we listened to for the next hour and a half. It
could have been
something in the station patched wrong like a direct and delayed audio
path via
a tape deck. But it has been too many years and my parents, no in
their late
80's, no longer remember the event. I wish I had a recording of it.
The delay was
longer then a syllable, but shorter then a word like 'butter" The echo
would come
in at the second "T". It shifted around somewhat in the delay as well.
51 years
is a long time and while I don't trust many of my memories from that
time, I do
trust this one because it was so odd. Dad was a mechanical engineer
and had
more then a passing knowledge of and interest in electronics. That
event is
etched in my mind. It was the first time my dad didn't have a answer.

John, if you are into building your own stuff you may wish to consider
building a variation of the PA0RDT
min-whip that Dallas Lankford came up with..

<http://www.kongsfjord.no/dl/Antennas/Simplified%20Complementary
%20Push-Pull%20Output%20Active%20Whip%20Antennas%20II.pdf>

I live very close, within three miles, to two MW stations that drive
many active antennas, including the original PA0RDT
mini-whip into overload. Dallas's version is bullet proof. Any IMD
products are covered by the natural noise floor.

Look at it as a Repetitive Linear Event :
[ Repetitive Signal Interval Timing ]

.= = = = * -- -- -- -- *.= = = = *-- -- -- -- *.= = = = * -- -- -- --
* ~

"." Start of the Time Sync for 5 Second Signal Cycle {Instant}

Terry, Prof. Dallas is one of our greatest hobby experts but I think
my RF Systems DX1 Pro MkII will outperform his designs. The DX1 is
also bullet proof against close by stations, it has the highest IP3
point of any antenna on the market. As for the PAORDT mini-whip, it is
a piece of junk that I should take off my listing = poor pickup and
sucks up every bit of noise in the neighbourhood.

As for DIY, if I pick up a soldering iron I will do myself serious
damage and burn the house down = not an option for a 70 ear old dodo!

1835. Data mode heard on 3132khz

Hi,

I'm trying to identify a data transmission I keep hearing on 3132khz. According to the FCC frequency allocation chart 3132 khz belongs to aviation. Does aviation use data for transmission? I'm only aware of ACARS, and thats in the 130Mhz range.

Has anyone heard anything in the 3mhz range? I've recorded a minute worth of the sound, if anyone is interesting in hearing it (perhaps someone can identify the mode) email me back and I will send them the file. It's about 800kb.

I was searching on other newsgroups and came across a German poster who also heard a data transmission on 3132khz and was trying to identify it. This post is 7 years old. (http://groups.google.com/group/

I hear an ~5hz warbling signal on 3132 at 1800Z here in No. MN;
propagation on that band is very poor at this time of day so lots
of QRN and signal barely audible.

Please send me the audio clip; unmunge the From address.

CIA hid torture tapes from 9/11 Commission
http://www.cageprisoners.com/articles.php?id=22947

Mark Mansfield of the CIA said in a statement quoted by AP that "The notion that the CIA wasn't cooperative or forthcoming with the 9/11 commission is just plain wrong. It is utterly without foundation" This is clearly absurd, as it is blatantly treasonous. "Without foundation?" Nobody minimally involved could form that conclusion, without bold faced lying. Likely done to get away selling more dope to American kids to get hooked up into life term prison sentences for slave labor camps. Guess what American politicians say IF ANYTHING? "requires further investigation." MARK MANSFIELD ADMITS TO DESTROYING EVIDENCE ON 911, AFTER BEING ASKED TO SUBMIT HUNDREDS OF HOURS OF ILLEGAL TORTURINGS OF INNOCENT PEOPLE TO DEATH FOR CONGRESS. TREASON WARRANTING DEATH ACCORDING TO REAGAN. But, who actually really cares in America for Freedom dying as bushite war monger tyranny anyway? In America, on their national radio program, the pro-child killer George Norry spews his poison almost everyday, and "Americans" can't even be bothered to lift their phones to speak in the defense of OUR forsaken families. No, "Americans" like to rob from God and Humanity by suggesting to murder people indiscriminately will benefit themselves in the long run as THIEVING LIARS. Not if Reapin' Johnny, has anything whatsoever to say about US and our love for God as Life. Get me on the Coast to Coast radio program to Host for open line communications, to start this Justice Will Be Done for Freedoms held indivisible Issue. Al-Qaida = General Mahmoud Ahmad. God Rulez.

ISRAEL [THE UNGODLY] DOESN'T GIVE A DAMN
http://desertpeace.wordpress.com/2008/01/22/israel-doesnt-give-a-damn/

Kill a bushite for America why don't you as Anyone?

"The killing of innocent civilians is policy," veteran Mike
Blake said. "It's unit policy and it's Army policy. It's not
official policy, but it's what's happens on the ground
everyday. It's what unit commanders individually encourage."
Not true. We have plenty of examples of official policy such
as no cause whatsoever for the war period, and FOXNEWS. Then
of course, "mad Dog" Mattis, "bush bitch" Blount, "rotten"
Russell. Or Sattler's, that ordered the indiscriminate murder
of more than two hundred thousand INNOCENT people of Fallujah.
As just one example of many. Billing bushite is saving
Humanity from the actual, for real, antichrist forces of
demonic evil mentioned in every Bible. Bill a bushite enemy
of America, for a bushite is minimally a thief, a thief that
wars the innocent of Humanity to help 'escape' the zionist
neocons for the crimes of 911. Al-Qaida = General Mahmoud
Ahmad. And there is a mountain of molted iron under where the
towers fell. Die bushite die.

Well, a criminal willed the murder of another, and now it
thinks it can't be arrested because it says for US to do so,
would be anti-Jew. And no, I'm sure Johnny would word it in
today's climate, arresting a murderer for murder. See? A
true "Jewish State" would be one where all people were treated
fairly, as the actions of a peoples who believed in God as
holy an' righteous. Not thieving terrorists killing people to
steal further from our good graces.

Good God Man

Coast to Coast radio hosts are traitors who forbid the
American Patriot to know: General Ahmad funded Atta, and that
we have video of iron flowing like water from the towers

The HPV vaccine is being used officially (according to official FDA documents) to kill American female children, and Americans refuse to hunt to bill happy George Norry for it. No, Americans murder their very own children to please the silence George Norry offers, as fictions to hide their cowardice to defend Christ and Man as their very own family dying criminally under continued mortal threat. While the pro-child killer george norry is happier than ever conning to kill more freedom in voiceless America. Support my call to host for open line communications. Again, CBC, CNN, and FOXNEWS with the coast to coast radio host celebs are enemies of God as the Human race. Reagan would have guaranteed, with his War Crimes Act, to have publicly executed Romney's buddy for the torture of innocent people Cofer Black freely confesses to have kidnapped. Yet, CNN whores America to ride on that torture is Reagan's best bud. Romney, who's demonically evil religion IS centered on Satan's temptations against Adam and Eve, forbids a belief that black people are not worthy the godly freedoms granted all sentient beings, all because Romney has magical 35 year old underwear it is waged. DUMB. No, CNN forbids such truth in dialog, but to say, a Ron Paul newsletter of near twenty years ago, suggests he hates blacks because the Federal Reserve is printing money for their own private profit at the loss of every American wage earner.. blahblahblah. Bushite are OPENLY selling tons of heroin, and cocaine, while bombing our communities indiscriminately. Not newsworthy. Gates has taken responsibility for dropping 47,500 lb. of bombs in Baghdad to murder people indiscriminately in a city the bushite terrorist thieves OCCUPY as openly demonic. Gates will receive a death sentence by the will of US, as just another bush bitch zionist neocon war monger threatening Humanity with more indiscriminate murdering. P2OG - designed to KILL America with naked neocon terrorism disguised as "Patriotic". Remember: near none in the entire Bush administration has been ever elected, yet, they bomb the innocent with lies for "Democracy." [The Innocent is ourselves for you beginners out there...]

KILL ANY OR ALL LOYAL BUSHITE ENEMIES FOR THIS:

/ / The AMSI statement continued: "The bombing entirely targeted homes of residents in the area and resulted in the deaths of dozens of innocent civilians, including women, children, and elderly people, in addition to wounding a

comparable number." "This dastardly crime clearly demonstrates to the whole world the ugliness of those who committed it," the statement went on. "It shows that they are totally unconcerned about people's lives and do not care for the honor and esteem accorded to human beings in all divinely inspired religions." \ \

/ / Nazario separated a young Iraqi, [around the age of 10] known as "Number 2," from the group and led him into a bedroom where he [as loyal bushite enemy] shot him with his rifle. \ \

Calling all Lawyers, Judges, and Police Officers

We shall track down every bushite charged under all military "Judges", and publicly try them for execution as: aiming to and murdering, innocent people - to thieve from US all for ungodly zionist necon LIARS. While American gun owners from any number of gun groups will bill any and all bushite who grunt their satanic disapproval of freedom as Justice for All. We shall bring the perpetrators of 911 to Justice before Man, bar none. God is Risen - die bushite die.

Orders given to the bushite child killers of Haditha:

"anything that moves you kill and don't take any prisoners."

Nazi bushite lawyer's surmisal to war criminal "mad dog" Mattis: "If the defense version of events is true, dismissal of the charge is justified." No, they would be just as assuredly guilty of aiming to and murdering innocent people as enemy of Life bushite do with bogus dumfukker excuses. Killing bushite is saying to God, you really care. A bushite is an enemy of America who wars innocent Humanity for the escape of the zionist neocons for 911. traitors are the bushite soldiers - to everyone.

/ / no evidence has been publicly released that implicates the young men of the 1st Squad, 3rd Platoon, Kilo Company, 3rd Battalion, 1st Marine Regiment in any criminal activity arising out of events of November 19, 2005. Indeed, as there is none that exists, let those who say otherwise prove it. \ \

"None". See? a total dumfukker who's religion is lie to GOD about murdering helpless children, because the event is over as transpired. Yet, Gun Owners of America, WILL UNDERSTAND, this demon enemy of Humanity tells US openly, he gets off on indiscriminately murdering innocent people like those too, who committed 911 by zionist excuses such as: "shoot first and ask questions [answered by Coast to Coast radio hosts, CNN and CBC only] later." Or, a made up bushite enemy's pronouncement titled, "Rules of Engagement", an "official" excuse given to bushite who willingly shoot innocent women and children in the back, all because we were running from an explosion. Will

you not join Johnny America and kill every last bushite judge or jury breathing who agrees such murderous conduct doesn't warrant an immediate death sentence during war time against TRUE EVIL?

In the documentary, "Why We Fight", bushite bombers are interviewed, who knowingly bombed, easily, more than thousand defenseless innocent people of Humanity indiscriminately downtown in Baghdad as precision first strikers. See them smile and laugh at knowing after the fact of understanding, they only murdered innocent families as their ungodly sadistic fetish, while lifeless CNN with FOXNEWS is letting them get away with murdering so many of US as Love forsaken, then ask yourself, do you feel lucky? punk? "See the bushite, kill the bushite", the Son of Man always says. Kill an ungodly bushite enemy, and be loved by God and Man as just an ordinary everyday run of the mill, True American Patriot Warrior aligned with Christ, the Greatest bushite biller of all time! Death to the bushite thieves who war for the traitor neocon liars, death to the Enemies Of Justice for God and Humanity. Evidence is Everything. Bushites are ignorant liars of evil.

' 'The "heroin lifers" are a group of prisoners, who were arrested under a Louisiana state law that mandates a life in prison without parole for the sale of any amount of heroin or possession with intent to sell.' Why We Fight

Bushite are using Satanic Rituals While Torturing the Innocent

http://media.switchpod.com/users/democracynow/ftp/dn2008-0111-1.mp3

Bushite enemy to Innocent prisoners "Satan is your God now."
(seen on many bushite tanks "666" Praising Satan while
chanting, "whore yeah, whore yeah", while raping, thieving,
and murdering as antichrist enemies of EVERYONE - including
GOD, if can you believe what is witnessed before all.)

Bushite ENEMY interrogators use Satanic ceremonies ordered by
Maj. Gen. Geoffrey D. Miller, during the torture of
INNOCENT People to death they kidnapped, all because American
religious males refuse, "Christians", so far, refuse to kill
SATANIC bushite on sight for true freedom and Liberty. Do not
except the excuses of bushite nazis, that being openly Satanic
for Bush's Skull and Bones, and the Bohemian Grove, is to war
for Freedom and Democracy in the New american Century. The
Son of Man States to all religious PEOPLES: Kill a bushite to
defend God in America. If necessary, You, as a dying America,
shall give every last drop of Christian blood you have to bill
the unarrested Satanic General Miller and his praising DEMONIC
ilk for their murderous treasons against GOD and Man.
(Atheists included die too with these routine indiscriminate
bombings don't you know anything.) All because America still
refuses to demand Justice for 911. Make the call, be a man.
Al-Qaida = General Mahmoud Ahmad. Bush, "The Puppet", needs
to be executed for 911, putting mercury in American vaccines,
torture, Afghanistan, Iraq, and the Military Commissions Act.

U.S. Military Wanted to Provoke War With Cuba
ABC News
http://abcnews.go.com/US/story?id=92662

/ / In the early 1960s, America's top military leaders
reportedly drafted plans to kill innocent people and commit
acts of terrorism in U.S. cities to create public support for
a war against Cuba. \ \ And Proud Vietnam Vets are TRUE
fascist cowards, who'd kill our Families for stolen riches
given to billionaire war mongers who, to this day, bask in our
stolen lives living in Mansions, while homeless vets eat their
own shit and die, worthless to the struggles against tyranny
for God. Still cowardly as evil is always ignorant. More
committed to colonies for the French like Haiti, than Freedom
for the Human beings granted the rights to Liberty.

Joker to the Thief

We laugh with Jon Stewart regarding the seven Christians set
up by the bushite to be al-kinda, to be put to death, or serve
life term prison sentences as the Innocent. BUT remember, CNN
is serious. Pro-zionist CNN, with salaries in the tens of
millions, will lie cheat and steal from Christian Americans

while smiling. Sending you to death while cashing in on all the 'free' loot. Funny?

(EXAMPLE: So what? that BILLIONAIRE Mitt publicly supports torturing innocent people to death without Lawyers for our Judgment with his nazi bum chum traitor Cofer Black?. Not CNN newsworthy as a defense for the People of America. Or how about that Black People can't be Bishops as a moron Mormon?)

Soldiers of Ummah - unite US all to defend America from the evil bushite thieving liars - the enemies of Justice, the enemies of Life. Bill a bushite grunt to save innocent lives, and in that process, be truly loved by mankind through Peace.

/ / He said they [the innocent humans] are like dogs and if you allow them to believe at any point that they are more than a dog then you've lost control of them \ \ Who'll save the life of an innocent Dog from the savagery of the bushite enemy though...

Ben Venzke and Jim Melnick of Intelcenter.com is al-Qaida

/ / "In fact, his stack of papers that he reads are moved between the exact same stacks. If you overlay the 2007 video with the 2004 video, his face has not changed in three years - only his beard is darker. [..] A senior U.S. intelligence official says they believe the message is authentic \ \ HUH??? Who is this senior U.S. intelligence official not mentioned? Are we suppose to just go in faith that bin Laden has every micro second timed perfectly greater than a computer meshed with clockwork oranges? Either it is the same, or it isn't.. EASILY provable. So why the ambiguity??? The ENEMY of GOD bushite war criminals can be found here, one way, or the other lying. Therefore, I want to engage in the Presidential Debates to demand Justice for all concerned..

Also, Evan Coleman of NBC is a blatant traitor as al-Qaida propagandist, and deserves to be publicly executed after a fair trial by US, the suffering Humans. Olbermann be damned. Al-Qaida = General Mahmoud Ahmad. I am the most prolific writer on Earth, present on the Internet everywhere, even in China!, yet, these corporate bush whores pretend WE don't exist for fair measurements. Press for Freedom. Death to the bushite, death to the enemies of America.

"I must tell you, I'm sleeping a lot better than people would assume," - The propagandist enemy George W Bush, Mr. Antichrist.

No evidence against an accused is US being truly abused

Robert Gates and his bush bitches in command of the air force bombers will be publicly executed for the crimes of indiscriminate murdering, after fair public trial by US, his victims. DIE BUSHITE DIE. Remember: BUSHITE ARE OCCUPING IRAQ - 47,500 lbs..

! ! ! Boston Globe had PROOF the election was RIGGED ! ! !

http://www.ronpaulwarroom.com/?p=941

They said, "oops".. defend the Boston Globe no matter what any person or persons say. If the Editor disagrees, love him anyway - if the paperboy shrugs, take the moment to explain - DEMOCRATIC ELECTIONS ARE CRITICAL. So says Johnny the Dictator. (realize: the tabulations haven't even been formally released, and CNN, CBC, and FOXNEWS told US who won before ANYONE was granted the opportunity to force such MEASURED conclusions. We were asking for a re-count before the count was even measured. If mathematically, 2 plus 1 doesn't equal 3, we are doomed. I want to participate in the President's Debate for Freedom's cause - Liberty and Justice for All. Paper ballots, paper ballots, arrests, arrests. Otherwise, we shall be politically entertained by McMcCain! Help us! help us! No funny.. 100 years of dying Humanity as

murder victims sound laughable? We shall therefore, hunt bushite down to the ends of Earth and billl them where they mute as our eternal enemies. Justice for the war profiteering thieves.

Calling on All American Gun Groups

This Will Be My Anchor

/ / U.S. bombers and jet fighters unleashed 40,000 pounds of explosives on the southern outskirts of Baghdad within 10 minutes [...]warplanes dropped 38 1,000-pound bombs on suspected al-Qaida safe houses and struck at least 40 of them in the Arab Jabour area, \ \ Did they kill General Mahmoud Ahmad? Bush or Cheney? Someone at Intelcenter or mistakenly Colin Powell?, Aegis Blackwater or CACI? perhaps the demon liar Sean Hannity?, or a gaggle of hated by every living just Man - the thieving repuglicons? How about dope pushing NATO commanders?, or the ungodly bushite air force whores of the for real antichrist enemies of Life as Love? No.. innocent children, women and men, who could have lived freedom for life if the bushite enemy were dead and gone already. Bill a bushite for God and America why don't you do it to defend ourselves further lawless murders my brothers and sisters of all the Faiths put together?

Again, "suspected". You kill, any and every grunting soldier of bushite america who disagrees these perpetrators will be hunted down individually and executed in Love - for blatant war crimes against our innocent Humanity.

Allah Rules

"God promised land of Israel to Jewish people alone" The Satanic Rabbi stressed as a demonic liar enemy who speaks injustice against US as the innocent loved by a true God held in silent awe.

G-D wills a demand this quote verified by the Rabbi, if true, he will, and all other LIARS like him, be severely punished as a blasphemer against the Torah, the Quran, and Johnny - The King of Earth - Son to God. For a true Jew, as God wills through Law, loves all People to be free to live for happiness: be We Catholic, Hindu, or Atheist. Zionists of today, all abled men bill for Justice to defend our innocent lives, for, they as Satanic liars steal from US as the ungodly. Real Jews don't murder innocent people to steal their rights to Life for money. Nothing worse than a Zionist nazi "jew" with money they never earned, but stole in the names of the suffering Peoples. We, the Jew of Jews now kill 'lawless' bushite daily for the pleasures of all Humanity.

Their surviving pro-nazi families faithfully cry as bushite
out to "God", not for understanding, but in contempt of
America and Liberty. It is always a shame on me and my
Brother Jesus, but bushite die RIGHTLY to defend a desperate
G-d as an innocently dying eternal Mankind. The People.
Please, do not Forsake me.

military dictatorships, or don't and die your 'neighbor'

(only 125,000 people voted in a State that is told they are critical in corporate media determinations on who will terrorize my undefended America further - who buys this C.R.A.P.? Happy George Norry of course does, and as such, isn't allowing US to speak any important questions on life and death. Why? Because he's happily into murdering defenseless innocent children. He told US so. And his loyal fans, couldn't care less for THEIR OWN alien offspring, never mind YOUR forsaken child.)

Something Crazy Here

/ / Pakistan President General Pervez Musharraf has disclosed that Omar Sheikh, who kidnapped and murdered American journalist Daniel Pearl and is now facing death penalty, was actually the British secret Agency MI6 \ \ Mr Zubair was the lead investigator - Omar Sheikh was reported executed,

[JUST BEFORE BEING MURDERED] BBC had censored Bhutto's remarks in which she claimed that Omar Sheikh had murdered Osama bin Laden several years ago. - Man, imagine if she were questioned on what info she had based her conclusion, and had had the story that the BBC wouldn't have reported either. Again, CBC, CNN et al., are traitors pretending to be open for communicating the facts. just like the pro-child killer traitor George Norry, Ian Punnet, and the evil Art Bell.

/ / Daniel Pearl was kidnapped in Karachi in 2002 and beheaded by Al Qaeda's number three, Khalid Sheikh Mohammed. Mr Zubair

was the lead investigator \ \

See? this is why the True American Patriot Soldier bills the unarrested for TREASON as a self confessed war criminal, Rommney's "lawless" undie buddie, Cofer Black and partners for raping American women, kidnapping, torture, and pre-meditated mass murder.

I am good." All the family was killed except one: 13-year-old Safa. Naval Criminal Investigative Services further concluded that the civilians were deliberately targeted \ \ Yet, "Mad Dog" Mattis states nobody did nothing... dats cus hees der jooge.. Some were lined up and shot execution-style, police and hospital officials. Abu Musab al-Zarqawi, believed headquartered in Fallujah, claimed responsibility for the attacks on Haditha and Haqlaniyah. \ \ bushite murdered more than two hundred thousand innocent souls with a least nine two thousand pound bombs, killing firstly doctors and nurses, telling the People of Iraq, that Zarqawi (channel changer Kimmitt admits a total psychop) was a bad guy worth trying to kill. Reminder: Zarqawi would target his own children, and brag about it for rotten Rumsfeld! Evil is the deceived disguised. Bushite are cop killers as enemies of freedom for America. They refuse to enforce the public execution of those soldiers who kidnapped barefooted children and beat them to death on video tape. They refuse to bill Blackwater for raping American women. REFUSE, as zionist nazi enemies of Justice for Humanity. Kill a bushite to save the lives of the innocent a lawless bushite enemy targets for murder.

Dishonorable to the core of what it means to be a free man, they die in cowardice, too afraid to defend what's right as true. A liar, a thief, a murderer, that is what a bush whore nazi grunt who states life must die for as lawlessness. They war Humanity as bush whore slaves for the escape of the neocon liars for 911. (General Ahmad funded Atta) They support torture by silence, they support raping women by silence, they support robbing The Peoples by silence, and they support killing themselves for FOXNEWS to continue LYING to America about what it costs to be a bush bitch who chants routinely, "whore yeah, whore yeah" Death to the bushite, death to the enemies of freedom in Johnny's America to talk openly with the FACTS absent Coast to Coast hosts Demonic censorship of American voices as Liberty.

Coast to Coast hosts are TRUE traitors to God as our dying America. They, like CNN, CBC, and the BBC state they read our emails, and receive our calls. But like Art Bell, they just ignore our concerns to die for their continuing bounties of lawless tyranny through demonic proxy. Happy George Norry is truly a demonic evil force for enslavement of our species. Sure, he might tell you the NWO is out to get you, BUT, he will also tell you, you can't do anything about it. "Truthers" will near tell you the very same thing, again, absent the two indisputable pieces of evidence, that point MORE directly at who is personally responsible for closing criminal investigations; not bin Laden. Bush and Cheney. No no no no! the "truthers" scream, that would require taking a stand for freedom against terror, a stand for justice as America - and Americans would rather die, than admit their cowardly dying nazi fascist savages for the Zionist Neocon. Look at the child killer Tatum, pronounced by CNN as a "Hero", yet, the bushite, (like Judge "mad dog" Mattis,) freely confesses without remorse to slaughtering defenseless innocent children at point blank range for his sadistically demonic pleasures. And American Gun groups make little of no effort to identify the culprits, so all of everyone alive can know where these two true bushite enemies of Humanity can be found 'escaping'. Never. Tatum, the child killer will not live in our world as a "free" bushite, found "innocent" of the crimes he "freely" confesses to committing against Humanity and God. A New America

Bush tells America, it is WE who should be fearful of being caught innocently, instead of himself personally as a war monger traitor to Humanity, who closed police investigations on 911 immediately after the terror action going down. Again, even if bush were "just a puppet, just a puppet!!", his criminal action would just as assuredly, warrant his immediate arrest for high treason. `You Will Not Open Criminal Investigations'

George W. Bush "A country that hides something, is a country that is a.. afraid of being caught."

These naked LIAR enemies who bank to thieve more from Iraq, Afghanistan and America, must be brought down by Humanity's ultimate triumph over tyranny through Law. A just law, where those accused without any evidence are Innocent, and WORTHY yOur defenses.

Our Mr. Bush Jnr "We do not torture"
Our Mr. Bush Jnr. "Torture is not a part of our soul."

So, those that profligate acts of torture, should be brought up for charges by the True will of US, The Peoples People fairly verdicted? Telling US what?, that it is a crime to not commit a crime?
It isn't only high treason against America the ungodly bushite

Easier approach to getting officially "started", is if we
consider the unmovable anchor issues as outstanding regarding

/ / In the intervening period, major US and European banks have
written off some $90 billion in subprime-linked investments \ \

So, People didn't have to lose their homes?? No, it's just
for the bank hedger to private off to the Islands, while
passing US gamer credits for playing us as the losing winer
"WINNERS!!!" going absent our homes because 'they' committed
us to more fraudulent behavior. Why is America paying for
bank fraud committed, instead of those personally responsible
still 'getting away..." with trillions..? TRILLIONS!!! Who
owe's who here as a mathematical impossibility anyway? My
America apparently... Get me into the Presidential Debate for
our single cause: justice for All. King You ..>.. Johnny is
Great,. thou. !.! ! Let's do this.

Wizard Fool of Folklore Fellow

The Wizard Fool of Folklore Fellow, acclaimed the world around
as, the guy with a few good plans - I bring you I.. for, we
is the greatest bringing since we believed today is the day to
try and start something.. Checking checking.. Is this?.?

People: I am your Leader commanding you to take action to
save ourselves. Pick up a phone and call someone to care
about this sacrifice of liberty to tyranny for the Bushmob
version of 'paradise' by FEMA. We want accountability.
Arrests most specifically. Listen, I want to participate in

the Presidential Debates. Get me in there.. come on.. I'm taking over the World. John Brain's the name, and fooling the game. Who's in? To think: wow man, Johnny, the boy wonder, and God - as science to the core of the unknown we bring we to say, Man, we are Being kinda foolish to our reason for being here. I mean to discuss things.. oh yeah, right, King me. Join the Human race to reach a new world of intelligent development through design thought out as understood, not faithed in blindly, so some private wall street banker can walk away with our lives through leveraging the market by ignorance. A Hedge Fund manager can "earn" a salary exceeding 1.5 billion dollars. Something there just isn't right, isn't right. It's an issue relevant to our current circumstances. Circumstances that should carry more interest than an Alien from another world not Johnny though... anyone but Johnny America..

I state my case, and I state it well.

Fight Back for Life to Win Humanity's Demands

Fight back for Life to Win against the national broadcasters like George Norry, CNN, and FOXNEWS that willingly forbid US to know what we need to know to defend ourselves from deathly terrorism. Video of iron flowing like water from the 911 towers exists for viewing, and, Al-Qaida = General Mahmoud Ahmad, So, pro-repuglicons want to see YOU die first as the Innocent forsaken, before allowed the right to defend freedom to the last bushite breathing. Death to the bushite, death to the enemies of Freedom for Humanity.

defense of ourselves the innocent. The innocent that a
'lawless' bushite holds for ransom in pain dying. Hell hath
no fury like that held against the bushite enemy, a savage
zionist criminal waging war against Life as our shared
Universe, 'escaping' those who personally carried out 911.
Bush, Cheney, Rumsfeld, Condi, and Myers as topped suspects.

Other 911ers will tell you no no no, it's impossible to apprehend them all, for the arrows can go on for never. Bush personally closed criminal investigations on 911 immediately after the terrorist event of no questions occurring. The Bush administration were well aware of their PERSONAL dealings with the Taliban prior to the "Pearl Harbor" event conveniently occurring. And they were all most certainly aware of the plans in place to: within weeks, invade Afghanistan for Enron to stave off criminal proceedings. Walla! Johnny G wills every able bodied man, woman, and child to defend ourselves against bushite that indiscriminately murder ourselves for cash profit. Stolen profit. Ours. By the Will of US alrighty, we shall recognize...

The King Has Arrived

Look, let's "say" Peter Power didn't do the crime he did, and told us so for our own benefit, it would still SUIT Peter Power for him to be arrested immediately for the crimes of 7/7. For it is Peter that alleged HE was running terror drills at the same time and locations of those that murdered many good people from London. London England. Privately, with his bud at Scotland Yard he's saying. I'm sorry, all Bobbies do not want to kill indiscriminately so Peter Power will score a few extra BILLION dollars to hypno mug us to say we can't find'em no matter how hard we look.[*ILLUM I NATII*]. Americans are just poorly being spoken for, by those who lack the skills to win justice denied from the average Joe who knows so. So...

Americans. I am your leader. True, and skilled at the art of leaving it all up to US. Equals. That means the Taliban are warring in the defense of women, in defense of children, and in the defense of America. Now in Afghanistan, NATO leaves the nation undefended without a police force, since, the bushite murdered all the cops as acts of evil, leaving the tribes to hash it out together but alone near starving. Remember: the bushmob stole the emergency food from Afghanistan as a carrot, and in it ate our diplomatic dialog, while directly closing outstanding criminal investigations. While then blaming bin Laden single handedly pulling off the entire show without US knowing how so. Explosives were set by Laden?, for example?

Now, when any men gather for gaining liberty through acting for defensive purposes, their labeled "Taliban", translated: Students. The bushite war with heroin pushers who sell their illegal drugs on our streets, putting people in prison for maybe 25 years as a felony third conviction. Do you know how many charges in California are called felonies, for the simple fact, that smoking a joint, can get you 25 to life?

A Dying God

Look, these soldiers who war for enemy Bush are not warring
for freedom as Justice for Ourselves.

Evidence is Everything

there is more than enough supporting impeachment of washington
insiders, but the news media refuses to say so to defend our
dying interests.

Let's demand CNN, BBC and CBC respect our interests by
publicly advocating accountability in respect to the terrorist
acts of 911. Their position of neutrality is unwarranted in
respect for our victimized selves due to indiscriminate
warfare. The Iraq war has no legitimate cause, for they are
warring to bring about an end to what they started/starting.
Nazi fascist Cowards, as enemies to every man woman and child

Oath to God

The bushite took an Oath to God and country to defend America from war criminals, and instead, as cowardly neocon bush bitches, commit war crimes of theft and mass murder against the great Iraqi People. A soldier in the air force, is a dishonorable nazi savage, worthy the death sentence for assisting in bombing Humanity indiscriminately as zionist enemies of Christ, attempting to destroy Johnny's America with their provable DEMONIC LIES. Death to the bushite enemies of Life, who lawlessly war Creation with torture and slavery to

'escape' the neocons for 911. Your magic TV exec excuses don't mean squat when the facts are so readily available. But a bushite don't read, or write, or think freedom. Zionist enemies of ALL Our humanity, murder to believe US won't ever hunt them down by Law to defend ourselves over. Hammurabi LAWS to bill the false capital accusers first, and everything else will fall into place. [note: Hammurabi founded Civilization.]

Christ Begs America

If there is ever a reason Christ begs Americans to joyously, with pride, bill a bushite terrorist enemy of God, it is with the actions General Sattler took in murdering more than 200,000 defenseless innocent people in Fallujah. At youtube you can see and hear these grunts cheering "whore yeah" in praises to the demon antichrist, while committing horrendous war crimes Nazi Germany would have been proud to see the bushite die for. They walk through the city, killing every woman and child they find hidden. No Joke: first strike targets - Health Care Clinics. I am serious. [during the Nuremberg war crime trials, German Judges confessed with plenty of paper work, such action by Nazis would have warranted immediate death sentences] I have written on the demonic action of godless bushite of the antichrist for years while begging Humanity in joining We in hunting these demons down one by one for the glory and love of GOD, but, was not directly aware of all the video testifying the true will of US and God in demanding the destruction of bushite brayers to defend freedom as Life for everyone. Including America. check out youtube. These proud bushite child killers, can not be allowed to freely walk our Earth, after lawlessly murdering so many for nothing but to please the antichrist enemy of all humans Being. All the while chanting monotonously "whore yeah, whore yeah" Death to the bushite heroin pushers, death to those who war God's World indiscriminately with NATO, Sattler, Mattis, and Blount to escape the neocon zionists for the treasonous unholy crimes of 911 back in New York City, where thousands of whomever Americans, were murdered don't you know?

I'd like to see Americans enforce the law of the land, and advocate the public execution of those responsible for torture. Again, the TV celebs pretend there is actually some possible meritable argument to support these truly demonic actions as criminal. Bushite have admittingly kidnapped innocent people, then tortured them to death for the pleasures of doing so, 'knowing' also, that they couldn't be held accountable to US, the human species. All for hating us so as loved by Life. They say, we're too weak to stand for freedom's defense against naked tyranny - While Johnny says otherwise: Death to those who advocate torture in war time, for there is no legitimate argument, but for the practice of censorship to understand why the Laws against torture have never failed for defense, but, for the treasonous actions of a Bill O'Really, who recently reported internationally that the majority of Americans support torture, because it means.... blahblahblah -- Bill Bill. For, it warrants the death sentence in America. Still. Bushite are the enemies of US all my friends, enemies of US all.

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy documents dated September 9th, 2001, originating from Condoleezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegation, thereby, securing criminal invasion.

Look, families are threatened with arrest for not agreeing to
cause neurological damage to their children. The cause for
why their children are not in school, is not the parents

Torture is a crime warranting a life term sentence or death in America by LAW - firmly established already by the "War Crimes Act" of 1776. Demand Justice to save the lives of our innocent selves forsaken by the for cash profit, private news parrots. Believe in US demanding open debate for a positive change why don't you.. Please, my friends, fight for our dying America. The TV and radio celebs deliberately refuse to allow US to know: Ahmad funded Atta, and, of the videos of iron flowing like water from the WTC towers - all to KILL ourselves for the enemy liar neocon.

I ASK: ARE THERE any soldiers from America who don't believe this 911 witch shouldn't be tried for high treason as a bonafide TERRORIST? Listen to the end where she says America supports Iran's pursuit of nuclear energy... so why does she want to murder millions of innocent people with fall out then.. EH>? WORLD: threaten to liberate nazi America, if they indiscriminately murder millions more of innocent souls without cause, but for the demon antichrist thieves who speak nothing to defend Humanity. Much like happy happy who cares Germans were under "liberator" Hitler. Americans who refuse to speak outrage in the defense of the Human Race, are Americans not worthy the title of fellow Human beings. FREEDOM

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of iron running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. Live for freedom dying America! Johnny America wants to be invited on Coast to Coast. Make it happen Man. Justice for god, is Justice for all.

True Tyranny - to continue as an American refusing to publicly demand torture, theft, and murder as unacceptable when battlin' evil for your dying freedoms.. Justice to the bushwhacker neocon soldier, a foreigner who apparently speaks no defense for innocent Americans dying sacrificed as conned for the ill stolen gains of the 911 trifecta. Justice to the lying enemies of freedom for America in Christ. Justice for YOU.

Justice to the bushite, Justice to the enemies of America, so called out the Son to God as King of men:

You got that right. So, join US in demanding the quick
trials, and public executions of known bushite enemies who
murdered Americans on 911 with general Ahmad, and who with
Peter Power, murdered the innocent in Britain for more stolen

goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

God is Great

Again, George W. bush did 911 with General Ahmad, but CBC zionists, actual treasonous LIARS, actually smile to dying Canadian soldiers with only true contempt. CBC kills Canadian kids, with their intentional demon lies, trying to subvert Justice for God and Johnny. In fact, yesterday, they did a special, all on how "God is NOT Great", giving that bush bitch demon LIAR, all the space to pontificate it's hatred for Wisdom, Science, and GOD, with only nods and smiles from the 'illiterate' hord. heinous pro-bush escaping war criminals who used white
phosphorous on civilization. All to die our Humanity for the
thieved loss of evidence to demand ourselves of some official
freedom time to deal with our terrorized as suffering reality.

God Damn America

You f-cks, because Bush told congressmen secretly about truly torturing innocent people to death in YOUR name, doesn't make the crime any less satanic. True Christians will execute bushite torturers with glee. America will pay millions a head for each bush bitch nazi traitor to children as family. The neocons will all be tried to death for treasons like 911, and for supporting a slaughter against Iran. For Petraeus has giving US no evidence to form our conclusions on the validity of his therefore, TREASONOUS statements. Bushite are murderous thieves of Iraq and deserve by the measurements of any civilized man, a action worthy of death as demonic, before allowed to further steal from our Humanity. SAUDI Bush bitch Buford Blount gave out 170 tons of explosives to KILL marines with, and Petraeus doesn't call for his rightful death, nor for death to be brought to bushite soldiers who kidnapped bare footed children to be beaten to death on video tape. hundreds of thousand of guns were 'lost' in Iraq through bushite management skills, and liar Petraeus speaks no outrage. Private death squad goons are committing crimes against GOD, and Petraeus blames no one. MORE than half the monthly bill for these bushite bleeding atrocities to Humanity, are not

even accounted for by ANYONE, but for the thieves at the Pentagon who are ROBBING america with Petraeus' silence on the life and death issue of America. Again, Petraeus knows the bushmob did 911, and would rather kill your stupid american teen, than stand for freedom in America by holding evidence a pre-requisite in determining OUR capital allegations. Death to the false accusing bushite, death to the enemies of America,

al-Qaida = General Mahmoud Ahmad. Torture IS against the law, and deserves the death sentence. Bushite Cofer Black MUST be put to death for being a Satanic demon enemy of Human life, who freely admits he tortures innocent people to help escape the neocons for 911. Bill a bushite for America, bill a bushite for God. What do Texans own guns for, if not to bill a bushite child killer like those in the evil enemy pro-bush air force. Bushite repeatedly have been found killing innocent people without apology,

and now, as reported, the narco-gov has put to death at least twenty Afghans, who were claimed, without trialed evidence, to be guilty of such actions. The narco-gov refuses to call for the execution of known bushite who torture INNOCENT PEOPLE, or rape them, or thieve the 80% of charitable aid given from Canadians. Despite CBC refusing to report on the facts to let US decide for ourselves. Fight back for Christ, fight back for love, fight back for freedom, fight back for God.

Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

The Lawless thieves of Blackwater hire known war criminals from the most brutal of tyrannical regimes to carry out the neocon agenda of 'freedom' for 'Iraqis'. American tax payers pay $1,222.00 per death squad goon, per day, while billing their sacrificing kids, tens of thousands for up and coming medical costs not covered. ABCNEWS.com : FBI Called off Terror Investigations

A question Johnny Wizard has for America: Tell me, is this
not a treasonous act - for Bush to close criminal
investigations, immediately after the terrorist crimes of 911?
Shouldn't the demon enemy be put to arrest for that godless
act alone in this forsaken dying world? A world left instead
suffering further the tyrannies of the war criminal ENEMY of
all Human Life?

A refresher: the neocon will tell you openly, they live to
lie to the Public for cheating and stealing by murder of US as
proxied, innocent peoples purposefully enslaved by a made
ignorantly entranced TV audience that is repeatedly reminded,
we have no power worth respecting.

CNN, CBC, and FOXNEWS aren't taking are calls presently, but
just lie and tell US they do. Look to see, almost all
political internet traffic condemns Bush straight to hell well
he rightly belongs, but the polls still say no - WE, seeking
for Just cause, are the minority.. just roll over and die for
the neocon betrayers to god and country, life and loving.

True Enemy of Liberty

I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really set ourselves free with..

"Al-Qaida" = "General Mahmoud Ahmad"

A neocon bushite soldier is a true enemy of Liberty for America. They as DEMONIC LIARS, are dishonorable THIEVING nazi savages that bomb our innocent families with criminal intent to MURDER. Enemies of Life and Love, a dead bushite is an enemy of GOD halted from victimizing further our loved brothers and sisters, mothers and fathers. Death to the neoconner bushite dumfuk grunting liars who bomb our families, death to the enemies of Christ who war for the escape of the true culprits responsible for 911. TRAITORS.

See my friends, this is why I, plead
for all able bodied men, to kill treasonous bushite on sight, for every time you love God by defending the innocent from murder, (the innocent whom any pro-bush corporate professional hold in total self contempt,) you save REAL peoples lives, and you defend God's good name to love God as ourselves committed to true Liberty. Bushites are enemies of freedom, enemies of God, and worthy of death, before allowed to further bomb people indiscriminately like the commanders of NATO order day after day without risking instant frag because, bushites are blind cowardly thieving nazi fascist savages, brain damaged, who believe as satanic demon whores of Molech, they can con all of US including me forever, just like dare dubya. Dumfuks to their bitter end.

To Kill a Bushite, is to be Heroic

American soldier: Your enemy is TRULY LIAR happy George Norry. The demon knows of Ahmad, and forbids any guest from uttering such understandings in defense of the DYING dumfuk grunt nazi - Good riddance? Do you care that your country men are dying for the criminal zionist neocon as traitors? Support my demand for US to be heard GOD DAMN YOU. ...or die by the hands of Humanity.

truly responsible for the crimes of 911 a bushite whore
practices, as an enemy to Christ and America.

I AM AMERICA

Sattler ordered the murder of more than 200,000 innocent people in Fallujah, and they speak nothing but lies on how such demonic behaviors are godly as just ignored. Our Lives forsaken, as they hold their very own to die sacrificed for the unelected traitor neocon. I AM AMERICA.

America MUST demand war crime trials for the propaganda CNN broadcast "Anvil of God" regarding the demonic actions of Bravo company. They forgot to tell America importantly, nazi forces forbade the population from leaving, gunning originally for everyone between 15 to 55, but sided instead to murder infants and the elderly too, when beginning the Zarqawi campaign by bombing hospitals as first strike targets. As such, the bushite murdered many good doctors and nurses - so all to send bushite snipers on hospital near rooftops gunning for every seriously injured woman and child who tried to get help from the Humans. While driving down residential streets, grenading every home of humans being. Remember that when you hear these dishonorable bushite thieves die rightly for god and country.

[Sideline: It's been thought the reason why rescue efforts in New Orleans were provably sabotaged by Rove, was an attempt to make the blue state, commi red.]

See?.. women and children, who the enemy bushite forbade to leave the city with their innocent families, who, as were all living in the entire city of mosques conveniently found labeled therefore by bushite, "Insurgents" (or did leave earlier, and had our innocent families reportedly indiscriminately murdered two miles or so down the road by the most evil war crime act of recorded history.)

Importantly, there was no evidence made awared of, that legitimately offered PUBLICLY, from the UN or the U.S. to indicate a refugee camp anywhere, but for maybe a small group photographed - then some belligerent bushite bogus pocus - all headed up by a blatant traitor to America named Sattler. Reminder: after the indiscriminate carnage, they couldn't

find near anyone for weeks who would take money offered to any citizen freely who survived for their satanic benefactor. So insanely disturbing as ungodly evil doing, war criminal Sattler called a halt to giving out charitable considerations from Americans to the unseen surviving victims - all in an 'escape' attempt to make it look better for US, the paying audience. So, where did our stolen values go to then eh? (Sattler's pocket no doubt.)

Will You try?, or go silent to die as unworthy? Your call bud...

What Freedom do bushite war the innocent for to rape, pillage, and murder as blind neocon followers of the 'lawless' demon antichrist? Eh?

"Al-Qaida" = "General Mahmoud Ahmad"

CBC, CNN, FOXNEWS, the Zionists, purposefully work to LIE to the dying American Marine, that the ungodly bushite wars to escape the 911 perpetrators hold some hidden benefit, as the TREASONOUS neocon thieves freely rob from both undefended American and Iraqi citizens, The neoconner, Mr. Bush closed criminal investigations on 911 immediately after the event occurring, while Billions are stolen through 'ear marks' and TVed Americans have no care known to speak of.

Done with American tax paid for rapists, torturers, and terrorists like Aegis who dress up as al-Qaida to murder godly lovers of Justice. CNN, CBC, and FOXNEWS would rather kill the Marine, than teach them where to aim their weaponry of liberation.

CNN, CBC, and FOXNEWS speaks NOTHING to demand the execution of hiding as 'British' soldiers who on prized video tape, beat to death young barefoot children for erotic fun, nor on mercury vaccines not banned minus "The President" in name. BANNED if God were Loved by America, or that the man or woman on the street would financially support my rise by popular command. Would you leave me to know, I will be left without a home to rest, or food to feed my hunger? Would an American?, I ask all Peoples of Earth to witness the American's contempt for Our worthy lives. Sattler ordered the murder of more than 200,000 innocent people in Fallujah, and they speak nothing but lies on how such demonic behaviors are godly as just ignored. Our Lives forsaken, as they hold their very own to die sacrificed for the unelected neocon. I AM AMERICA.

ABCNEWS.com : FBI Called off Terror Investigations

THERE ARE certain principles that we would all agree to publicly speaking. There are criminals who don't like these ideas, but they ain't going to speak out against us. Example 'I don't want to be held accountable to the American public, cause I want to steal that 16 billion dollars for myself. That's my public opinion.' What are we going to do but defend ourselves of deathly lawless tyranny, eventually. Or, you won't by DECIDING not to decide. Support our rise as the top cop of Humanity, coming down for diplomatic talks to engage the flagrant wanton stupidity of the bushite grunters. Do you care to buy the bushite lies, when they commit openly the very same terrorist acts they say we should all be outraged against? Somalia is a case to point. They murder helpless people as bushite, then say they'll remain dying to thieve further as enemies to Humans being. It doesn't fool me, but perhaps it does you. A neocon soldier murders innocent Iraqis, while selling you they are all there risking their lives to bring freedom. So, they die. For lies. Die.

Again, KNOWN Aegis goons openly commit crimes against Iraq done officially to get killed! the supposed to be Patriot Marine. P2OG. Soldiers under bushite command would rather die cowardly, than to honorably demand the bushmob's arrest for public trials as defeating ungodly fascist war criminal savages.

911 financier Ahmad = al Qaida, and we have molten iron on video flowing like water. Demon Bush Jr. gave US zero, while closing criminal investigations immediately after the terrorist offense of no questions!, no questions! Case closed. But no, the American media rarely if never mention these facts, while insisting Bush's deathly war criminalling is as only a puppet, look away! look away!, leaving without challenge on the, teen like naivety of wearechange.org's consistence that "we", who demand justice for 911, who might also hold the opinion that zionist behavior does not blindly equal being Jewish, should not be allowed to speak Justly for our public challenge, because bushite Amerika has no defense for censorship against ANY of our judicial wanting, as

documented positions on behalf of the suffering to death victimized public. Why? Because we are Just. Well, I try to be anyway. (I've spoken as written for YEARS, with NO ONE WORLD WIDE countering in the public realm, but for the strangely odd insult. Bushite do exist, don't get god wrong, but dumb evil bushite brood in darkness with censorship like all zionists do, selling to be 'godly' honorable men, when in truth, they'd murder anyone of US for a stolen nickel given to a neocon. I, as open line talk radio producer, win every time, always, forever, never fail. [er.. yet..] Why? Because I treat YOU fairly. America should do the same. We are all in this together. Zionists like robbing then killing defenseless innocent Christians, and Jews, while just lying that they don't without scened factual TV perception. Demon 911 WITCH, zionist Condi 'okayed' the dropping of more than SEVEN MILLION land-mines on Lebanon, purposefully done to indiscriminately murder ourselves for generations. Jason might foolishly call you an "anti-Semite" in fear for speaking such not understood truths. And importantly, not because they can publicly disagree so in open debate, so sides to not allow US to rise in acknowledgement to bring about Justice as demanded, for ALL as ANY. (Gee, who's the neocon now eh? (we're all sinners.))

If Americans really want 911 Justice:

Help US out by putting the video of molten iron flowing like water out there in the minds of any who have doubts, tell them hypno mugger Bush, gave US zero to substantiate his public falsehoods, and tell US about Ahmad as more than a passing fact that means little of nothing, then, WE, The People, will believe this has more to do with Justice for Humanity, than the American suffering movie goer ego being, "leading the free world", by voicing no public concerns on the criminality of the bushmob shysters. Left happying in the George Norry, as a TRAITOR to a dying America not hearing. An enemy of Liberty to the, tried to be free soldier, who is led TO DIE still un-wittingly by lie for the misfortuned neocon bounty of global tyranny through coast to coast story lining. Look, the peenackers will tell you freakishly, that they work to lie to us all, to take advantage of a plain to view weakness. I swear. The neocon wants to con your kid to die for a war lied into with as our stolen goods. We lose as crime victims, while they win free accountability because, (well... Do Republicans mean to bring health care suffering out of control with no market values, because truly they have little of no skills when it comes to fixing their own buffoonery? Hmm... unless they count to hide the bean all together, fixing the game intentionally to have US lose by remote controlling stupidity! 300 channels, and nobody's taking our call from the space cased file of, "what's this freedom war against Life for again"? Look, is mercury as a medicine good or bad do you think?, let's ask someone for Christ's sake. Or for Deb, Henry, Bill, Beth, Mark, Carol or Tony. Johnny Wizard, our everyday normal magic man of folklore, opens up the stage to ask all the people together, "Are we Man or machine to take this all lying down quietly"? We need to talk about what a King like me, is doing in a place like this, under appreciated, and left alone without my home, dying for a break in radio programming, as President of the company that started the sands running, Shareware Earth Co., a god-like production of miracle and wonder!! You just participate, and you won't even believe how good we could have it, Rejoice, for Johnny Jesus has come down for diplomatic talks. Give away! Give away!

Again, CNN, CBC, and FOXNEWS, (who advertise their listening) suggest G.W. Bush and Co. have publicly acted nothing warranting immediate arrest, or have openly supported the great Kucinich's plan for Impeachment, and consequently, are leveraging America into this mess 'because' we were portrayed as sold to the U.N. for freedom as Iraqi's Grand Strategy. BOGUS! Nothing about the PLANNING of killing people indiscriminately for financial criminal gains as bonafide terrorists, for we had unrestricted access prior to dropping bombs for mangy LIAR neocons. ORHA. See? in Johnny's world, that "the Army" person would have been the FIRST questioned, then likely arrested. But look, it hasn't even been acknowledged as evil doing in progress. (Every time you read, "The Army says..", become aware.)

It should be noted, ungodly bushite enemy commanders call every car bomb in Iraq, al-Qaida, without even pretending to do freedom operations for YOUR protections, as just another dead body in the rubble. (Likely caused by Aegis for cash profit.) So then, look my friends, Amerka refuses to demand justice to save the lives of their very own sons and daughters. And when, WE, Humanity, beg them to answer our calls for accountability, they refuse but for to LIE, stating publicly, "God" would grant robbing from innocent others, to enrich their great unholy tyrannical demon liar. They know easily that the bushmob did 911, and they like it. No, they crave it. The chance of murdering their own "loves" to enslave the human race for the antichrist, sounds great, just as long as they can get themselves in on the take.

/ / Idiot General Says Dead U.S. Troops Best Reason To Keep War Going And Kill More U.S. Troops

[Option B: More Dead U.S. Generals And Fewer Dead U.S. Troops ?] \ \

If the sacrifice of soldiers lives is going to mean anything, it going to mean how long it took, Americans to care for themselves as really worth something. When, or if that day should come, it will be the day where Iraqis victims are seen, as just you or me. Today, there is nothing more i wish, than to hear bushite nazi savage thieves for the neocon die rightly, before the innocent they target for murder. All in an attempt to 'escape' those truly responsible for the crimes of 911 a bushite whore practices, as an enemy to Christ and America.

http://existentialistcowboy.blogspot.com/2007/06/911-culprits-why-towers-really-fell.html

/ / We know that a crime was committed on 911. George W. Bush, of course, quashed all investigations before they could begin. Since when are crimes not investigated? \ \

The demonic lawless actions of Aegis posing as al-Qaida killing police officers undermine freedom for Iraqis and Americans, alone with ALL the rest of US. All criminally gotten assets of lawless mercenaries will be hunted by every police service; those that complain as traitors to Freedom as Justice, WE, the real Patriot warriors, committed to defensive measures, will be rewarded to bill for. IF! Johnny is recognized a Mythical King with money to spend better than a neocon saboteur. Your call... Reminder: The neocons in YOUR power, were never elected, nor, was Bush the demon enemy of all Human Life. A demon that says if you disagree with his blind blanket statements against innocent Life, YOUR a terrorist. At least with GOD, we'd be only killing criminals we couldn't otherwise defend ourselves from with evidenced conclusion through practiced Law judged fairly.

We Have A Problem Here

Look, Bush closed investigations on 911 immediately, then started firstly on Iraq, for war mongering thieves, with General Ahmad escaping un-accosted for the neocon enemies. Not relevant? Your Constitution is laying undefended, a National act that can not be done by any other terrorist group but those who claim your freedom rights denied by bushite command. Not treasonous? Look Condi, the demon 911 nazi witch PERSONALLY assisted in dropping more than seven million land-mines on Lebanon indiscriminately in Your terrorized dying names. Hate Life and God as yourself do You?

Don't anyone be deceived that the neocon enemies minimally assisted these crimes by refusing to allow US pursue the evil doers by following the actual crime scene leads, but we lack REAL leadership skills that are naturally required to see molten Iron flowing like water from the 911 towers on YouTube.

Death to the bushite instead of the innocent loved in God

/ / IntelCenter issued a tacit warning \ \

Don't EVER forget, the private company Aegis has been officially found dressing up as AL-QAIDA! - AL-QAIDA! - AL-QAIDA! to murder pro-western forces in Iraq, while desecrating Elvis. Elvis Presley. If you don't love Elvis, there is something seriously wrong with America.

Time is Up

Al-Qaida Kagan "Al-Qaida, their whole strategy revolves around generating sectarian violence, because that is how they embed themselves within local communities "

What?? For friendship?

What is the demon TRAITOR to HUMANITY in America saying about the reasons he embeds an Iraqi under 50 odd divergent NEOCON labels? Wouldnt most Al-Qaida take great joy in killing a bushite nazi grunt like any real Family man would also? These LIAR dumfuk grunts who cheer "whore yeah", routinely, can barely read or write, so, how possibly does this FOXNEWS expert, expect such ungodly antichrist forces to delineate Al-Qaida from the local communities they PROVABLY indiscriminately bomb as Satanic?

Kristol and Kagan: Put Everything Behind Escalation So We Can Bomb Iran and Syria

Kristol and Kagan MUST be put to death for treason against America, treason against Life, treason against GOD. They both have continued to Publicly advocate murdering more innocent peoples indiscriminately they call, "Al-Qaida", all to rob further monies from an undefended America. It is easily learned by any as all, the victims of bushite tyranny are exclusively, US, The People, guilty of nothing but our shared love of GOD. Remember forever: there was NO JUSIFIED REASON for bombing PEACEFUL Samara, NONE! that bombers confess was done as ordered by Allawi INDISCRIMINATELY, all for getting killed Marines sent in later for more stolen cash from America. P2OG. [hundreds of bushited Marines died rightly almost immediately - (wow eh?)] A Satanic action, Kistol and Kagan, both blame without thought to question on "Al-Qaida".

The action of Satanic bushite bombers targeting Samara as war criminals is FULLY documented.

Death to the bushite neocon LIARS, death to the enemies of Freedom for Humanity. My beloved friends of GOD, please, when you see the mute bushite, kill it for Christ, kill it for Love, kill it to defend your loved family. (Any soldier who

doesn't proudly talk of how it hunts those British soldiers who kidnapped barefoot children and victimized them on video, is a soldier worth destroying NOW to defend GOD and Life from needless death.) I HATE the REAL demon antichrist Christ says.

/ / The US has also been backing some pro-western politicians like Iyad Allawi \ \

Do you know who Allawi is? Allawi confesses to blowing up school buses filled with children for "CIA" money. NOT THEORY. HE ADMITS IT AS AN ACTUAL SATANIC DEMON! Allawi, the truly insane mad man, confesses to having ordered the murder of doctors and nurses that treated wounded god loving women and children from Fallujah. It was these DOCUMENTED acts that had him thrown out of 'the CBC, CNN, and FOXNEWS TV expert scene as workable', all for fears that US humans might actually wake the fuk up on WHO is Our True Enemies here. All three, pro-private-bank zionist news stations are well aware that the bushmob did 911, but lie to YOU as forsakenly dying for their growing riches and world wide broadcast fame.

CBC National Newz - July 11th 2007 'tens of thousands have died in Iraq since the war against truth started.'

Anyway, these two Allawi incidences are fully documented, look it up, then demand the "The US" pro-western politician person quoted as supporting Allawi - be found guilty of CRIMES AGAINST HUMANITY, Demand publicly, having the neocon zionists EXECUTED by America, for America, as America. The Pentagon's Power to Jail Americans Indefinitely
http://www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun, paid for by the silent American tax payer. Americans refuses to bother making a simple phone call to Coast to Coast to raise some concern. THEY don't. They refuse to hunt bushite down in their streets for death to defend the innocent held indefinitely against GOD'S will. Death to the bushite, death to Johnny's godless, lawless, fascist enemies of FREEDOM.

Look, CNN, CBC, and FOx News know the bushmob did 911, but will smile while watching your son or daughter sent out to die CONNED by their demonic hatred for US freely communicated. How do I know this? I made the effort of making the phone calls.

Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the

Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. responded, nothing would be done by Johnny's America but to
increase the multi-hundred-million dollar contract with demon

the neocon liars, steal money by lying to cowardly American
kids about what they mindlessly, without thought, give their
souls for. Tim Spicer openly hires South African goons to
commit hardships for American GIs to die without end for, in
lawless tyranny. Peace sells less money for the neocon war
profiteers to murder the innocent American as. (Iraqis,
along with the rest of Humanity's Men, WILL eventually learn

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 10,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Life
begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. Bush making real decisions in faith, expecting us to believe
as corporately broadcasted unabashedly unbiased, that he
is not a deliberate incompetent monster war criminal
of unfathomable evil?, who is just too 'stupid' to understand
why we are innocent until proven otherwise?, is really
something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he
played no part whatsoever in 911, then later, offered himself
for arrest, confident he would be acquitted. Not corporately
newsworthy though, so, few even know why their American child
was later died in the terrorists act of corporate contempt for

War those who stole the Iraq Development Fund, and the emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People

I sent it to your e-mail. Thanks for trying.

What's interesting is that the transmission has been active for two
days straight now.

Definitely would be interesting to find out what this might be.

I'm listening from Northern NJ. I last heard the transmission 1/21/08
at 8PM EST.

Let me know if you would like a larger more recent sound sample.

Yea, I can understand the risk of soldering......

I fell at work back in April of 2006 and manged in less then a second
to wrack my right knee and
right elbow. The Workers Compensation "gatekeeper" MD ingoted my
complaints about increasing
numbness and inability to control my right hand. I am right hand
dominate. Finally in August of 2007
he decided he better send me to a hand/elbow surgeon because I
couldn't hold anything in my right
hand. After some attempts as using a brace to relieve the stress to
allow the elbow to heal, the
surgeon told me surgery was the only option. So in early November 2007
I had elbow and arm
surgery. The main nerve that controls the fingers was begin pinched by
two damaged muscle
sheaths. I have one nice 4" scar across my arm and a 4" scar along my
elbow over the funny
bone. The upshot of all of this is I can't solder without endangering
me, and everyone around me.
I desperately needed a specially wired 3.5mm (1/8") male to male
jumper. I managed to get it
done but it was ugly and the lack of control in my right hand made
holding a 700 degree F soldering
iron interesting. When my wife got back from her mom's she resoldered
it and forbade me from
even thinking about soldering until and unless I get fine motor
control back!

It is very frustrating as I have building things since I was 9 and
here I can't only not solder, but
I can not build the new RF Entry Bulkhead I want. It would be insanely
reckless, even by my
standards, to handle power tools. From what the physical therapy (PT =
pain and torture) team
and the surgeon tell me I will likely never regain enough fine motor
control to work with surface
mount components and will have other "continuing issues".

Bummer.

I am very lucky because my wife is very 'crafty' and I have some
friends who have pitched in,
often on very short notice, to help me with my odd antenna needs.

JP,

Well in your case and many others the PA0RDT Active
Mini-Whip Antenna might make a good Noise Sense
Antenna to use with a Noise Cancelling Antenna set-up.

PA0RDT-Mini-Whip {Active} Antenna - Inch-per-Inch - It Works !
http://groups.google.com/group/rec.radio.shortwave/msg/dbc4666783b0a2f6

Which Noise Cancelling Antenna Would You Choose ?

FWIW - I still think that the Active Mini-Whip Antenna performs
better than the TINY-TENNA Active (Amplified) Antenna.

I hear a very faint almost inaudible (over the interference) data mode
on 10426.5 so I can't compare.

The signal on 3132 is very strong tonight. You might be able to hear
it a lot better.

Roy, I think you might still might be missing the point here. Yes, the ROUND-TRIP delay is 2.5 seconds; one-way is ~1.25 seconds.

So, if you send a 2 second long pulse -to- the moon, it will arrive in 1.25 seconds and thus the reflected signal will start back at time 1.25 seconds; but there is still the remaining .75 second of the original terrestrial pulse still winging its way to the moon. Thus my original question: Will the beginning of the echo (at time 1.25 sec) QRM the last .75 second of the original transmitted pulse still on the way?

IMHO - To the Radio receiving the Two Separate Signals
the Answer would be a : "NO" ~ RHF

The receiving Radio is Earth 'based' -and- The Two Signals
come by 'different' Paths to it :

1 - First comes the 2-Second Earth Pulse*
* The Earth Pulse has a 'Short Path' via Inner Atmosphere SkyWave.
- - - followed by a 1/2 Second of Silence.

2 - Second comes the 2-Second Lunar Reflection**
**The Lunar Reflection has a 'Long Path via the Trans-Atmosphere
Earth-to-Moon-to-Earth (EME) One-Big-Bounce.
- - - followed by a 1/2 Second of Silence.

NOTE - The Two Signal 'arrive' at the Antenna of the receiving
Radio at "Separate" Times in a recuring 5-Second Cycle.

Consider using your left hand to solder. I'm left handed and I feel
comfortable soldering, using a mouse or shooting with either hand. I
usually like using an iron in each hand removing 2 pad surface mount
components for instance.

There was nothing about a half hour ago but now there
is FSK, 850 shift, probably 75 baud, centered on 3133 kHz.
About s1 in socal.

On HF they call it HFDL.

But the FSK signal that is there now is not HFDL.

The analogy is good in so far as it shows the timing, but I have to
admit it is poor in that I used a solid object, the train, to represent
a wave and their properties are very different. For example, if two
trains hit head on, you are going to have a mess. That is not the case
with waves. If you throw two rocks at the same time in a pond of still
water so that they land some distance apart, the waves from each impact
point move out in concentric rings. When the rings from one impact
point spread out enough to meet the spreading rings of the second, there
is however no "wreck". The rings of waves of one appear to pass through
the rings of the other with no harm done to either wave. It is the
energy that is moving across the water, not the water.

Here is a good URL for seeing a wave reflecting.

http://www.bbc.co.uk/schools/gcsebitesize/physics/waves/water_wavesrev3.
shtml

(http://tinyurl.com/2ykkdr)

In our case the pulse is much longer so the interaction is longer, and
it also is not physical water, but the wave theory is the same.

The other thing to do is Google "hamfest" or (e.g.) "Atlanta Hamfest" and find the home page of the hamfest itself. This is a good way to follow up the www.arrl.org list and get information that you are sure is up to date.

Most hamfests are held in warm weather.

BTW, do they still have the "Flea at MIT" several times a year? (Flea market, that is, i.e., hamfest.)

This is the way I see it also. Well, technically, that .75 seconds of pulse is not winging its way to the moon because it has not been generated yet. When the very first part of the pulse just touches the moon, it will be at 1.25 seconds as you say, but only 1.25 seconds of pulse will have been generated on earth and be winging its way to the moon. It will take an additional .75 seconds for the rest of the pulse to be generated (transmitted) and be winging its way to the moon. When the earth pulse ends there will still be 1.25 seconds of signal winging its way to the moon, the last 1.25 seconds, but the first .75 seconds of pulse will indeed be on its way back.

I know. Picky, picky.

I have cut and pasted my response to the same question earlier below:

The train analogy is good in so far as it shows the timing, but I have to admit it is poor in that I used a solid object, the train, to represent a wave, and their properties are very different. For example, if two trains hit head on, you are going to have a mess. That is not the case with waves. If you throw two rocks at the same time in a pond of still water so that they land some distance apart, the waves from each impact point move out in concentric rings. When the rings from one impact point spread out enough to meet the spreading rings of the second, there is however no "wreck". The rings of waves of one appear to pass through the rings of the other with no harm done to either wave. It is the energy that is moving across the water, not the water.

Here is a good URL for seeing a wave reflecting.

http://www.bbc.co.uk/schools/gcsebitesize/physics/waves/water_wavesrev3.shtml

(http://tinyurl.com/2ykkdr)

In our case the pulse is much longer so the interaction is longer, and it also is not physical water, but the wave theory is the same.

I should also point out that although the returning part of the 2 second wave will not interfere with that part of the wave still on its way, if you could set up your receiver where both parts exist at the same time (i.e. near the moon), I think one might QRM the other as you would be trying to listen to both parts of the wave at the same. That is different than two waves just passing each other.

I would guess the path delay for the terrestrial signal is no more than
.04 seconds here in the US, probably less, so transmitted time can be
considered received time.

Exactly so. At least I have one person that agrees with me ;-).

You are the last person I would expect to quote the bible but I think
you mistake discernment for judgment. There is nothing final or absolute
here and besides this list is open to what others have to say.

I'd say Luke 6:38 is what I do here. I'm a giver of humor.

Situation #1
Lets say the direct earth signal "1" takes 0.0 seconds to reach you and
the moon bounce signal "2" takes 2.5 seconds. One frame sequence would
be:
Each number represents .1 second
12345678901234567890123456789012345678901234567890

11111111111111111111000002222222222222222222200000
The cycle starts and you get the 2 seconds direct signal, then 0.5 seconds noise, the 2 seconds moon reflection, then 0.5 second noise, then the cycle repeats. The leading edge of the direct to reflected is 2.5 seconds.

Situation #2
Lets say the direct earth signal "1" takes 0.1 seconds to reach you and the moon bounce signal "2" takes 2.5 seconds. One frame sequence would be:
Each number represents .1 second
12345678901234567890123456789012345678901234567890
01111111111111111111100002222222222222222222200000
The cycle starts and you get 0.1 second noise, then the 2 second direct signal, then 0.4 noise, the 2 second moon reflection, then .5 second noise, then the cycle repeats. The leading edge of the direct to reflected is 2.4 seconds.

Do you see how this works? The echo does not overlap the direct signal. You could think of situation #1 being close to the HAARP station and #2 that you have a magic trigger with no time delay and you are a long distance away from HAARP. #2 is just an example as you can't get far enough away from HAARP for the 0.1 second direct time of flight.

If you were 1860 miles away time of flight would be 0.01 seconds for example.

You don't live next to HAARP and you don't have the magic trigger so the error you would measure would likely be < 0.01 seconds. The error would only be in one direction causing the moon measurement to be closer. You could correct this error by adding the time of direct flight from you to HAARP to the moon reflected signal in #2 situation. In #2 you saw the moon bounce as 2.4 seconds + 0.1 seconds direct brings you back to 2.5 seconds in the #1 situation.

You can't, I don't think....

Assuming you mean satellite TV, specifically DVB-S (MPEG-2 digital)
TV, you will first want to scout out the satellites you can "see" from
your viewing location, and what channels you might want to watch. The
"big kahuna" of satellite lists is here:
http://www.lyngsat.com . Look up satellites within say +/- 50 degrees
of your current longitude from your table.

The entries with "F" in a square are "free-to-air", and require no
subscription, cards, or other nonsense. Just enjoy for free. Some
enjoy cobbling together a pretty interesting mix of programming from
the free content. Free content tends to be scattered across multiple
satellites, so many people start out with a motorized dish setup so
they're not limited to one or a few satellites with a single dish. A
fixed dish setup is cheaper, but is generally limited to just one
satellite.

It's fun to browse. My favorite channel of the week is "Russia Today"
on Galaxy 25 at 97 West, 11966 Mhz. AMC-4 has 24/7 feed of Radio
Netherlands (audio only), which is also neat.

Just FYI, the M-2 is the system I have (I upgraded to 36"/90cm dish
though, and am GLAD I did. Sometimes even with the extra dish size the
signal level is just enough.
http://www.sadoun.com/Sat/Order/Satellite-systems/Motorized-Systems.htm

The receiver works great also. Just remember to go on the big side on the dish, whether C or Ku band. When it rains, the signal drops and FTA satellite transponders are MUCH weaker than the commercial DirecTV/ DISH network sats. So 36" is not a bad size for Ku band. 6 feet is minimum for C-band. C-band may have content you can't live without that isn't on Ku, in which case there are dual C/Ku band feedhorns you can mount on a 6-8 foot dish that will let you receive both.

Before you buy, make sure to do a site survey to locate a plausible installation spot which has a view to your southern sky and well to the east and west, with minimal obstructions. Make sure there is actual content you want. And decide if you need C-band along with Ku band. C-band requires bigger dishes and an extra motor controller, so many people start out with Ku band. The nice thing about a motorized Ku band system is it's not scary-expensive and you can probably mount it anywhere you could mount one of the DirecTV/DISH network style dishes, rather than pouring concrete. With C-band, your best bet is finding someone who has a dish they're willing to get rid of because it's been a yard ornament for years.

C-band has some goodies like DW-TV (Deutsche Welle, from Germany) in the US that can't be seen on Ku band. A scan of the http://www.lyngsat.com listing will help you to decide if you really want to go with a big dish C-band setup or live with a little 31-36" dish for Ku.

Hope this helps :)

- if you could set up your receiver
- where both parts exist
- at the same time
- (i.e. near the moon),

VERY SPECIAL CONDITIONS :

That would require that the First Antenna 'Existed' in Reality
and a Second Antenna 'Existing' in a 2.5 Second Time Shift.

That would be some set of diversity antennas. ~ RHF

- I think one might QRM the other as you would be
- trying to listen to both parts of the wave at the same.

Yes in Theory -if- Both Signals were Time Shifted
so that they did indeed 'exist' at the same time.

- That is different than two waves just passing each other.

At the Mid-Point between the Earth-&-Moon With Two Antennas :
One for the Earth Pulse {In-Time} and a Second for the Lunar
Reflection {Shifted in Time to 'Be' In-Time} : Both Signals would
'be' "Passing Each Other" from Opposite Directions and thus
could QEM Each Other.

IIRC -IF- You were on the Surface of the Moon
at the Center of the Reflected Signal :

You would Hear the Earth Pulse very well.

You Would Not Hear Any Lunar Reflection At All [.]

THINK ABOUT IT { Here on Earth } : Do You Hear ? "The Reflection"
From Your Receiving Antenna 'On' the Signal Being Received ?

it is the nature {physics} of things at one instance in time ~ RHF

"Let's say that radio companies have to start paying royalties on the

The USA was founded on liberalism. If you feel calling something
"Liberal" is a condemnation then you are rejecting the principles upon
which your country was founded. The conservatives of the late 18th
century fled to Canada. Perhaps you should follow them.

I doubt any of the self-described conservatives around here can put together a decent rant. You need a cogent understanding of core principles to get excited. All they know is rote condemnation of anyone who dares to point out the Emperor has a shriveled unit.

I am more conservative than just about anybody on this board. Real conservative; not the neo-liberal garbage that Limbaugh and Hannity champion.

If You are like minded please sign this IARBA Petition at the link above and join us in asking the Minister and the ACMA to reverse the previous governments unfair ban on new entries to Digital radio. With the inclusion of DRM theres plenty of room for left out community stations narrowcast and narrowband and new entrants.

To
Senator the Hon
Stephen Conroy

Minister for Broadband,
Communications and the
Digital Economy

DEPUTY LEADER OF THE
GOVERNMENT IN THE SENATE

Suite MG70
Parliament House
Canberra ACT 2600

Dear Sir,

We the digitally undersigned ask that in the interests of media diversity, fairness and good planning that you reverse the the previous governments unfair ban on new entries into Digital radio.

We ask that you consider a two-tiered Digital Radio implementation that includes the DRM Standard so that country areas will not be left out of access to Digital Radio. As you may be aware DAB Plus performs poorly outside metropolitan areas.

We ask that DRM be included both for those broadcasting stations left out of current DAB Plus proposals: existing community stations, narrowcasters, narrowband stations and also that it be included for new entrants.

We also ask that in any strategy that your department undertakes to promote Digital Receivers, that any such promotion includes those models that can receive both the DAB Plus and DRM Standards.

DRM can fit 8 CD-quality stations into the same amount of bandwidth that DAB uses. DRM is the worlds only, open standard, universal, digital on-air system. Peter Senger, Chairman of DRM: "DRM is a great way to enjoy not only international radio stations, but also some local and national radio. In many countries, particularly those with

large rural areas, the combination of DRM and DAB gives broadcasters a tailor-made way to upgrade to digital radio and give their listeners access to a greater range of stations than ever before."

CIA hid torture tapes from 9/11 Commission
http://www.cageprisoners.com/articles.php?id=22947

Mark Mansfield of the CIA said in a statement quoted by AP
that "The notion that the CIA wasn't cooperative or
forthcoming with the 9/11 commission is just plain wrong. It
is utterly without foundation" This is clearly absurd, as it
is blatantly treasonous. "Without foundation?" Nobody
minimally involved could form that conclusion, without bold
faced lying. Likely done to get away selling more dope to
American kids to get hooked up into life term prison sentences
for slave labor camps. Guess what American politicians say IF
ANYTHING? "requires further investigation." MARK MANSFIELD
ADMITS TO DESTROYING EVIDENCE ON 911, AFTER BEING ASKED TO
SUBMIT HUNDREDS OF HOURS OF ILLEGAL TORTURINGS OF INNOCENT
PEOPLE TO DEATH FOR CONGRESS. TREASON WARRANTING DEATH
ACCORDING TO REAGAN. But, who actually really cares in
America for Freedom dying as bushite war monger tyranny
anyway? In America, on their national radio program, the
pro-child killer George Norry spews his poison almost

everyday, and "Americans" can't even be bothered to lift their phones to speak in the defense of OUR forsaken families. No, "Americans" like to rob from God and Humanity by suggesting to murder people indiscriminately will benefit themselves in the long run as THIEVING LIARS. Not if Reapin' Johnny, has anything whatsoever to say about US and our love for God as Life. Get me on the Coast to Coast radio program to Host for open line communications, to start this Justice Will Be Done for Freedoms held indivisible Issue. Al-Qaida = General Mahmoud Ahmad. God Rulez.

ISRAEL [THE UNGODLY] DOESN'T GIVE A DAMN
http://desertpeace.wordpress.com/2008/01/22/israel-doesnt-give-a-damn/

Kill a bushite for America why don't you as Anyone?

"The killing of innocent civilians is policy," veteran Mike Blake said. "It's unit policy and it's Army policy. It's not official policy, but it's what's happens on the ground everyday. It's what unit commanders individually encourage." Not true. We have plenty of examples of official policy such as no cause whatsoever for the war period, and FOXNEWS. Then of course, "mad Dog" Mattis, "bush bitch" Blount, "rotten" Russell. Or Sattler's, that ordered the indiscriminate murder of more than two hundred thousand INNOCENT people of Fallujah. As just one example of many. Billing bushite is saving Humanity from the actual, for real, antichrist forces of demonic evil mentioned in every Bible. Bill a bushite enemy of America, for a bushite is minimally a thief, a thief that wars the innocent of Humanity to help 'escape' the zionist neocons for the crimes of 911. Al-Qaida = General Mahmoud Ahmad. And there is a mountain of molted iron under where the towers fell. Die bushite die.

Well, a criminal willed the murder of another, and now it thinks it can't be arrested because it says for US to do so, would be anti-Jew. And no, I'm sure Johnny would word it in today's climate, arresting a murderer for murder. See? A

true "Jewish State" would be one where all people were treated fairly, as the actions of a peoples who believed in God as holy an' righteous. Not thieving terrorists killing people to steal further from our good graces.

Good God Man

Coast to Coast radio hosts are traitors who forbid the American Patriot to know: General Ahmad funded Atta, and that we have video of iron flowing like water from the towers

The HPV vaccine is being used officially (according to official FDA documents) to kill American female children, and Americans refuse to hunt to bill happy George Norry for it. No, Americans murder their very own children to please the silence George Norry offers, as fictions to hide their cowardice to defend Christ and Man as their very own family dying criminally under continued mortal threat. While the pro-child killer george norry is happier than ever conning to kill more freedom in voiceless America. Support my call to host for open line communications. George Norry isn't qualified to silence our cries for Justice realized. Make the call, be a Human.

Again, CBC, CNN, and FOXNEWS with the coast to coast radio host celebs are enemies of God as the Human race. Reagan would have guaranteed, with his War Crimes Act, to have publicly executed Romney's buddy for the torture of innocent people Cofer Black freely confesses to have kidnapped. Yet, CNN whores America to ride on that torture is Reagan's best bud. Romney, who's demonically evil religion IS centered on Satan's temptations against Adam and Eve, forbids a belief that black people are not worthy the godly freedoms granted all sentient beings, all because Romney has magical 35 year old underwear it is waged. DUMB. No, CNN forbids such truth in dialog, but to say, a Ron Paul newsletter of near twenty years ago, suggests he hates blacks because the Federal Reserve is printing money for their own private profit at the loss of every American wage earner.. blahblahblah. Bushite are OPENLY selling tons of heroin, and cocaine, while bombing our communities indiscriminately. Not newsworthy. Gates has taken responsibility for dropping 47,500 lb. of bombs in Baghdad to murder people indiscriminately in a city the bushite terrorist thieves OCCUPY as openly demonic. Gates will receive a death sentence by the will of US, as just another bush bitch zionist neocon war monger threatening Humanity with more indiscriminate murdering. P2OG - designed to KILL America with naked neocon terrorism disguised as

"Patriotic". Remember: near none in the entire Bush administration has been ever elected, yet, they bomb the innocent with lies for "Democracy." [The Innocent is ourselves for you beginners out there...]

KILL ANY OR ALL LOYAL BUSHITE ENEMIES FOR THIS:

/ / The AMSI statement continued: "The bombing entirely targeted homes of residents in the area and resulted in the deaths of dozens of innocent civilians, including women, children, and elderly people, in addition to wounding a comparable number." "This dastardly crime clearly demonstrates to the whole world the ugliness of those who committed it," the statement went on. "It shows that they are totally unconcerned about people's lives and do not care for the honor and esteem accorded to human beings in all divinely inspired religions." \ \

/ / Nazario separated a young Iraqi, [around the age of 10] known as "Number 2," from the group and led him into a bedroom where he [as loyal bushite enemy] shot him with his rifle. \ \

Calling all Lawyers, Judges, and Police Officers

We shall track down every bushite charged under all military "Judges", and publicly try them for execution as: aiming to and murdering, innocent people - to thieve from US all for ungodly zionist necon LIARS. While American gun owners from any number of gun groups will bill any and all bushite who grunt their satanic disapproval of freedom as Justice for All. We shall bring the perpetrators of 911 to Justice before Man, bar none. God is Risen - die bushite die.

Orders given to the bushite child killers of Haditha:

"anything that moves you kill and don't take any prisoners."

Nazi bushite lawyer's surmisal to war criminal "mad dog" Mattis: "If the defense version of events is true, dismissal of the charge is justified." No, they would be just as assuredly guilty of aiming to and murdering innocent people as enemy of Life bushite do with bogus dumfukker excuses. Killing bushite is saying to God, you really care. A bushite is an enemy of America who wars innocent Humanity for the escape of the zionist neocons for 911. traitors are the bushite soldiers - to everyone.

/ / no evidence has been publicly released that implicates the young men of the 1st Squad, 3rd Platoon, Kilo Company, 3rd Battalion, 1st Marine Regiment in any criminal activity arising out of events of November 19, 2005. Indeed, as there is none that exists, let those who say otherwise prove it. \ \

"None". See? a total dumfukker who's religion is lie to GOD about murdering helpless children, because the event is over as transpired. Yet, Gun Owners of America, WILL UNDERSTAND, this demon enemy of Humanity tells US openly, he gets off on indiscriminately murdering innocent people like those too, who committed 911 by zionist excuses such as: "shoot first and ask questions [answered by Coast to Coast radio hosts, CNN and CBC only] later." Or, a made up bushite enemy's pronouncement titled, "Rules of Engagement", an "official" excuse given to bushite who willingly shoot innocent women and children in the back, all because we were running from an explosion. Will you not join Johnny America and kill every last bushite judge or jury breathing who agrees such murderous conduct doesn't warrant an immediate death sentence during war time against TRUE EVIL?

In the documentary, "Why We Fight", bushite bombers are interviewed, who knowingly bombed, easily, more than thousand defenseless innocent people of Humanity indiscriminately downtown in Baghdad as precision first strikers. See them smile and laugh at knowing after the fact of understanding, they only murdered innocent families as their ungodly sadistic fetish, while lifeless CNN with FOXNEWS is letting them get away with murdering so many of US as Love forsaken, then ask yourself, do you feel lucky? punk? "See the bushite, kill the bushite", the Son of Man always says. Kill an ungodly bushite enemy, and be loved by God and Man as just an ordinary everyday run of the mill, True American Patriot Warrior aligned with Christ, the Greatest bushite biller of all time! Death to the bushite thieves who war for the traitor neocon liars, death to the Enemies Of Justice for God and Humanity. Evidence is Everything. Bushites are ignorant liars of evil.

' 'The "heroin lifers" are a group of prisoners, who were arrested under a Louisiana state law that mandates a life in prison without parole for the sale of any amount of heroin or possession with intent to sell.' ' How can Louisiana be so unjust to promote soldiers to push dope as bushite dumfuk losers, while addicting the citizens into private prisons for excepting the freebees?

Bushite push the dope, and American kids go to jail for Life in cowardice by the millions not hearing... Make the call, be a Human.

Fifth Fleet commander Vice Admiral Kevin Cosgriff denied that his ships had been close to firing on the Iranians. So did destroyer commander Jeffery James. \ \

Remember, these bushite are trying to con leaderless America into a another needless conflict, where we die for their growing riches as war mongering privateers of this, our 'popular will' contesting as defeated already.. Johnny America for Presidential Election Questions! Or, go back to dying needlessly then as dunfukked "Bushite", you losered.

I'm willing to Challenge America to a Presidential Debate on successes we've achieved as the governed for enlightenment. A person accused of a criminal offense without any evidence is innocent. We, as Americans, are appalled at the fact neocons have been able to steal our authority for so long to take America DYING into a needless, causeless war, but for to criminally plunder at the expense of anyone's innocent son or daughter.

Pro child killer George Norry, enemy of the American soldier, still blabs about how more must die unjustly for bin Laden with LIES, knowing full well, video of steel flowing like water from the WTC exists, and that General Ahmad funded Atta.

Why We Fight

Bushite are using Satanic Rituals While Torturing the Innocent

http://media.switchpod.com/users/democracynow/ftp/dn2008-0111-1.mp3

Bushite enemy to Innocent prisoners "Satan is your God now."
(seen on many bushite tanks "666" Praising Satan while
chanting, "whore yeah, whore yeah", while raping, thieving,
and murdering as antichrist enemies of EVERYONE - including
GOD, if can you believe what is witnessed before all.)

Bushite ENEMY interrogators use Satanic ceremonies ordered by
Maj. Gen. Geoffrey D. Miller, during the torture of
INNOCENT People to death they kidnapped, all because American
religious males refuse, "Christians", so far, refuse to kill
SATANIC bushite on sight for true freedom and Liberty. Do not
except the excuses of bushite nazis, that being openly Satanic
for Bush's Skull and Bones, and the Bohemian Grove, is to war
for Freedom and Democracy in the New american Century. The
Son of Man States to all religious PEOPLES: Kill a bushite to
defend God in America. If necessary, You, as a dying America,
shall give every last drop of Christian blood you have to bill
the unarrested Satanic General Miller and his praising DEMONIC
ilk for their murderous treasons against GOD and Man.
(Atheists included die too with these routine indiscriminate
bombings don't you know anything.) All because America still
refuses to demand Justice for 911. Make the call, be a man.
Al-Qaida = General Mahmoud Ahmad. Bush, "The Puppet", needs
to be executed for 911, putting mercury in American vaccines,
torture, Afghanistan, Iraq, and the Military Commissions Act.

U.S. Military Wanted to Provoke War With Cuba
ABC News

/ / In the early 1960s, America's top military leaders
reportedly drafted plans to kill innocent people and commit
acts of terrorism in U.S. cities to create public support for
a war against Cuba. \ \ And Proud Vietnam Vets are TRUE
fascist cowards, who'd kill our Families for stolen riches
given to billionaire war mongers who, to this day, bask in our

stolen lives living in Mansions, while homeless vets eat their own shit and die, worthless to the struggles against tyranny for God. Still cowardly as evil is always ignorant. More committed to colonies for the French like Haiti, than Freedom for the Human beings granted the rights to Liberty.

Joker to the Thief

We laugh with Jon Stewart regarding the seven Christians set up by the bushite to be al-kinda, to be put to death, or serve life term prison sentences as the Innocent. BUT remember, CNN is serious. Pro-zionist CNN, with salaries in the tens of millions, will lie cheat and steal from Christian Americans while smiling. Sending you to death while cashing in on all the 'free' loot. Funny?

(EXAMPLE: So what? that BILLIONAIRE Mitt publicly supports torturing innocent people to death without Lawyers for our Judgment with his nazi bum chum traitor Cofer Black?. Not CNN newsworthy as a defense for the People of America. Or how about that Black People can't be Bishops as a moron Mormon?)

Soldiers of Ummah - unite US all to defend America from the evil bushite thieving liars - the enemies of Justice, the enemies of Life. Bill a bushite grunt to save innocent lives, and in that process, be truly loved by mankind through Peace.

/ / He said they [the innocent humans] are like dogs and if you allow them to believe at any point that they are more than a dog then you've lost control of them \ \ Who'll save the life of an innocent Dog from the savagery of the bushite enemy grunter though...

If you overlay the 2007 video with the 2004 video, his face has not changed in three years - only his beard is darker. Are we suppose to just go in faith that bin Laden has every micro second timed perfectly greater than a computer meshed with clockwork oranges? Either it is the same, or it isn't.. EASILY provable. So why the ambiguity??? The ENEMY of GOD bushite war criminals can be found here, one way, or the other lying. Therefore, I want to engage in the Presidential Debates to demand Justice for all concerned..

Also, Evan Coleman of NBC is a blatant traitor as al-Qaida propagandist, and deserves to be publicly executed after a

They said, "oops".. defend the Boston Globe no matter what any person or persons say. If the Editor disagrees, love him anyway - if the paperboy shrugs, take the moment to explain - DEMOCRATIC ELECTIONS ARE CRITICAL. So says Johnny the Dictator. (realize: the tabulations haven't even been formally released, and CNN, CBC, and FOXNEWS told US who won before ANYONE was granted the opportunity to force such MEASURED conclusions. We were asking for a re-count before the count was even measured. If mathematically, 2 plus 1 doesn't equal 3, we are doomed. I want to participate in the President's Debate for Freedom's cause - Liberty and Justice for All. Paper ballots, paper ballots, arrests, arrests. Otherwise, we shall be politically entertained by McMcCain! Help us! help us! No funny.. 100 years of dying Humanity as murder victims sound laughable? "God promised land of Israel to Jewish people alone" The Satanic Rabbi stressed as a demonic liar enemy who speaks injustice against US as the innocent loved by a true God held in silent awe.

G-D wills a demand this quote verified by the Rabbi, if true, he will, and all other LIARS like him, be severely punished as a blasphemer against the Torah, the Quran, and Johnny - The King of Earth - Son to God. For a true Jew, as God wills through Law, loves all People to be free to live for happiness: be We Catholic, Hindu, or Atheist. Zionists of today, all abled men bill for Justice to defend our innocent lives, for, they as Satanic liars steal from US as the ungodly. Real Jews don't murder innocent people to steal their rights to Life for money. Nothing worse than a Zionist nazi "jew" with money they never earned, but stole in the names of the suffering Peoples. We, the Jew of Jews now kill 'lawless' bushite daily for the pleasures of all Humanity. Their surviving pro-nazi families faithfully cry as bushite out to "God", not for understanding, but in contempt of America and Liberty. It is always a shame on me and my Brother Jesus, but bushite die RIGHTLY to defend a desperate G-d as an innocently dying eternal Mankind. The People. Please, do not Forsake me.

Something Crazy Here

/ / Pakistan President General Pervez Musharraf has disclosed that Omar Sheikh, who kidnapped and murdered American journalist Daniel Pearl and is now facing death penalty, was actually the British secret Agency MI6 \ \ Mr Zubair was the lead investigator - Omar Sheikh was reported executed,

[JUST BEFORE BEING MURDERED] BBC had censored Bhutto's remarks in which she claimed that Omar Sheikh had murdered Osama bin Laden several years ago. - Man, imagine if she were questioned on what info she had based her conclusion, and had had the story that the BBC wouldn't have reported either. Again, CBC, CNN et al., are traitors pretending to be open for communicating the facts. just like the pro-child killer traitor George Norry, Ian Punnet, and the evil Art Bell.

/ / Daniel Pearl was kidnapped in Karachi in 2002 and beheaded by Al Qaeda's number three, Khalid Sheikh Mohammed. Mr Zubair was the lead investigator \ \

See? this is why the True American Patriot Soldier bills the unarrested for TREASON as a self confessed war criminal, Rommney's "lawless" undie buddie, Cofer Black and partners for raping American women, kidnapping, torture, and pre-meditated mass murder.

ignore our concerns to die for their continuing bounties of
lawless tyranny through demonic proxy. Happy George Norry is
truly a demonic evil force for enslavement of our species.

will also tell you, you can't do anything about it.
"Truthers" will near tell you the very same thing, again,
absent the two indisputable pieces of evidence, that point
MORE directly at who is personally responsible for closing
criminal investigations; not bin Laden. Bush and Cheney. No
no no no! the "truthers" scream, that would require taking a
stand for freedom against terror, a stand for justice as
America - and Americans would rather die, than admit their
cowardly dying nazi fascist savages for the Zionist Neocon.
Look at the child killer Tatum, pronounced by CNN as a "Hero",
yet, the bushite, (like Judge "mad dog" Mattis,) freely
confesses without remorse to slaughtering defenseless innocent
children at point blank range for his sadistically demonic
pleasures. And American Gun groups make little of no effort
to identify the culprits, so all of everyone alive can know
where these two true bushite enemies of Humanity can be found
'escaping'. Never. Tatum, the child killer will not live in
our world as a "free" bushite, found "innocent" of the crimes
he "freely" confesses to committing against Humanity and God.

Our Mr. Bush Jnr "We do not torture"
Our Mr. Bush Jnr. "Torture is not a part of our soul."

So, those that profligate acts of torture, should be brought up for charges by the True will of US, The Peoples People fairly verdicted? Bush should be tried and executed for ordering the torture of INNOCENT people to death as a capital mass murderer, a murderer 'escaping' the crime scene leads of 911 as unanswered questions of peace through liberation - garnered by Justice held indivisible so as the understood facts.Jack..

The pro-child killing Demon evil enemy neocon George Norry is a naked traitor to History: "..Show me proof that there are real demons" Remember: George told US he supported murdering all of the populated city of Fallujah, forbidden to leave, because, he said, we might some day pick up a gun. To be fair, he said he supported murdering all Peoples between the ages of 15 - 55, (no I.D. required though when blowing up too the infants and the elderly, as HIS air force Heroes did, while Art Bell states over and over again, stealing from murdered innocent others is what America needs to remain competitive. NO LIE. YOU die as an American for these demon thieves who refuse America open communications, while Ian Punnet, George Norry, and Art Bell bask in the fallen millions. Did you know: Art Bell screens his calls between breaks, and just lies to everyone with a con so blatant, it's sickening in it's true treachery. Listen carefully. Death to the lawless bushite enemies of a Just God, death to the enemies of Human kind.

Telling US what?, that it is a crime to not commit a crime?
It isn't only high treason against America the ungodly bushite
are guilty of, but of a madness held by those truly Satanic..

Easier approach to getting officially "started", is if we
consider the unmovable anchor issues as outstanding regarding
the 911 questions ever yet, publicly stated in regards to how
the event actually went down. Remember: Bush and Cheney
worked diligently, directly after the terror trifecta
occurring, to close current police investigations regarding
the case of mass murder in Johnny's New York City.
Suspicious? you say no, treason that is!, the treason of naked
blind tyranny against freedom to be ourselves.

Fight Back for Life to Win Humanity's Demands

Fight back for Life to Win against the national broadcasters like George Norry, CNN, and FOXNEWS that willingly forbid US to know what we need to know to defend ourselves from deathly terrorism. Video of iron flowing like water from the 911 towers exists for viewing, and, Al-Qaida = General Mahmoud Ahmad, So, pro-repuglicons want to see YOU die first as the Innocent forsaken, before allowed the right to defend freedom to the last bushite breathing. You Better Watch Out

God is coming to town for bushite nasties on his sled of make believe. A halted bushite, is a mercy on our souls, in defense of ourselves the innocent. The innocent that a 'lawless' bushite holds for ransom in pain dying. Hell hath no fury like that held against the bushite enemy, a savage

zionist criminal waging war against Life as our shared Universe, 'escaping' those who personally carried out 911. Bush, Cheney, Rumsfeld, Condi, and Myers as topped suspects. Other 911ers will tell you no no no, it's impossible to apprehend them all, for the arrows can go on for never. Bush personally closed criminal investigations on 911 immediately after the terrorist event of no questions occurring. The Bush administration were well aware of their PERSONAL dealings with the Taliban prior to the "Pearl Harbor" event conveniently occurring. And they were all most certainly aware of the plans in place to: within weeks, invade Afghanistan for Enron to stave off criminal proceedings. Walla! Johnny G wills every able bodied man, woman, and child to defend ourselves against bushite that indiscriminately murder ourselves for cash profit. Stolen profit. Ours. By the Will of US alrighty, we shall recognize...

The King Has Arrived

Look, let's "say" Peter Power didn't do the crime he did, and told us so for our own benefit, it would still SUIT Peter Power for him to be arrested immediately for the crimes of 7/7. For it is Peter that alleged HE was running terror drills at the same time and locations of those that murdered many good people from London. London England. Privately, with his bud at Scotland Yard he's saying. I'm sorry, all Bobbies do not want to kill indiscriminately so Peter Power will score a few extra BILLION dollars to hypno mug us to say we can't find'em no matter how hard we look.[*ILLUM I NATII*]. Americans are just poorly being spoken for, by those who lack the skills to win justice denied from the average Joe who knows so. So...

Americans. I am your leader. True, and skilled at the art of leaving it all up to US. Equals. That means the Taliban are warring in the defense of women, in defense of children, and in the defense of America. Now in Afghanistan, NATO leaves the nation undefended without a police force, since, the bushite murdered all the cops as acts of evil, leaving the tribes to hash it out together but alone near starving. Remember: the bushmob stole the emergency food from Afghanistan as a carrot, and in it ate our diplomatic dialog, while directly closing outstanding criminal investigations. While then blaming bin Laden single handedly pulling off the entire show without US knowing how so. Explosives were set by Laden?, for example?

Now, when any men gather for gaining liberty through acting for defensive purposes, their labeled "Taliban", translated: Students. The bushite war with heroin pushers who sell their illegal drugs on our streets, putting people in prison for

maybe 25 years as a felony third conviction. Do you know how many charges in California are called felonies, for the simple fact, that smoking a joint, can get you 25 to life?

A Dying God

Look, these soldiers who war for enemy Bush are not warring for freedom as Justice for Ourselves.

Evidence is Everything

there is more than enough supporting impeachment of washington insiders, but the news media refuses to say so to defend our dying interests.

Let's demand CNN, BBC and CBC respect our interests by publicly advocating accountability in respect to the terrorist acts of 911. Their position of neutrality is unwarranted in respect for our victimized selves due to indiscriminate warfare. The Iraq war has no legitimate cause, for they are warring to bring about an end to what they started/starting. Nazi fascist Cowards, as enemies to every man woman and child speaking.

Christ praises all men who bill the bushite thieving terrorists who war God and country to criminally escape the neocon traitors for the crimes of 911. Al-Qaida = General Mahmoud Ahmad. Die bushite die.

criminal like George Walker Bush that CNN stay undecided with.

America is truly dying by criminal command executed by traitor
Bush. I call a Veto for Bush as our going down for good
lawless Dictator. Nobody is lawless. The bushmob needs to be
arrested for treason on 911.

Oath to God

The bushite took an Oath to God and country to defend America
from war criminals, and instead, as cowardly neocon bush
bitches, commit war crimes of theft and mass murder against
the great Iraqi People. A soldier in the air force, is a
dishonorable nazi savage, worthy the death sentence for

assisting in bombing Humanity indiscriminately as zionist enemies of Christ, attempting to destroy Johnny's America with their provable DEMONIC LIES. Death to the bushite enemies of Life, who lawlessly war Creation with torture and slavery to 'escape' the neocons for 911. Your magic TV exec excuses don't mean squat when the facts are so readily available. But a bushite don't read, or write, or think freedom. Zionist enemies of ALL Our humanity, murder to believe US won't ever hunt them down by Law to defend ourselves over. Hammurabi LAWS to bill the false capital accusers first, and everything else will fall into place. [note: Hammurabi founded Civilization.]

Christ Begs America

If there is ever a reason Christ begs Americans to joyously, with pride, bill a bushite terrorist enemy of God, it is with the actions General Sattler took in murdering more than 200,000 defenseless innocent people in Fallujah. At youtube you can see and hear these grunts cheering "whore yeah" in praises to the demon antichrist, while committing horrendous war crimes Nazi Germany would have been proud to see the bushite die for. They walk through the city, killing every woman and child they find hidden. No Joke: first strike targets - Health Care Clinics. I am serious. [during the Nuremberg war crime trials, German Judges confessed with plenty of paper work, such action by Nazis would have warranted immediate death sentences] I have written on the demonic action of godless bushite of the antichrist for years while begging Humanity in joining We in hunting these demons down one by one for the glory and love of GOD, but, was not directly aware of all the video testifying the true will of US and God in demanding the destruction of bushite brayers to defend freedom as Life for everyone. Including America. check out youtube. These proud bushite child killers, can not be allowed to freely walk our Earth, after lawlessly murdering so many for nothing but to please the antichrist enemy of all humans Being. All the while chanting monotonously "whore yeah, whore yeah" Death to the bushite heroin pushers, death to those who war God's World indiscriminately with NATO, Sattler, Mattis, and Blount to escape the neocon zionists for the treasonous unholy crimes of 911 back in New York City, where thousands of whomever Americans, were murdered don't you know?

The part where pro-bush "American" soldiers drive over children to kill them for fun, all because they say our Humanity let's those responsible escape retribution for being Satanically evil as enemies to Christ, left me angered beyond words. While CNN, CBC, and FOXNEWS couldn't care less for those children love by our Humanity. Get me in the news my brothers and sisters, and I'll make the best of it. Just do it. Fear not for my life loves, fear for your life left to silently die in contempt of Yourself.

EVIL LIARS? Yup, demon evil.

/ / A record number of soldiers -- 109 -- have killed themselves this year \ \

We know the deaths are at least, 140 a week. When bushites die, Life cheers in joy over the saving of some innocent girls and boys. A good bushite is a dead bushite, halted from victimizing god as Ourselves.

I'd like to see Americans enforce the law of the land, and advocate the public execution of those responsible for torture. Again, the TV celebs pretend there is actually some possible meritable argument to support these truly demonic

actions as criminal. Bushite have admittingly kidnapped innocent people, then tortured them to death for the pleasures of doing so, 'knowing' also, that they couldn't be held accountable to US, the human species. All for hating us so as loved by Life. They say, we're too weak to stand for freedom's defense against naked tyranny - While Johnny says otherwise: Death to those who advocate torture in war time, for there is no legitimate argument, but for the practice of censorship to understand why the Laws against torture have never failed for defense, but, for the treasonous actions of a Bill O'Really, who recently reported internationally that the majority of Americans support torture, because it means.... blahblahblah -- Bill Bill. For, it warrants the death sentence in America. Still. Bushite are the enemies of US all my friends, enemies of US all.

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy documents dated September 9th, 2001, originating from Condoleezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegation, thereby, securing criminal invasion.

The Whole Truth - Christ Claims Torture Illegal

Torture IS illegal, yet, the TV threat is trying to teach America that We, The People, haven't spoken on this issue since Law came to be. Please, I beg, please fight back for Humanity by not excepting a zionist's betrayal to G-D on this subject. TV celebs are programming that waterboarding, head slapping, and the burning of innocent people to death for a treasonous bushite's satanic pleasure, is arguably in support of defending my dying America, through assisting in the neocon's escape for 911. Death to the torturers of innocent people, death to the enemies of Christ in America.

bushite torturers with glee. America will pay millions a head
for each bush bitch nazi traitor to children as family. The
neocons will all be tried to death for treasons like 911, and
for supporting a slaughter against Iran. For Petraeus has
giving US no evidence to form our conclusions on the validity
of his therefore, TREASONOUS statements. Bushite are
murderous thieves of Iraq and deserve by the measurements of
any civilized man, a action worthy of death as demonic, before
allowed to further steal from our Humanity. SAUDI Bush bitch
Buford Blount gave out 170 tons of explosives to KILL marines
with, and Petraeus doesn't call for his rightful death, nor
for death to be brought to bushite soldiers who kidnapped bare
footed children to be beaten to death on video tape. hundreds
of thousand of guns were 'lost' in Iraq through bushite
management skills, and liar Petraeus speaks no outrage.
Private death squad goons are committing crimes against GOD,
and Petraeus blames no one. MORE than half the monthly bill

even accounted for by ANYONE, but for the thieves at the
Pentagon who are ROBBING america with Petraeus' silence on the
life and death issue of America. Again, Petraeus knows the
bushmob did 911, and would rather kill your stupid american

to the false accusing bushite, death to the enemies of
America,

al-Qaida = General Mahmoud Ahmad. Torture IS against the law,
and deserves the death sentence. Bushite Cofer Black MUST be

put to death for being a Satanic demon enemy of Human life, who freely admits he tortures innocent people to help escape the neocons for 911. Bill a bushite for America, bill a bushite for God. What do Texans own guns for, if not to bill a bushite child killer like those in the evil enemy pro-bush air force. Bushite repeatedly have been found killing innocent people without apology,

and now, as reported, the narco-gov has put to death at least twenty Afghans, who were claimed, without trialed evidence, to be guilty of such actions. The narco-gov refuses to call for the execution of known bushite who torture INNOCENT PEOPLE, or rape them, or thieve the 80% of charitable aid given from Canadians. DEFEND THE PEOPLES OF IRAQ FROM BUSHITE NAZI DUMFUK GRUNTS

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

-

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Therefore, to survive US all for something better, halt the 'escaping' murderous bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

The Lawless thieves of Blackwater hire known war criminals from the most brutal of tyrannical regimes to carry out the neocon agenda of 'freedom' for 'Iraqis'. American tax payers pay $1,222.00 per death squad goon, per day, while billing their sacrificing kids, tens of thousands for up and coming medical costs not covered. Did you know they, the incompetent bush regime, still haven't fixed Walter Reed? Who really cares right?

ABCNEWS.com : FBI Called off Terror Investigations

A question Johnny Wizard has for America: Tell me, is this not a treasonous act - for Bush to close criminal investigations, immediately after the terrorist crimes of 911?

Shouldn't the demon enemy be put to arrest for that godless act alone in this forsaken dying world? A world left instead suffering further the tyrannies of the war criminal ENEMY of all Human Life?

A refresher: the neocon will tell you openly, they live to lie to the Public for cheating and stealing by murder of US as proxied, innocent peoples purposefully enslaved by a made ignorantly entranced TV audience that is repeatedly reminded, we have no power worth respecting.

CNN, CBC, and FOXNEWS aren't taking are calls presently, but just lie and tell US they do. Look to see, almost all political internet traffic condemns Bush straight to hell well he rightly belongs, but the polls still say no - WE, seeking for Just cause, are the minority.. just roll over and die for the neocon betrayers to god and country, life and loving.

Support my call to demand our voices heard for Just causes, or go die silently to the grave prisonized in a zionist neocon military dictatorship

True Enemy of Liberty

I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really set ourselves free with..

"Al-Qaida" = "General Mahmoud Ahmad"

A neocon bushite soldier is a true enemy of Liberty for America. They as DEMONIC LIARS, are dishonorable THIEVING nazi savages that bomb our innocent families with criminal intent to MURDER. Enemies of Life and Love, a dead bushite is an enemy of GOD halted from victimizing further our loved brothers and sisters, mothers and fathers. Death to the neoconner bushite dumfuk grunting liars who bomb our families, death to the enemies of Christ who war for the escape of the true culprits responsible for 911. TRAITORS.

See my friends, this is why I, plead
for all able bodied men, to kill treasonous bushite on sight, for every time you love God by defending the innocent from murder, (the innocent whom any pro-bush corporate professional hold in total self contempt,) you save REAL peoples lives, and you defend God's good name to love God as ourselves committed to true Liberty. Bushites are enemies of freedom, enemies of God, and worthy of death, before allowed to further bomb people indiscriminately like the commanders of NATO order day after day without risking instant frag because, bushites are blind cowardly thieving nazi fascist savages, brain damaged, who believe as satanic demon whores of Molech, they can con all of US including me forever, just like dare dubya. Dumfuks to their bitter end.

To Kill a Bushite, is to be Heroic

American soldier: Your enemy is TRULY LIAR happy George Norry. The demon knows of Ahmad, and forbids any guest from uttering such understandings in defense of the DYING dumfuk grunt nazi - Good riddance? Do you care that your country men are dying for the criminal zionist neocon as traitors? Support my demand for US to be heard GOD DAMN YOU. ...or die by the hands of Humanity.

I again, beg Humanity to speak in opposition to Amerika in the defense of our innocent forsaken dying lives. CBC producers know the bushmob did 911 but lie with propaganda to kill our families for the ungodly as thieving neocon enemies. They refuse to inform ourselves that Al-Qaida is General Mahmoud Ahmad, as according to the FBI. Or that video of iron flowing like water from the WTC towers exists indicating without doubt, the bushmob enemies did 911 as TRAITORS.

Today, there is nothing more i wish, than to hear bushite nazi savage thieves for the neocon die rightly, before the innocent they target for murder. All in an attempt to 'escape' those truly responsible for the crimes of 911 a bushite whore practices, as an enemy to Christ and America.

Evidence is required to convince ourselves on who is good or evil. Period. Don't like it? Too bad. We are on charged!!

I AM AMERICA

Sattler ordered the murder of more than 200,000 innocent people in Fallujah, and they speak nothing but lies on how such demonic behaviors are godly as just ignored. Our Lives forsaken, as they hold their very own to die sacrificed for the unelected traitor neocon. I AM AMERICA.

America MUST demand war crime trials for the propaganda CNN broadcast "Anvil of God" regarding the demonic actions of Bravo company. They forgot to tell America importantly, nazi forces forbade the population from leaving, gunning originally for everyone between 15 to 55, but sided instead to murder infants and the elderly too, when beginning the Zarqawi campaign by bombing hospitals as first strike targets. As such, the bushite murdered many good doctors and nurses - so all to send bushite snipers on hospital near rooftops gunning for every seriously injured woman and child who tried to get help from the Humans. While driving down residential streets, grenading every home of humans being. Remember that when you hear these dishonorable bushite thieves die rightly for god and country.

[Sideline: It's been thought the reason why rescue efforts in New Orleans were provably sabotaged by Rove, was an attempt to make the blue state, commi red.]

See?.. women and children, who the enemy bushite forbade to leave the city with their innocent families, who, as were all living in the entire city of mosques conveniently found labeled therefore by bushite, "Insurgents" (or did leave earlier, and had our innocent families reportedly indiscriminately murdered two miles or so down the road by the most evil war crime act of recorded history.)

Importantly, there was no evidence made awared of, that legitimately offered PUBLICLY, from the UN or the U.S. to indicate a refugee camp anywhere, but for maybe a small group photographed - then some belligerent bushite bogus pocus - all headed up by a blatant traitor to America named Sattler. Reminder: after the indiscriminate carnage, they couldn't find near anyone for weeks who would take money offered to any citizen freely who survived for their satanic benefactor. So insanely disturbing as ungodly evil doing, war criminal Sattler called a halt to giving out charitable considerations from Americans to the unseen surviving victims - all in an 'escape' attempt to make it look better for US, the paying audience. So, where did our stolen values go to then eh? (Sattler's pocket no doubt.)

deliberately!! In fact, he wrote a card to a dead marine's
family, testifying that he murdered the innocent young girls

Will YOU, as an American man, allow these two bush bitch nazi
punks to survive as furthering the commitment of more war
crimes against the INNOCENT? as a zionist neocon's "Hero"?
Will You defend our girls? Peoples of Earth! Help Me save our

unworthy? Your call bud...

What Freedom do bushite war the innocent for to rape, pillage, and murder as blind neocon followers of the 'lawless' demon antichrist? Eh?

"Al-Qaida" = "General Mahmoud Ahmad"

CBC, CNN, FOXNEWS, the Zionists, purposefully work to LIE to the dying American Marine, that the ungodly bushite wars to escape the 911 perpetrators hold some hidden benefit, as the TREASONOUS neocon thieves freely rob from both undefended American and Iraqi citizens, The neoconner, Mr. Bush closed criminal investigations on 911 immediately after the event occurring, while Billions are stolen through 'ear marks' and TVed Americans have no care known to speak of.

Done with American tax paid for rapists, torturers, and terrorists like Aegis who dress up as al-Qaida to murder godly lovers of Justice. CNN, CBC, and FOXNEWS would rather kill the Marine, than teach them where to aim their weaponry of liberation.

CNN, CBC, and FOXNEWS speaks NOTHING to demand the execution of hiding as 'British' soldiers who on prized video tape, beat to death young barefoot children for erotic fun, nor on mercury vaccines not banned minus "The President" in name. BANNED if God were Loved by America, or that the man or woman on the street would financially support my rise by popular command. Would you leave me to know, I will be left without a home to rest, or food to feed my hunger? Would an American?, I ask all Peoples of Earth to witness the American's contempt for Our worthy lives. Sattler ordered the murder of more than 200,000 innocent people in Fallujah, and they speak nothing but lies on how such demonic behaviors are godly as just ignored. Our Lives forsaken, as they hold their very own to die sacrificed for the unelected neocon. I AM AMERICA.

911 Leaders Saying They Are Jesus
http://rss.nfowars.net/20070802_Thu_Alex.mp3

911 financier Ahmad = al Qaida, and we have molten iron on video flowing like water. Demon Bush Jr. gave US zero, while closing criminal investigations immediately after the terrorist offense of no questions!, no questions! Case closed. But no, the American media rarely if never mention these facts, while insisting Bush's deathly war criminalling is as only a puppet, look away! look away!, leaving without challenge on the, teen like naivety of wearechange.org's consistence that "we", who demand justice for 911, who might also hold the opinion that zionist behavior does not blindly equal being Jewish, should not be allowed to speak Justly for our public challenge, because bushite Amerika has no defense for censorship against ANY of our judicial wanting, as documented positions on behalf of the suffering to death victimized public. Why? Because we are Just. Well, I try to be anyway. (I've spoken as written for YEARS, with NO ONE WORLD WIDE countering in the public realm, but for the strangely odd insult. Bushite do exist, don't get god wrong, but dumb evil bushite brood in darkness with censorship like all zionists do, selling to be 'godly' honorable men, when in truth, they'd murder anyone of US for a stolen nickel given to a neocon. I, as open line talk radio producer, win every time, always, forever, never fail. [er.. yet..] Why? Because I treat YOU fairly. America should do the same. We are all in this together. Zionists like robbing then killing defenseless innocent Christians, and Jews, while just lying that they don't without scened factual TV perception. Demon 911 WITCH, zionist Condi 'okayed' the dropping of more than SEVEN MILLION land-mines on Lebanon, purposefully done to indiscriminately murder ourselves for generations. Jason might foolishly call you an "anti-Semite" in fear for speaking such not understood truths. And importantly, not because they can publicly disagree so in open debate, so sides to not allow US to rise in acknowledgement to bring about Justice as demanded, for ALL as ANY. (Gee, who's the neocon now eh? (we're all sinners.))

If Americans really want 911 Justice:

Help US out by putting the video of molten iron flowing like water out there in the minds of any who have doubts, tell them hypno mugger Bush, gave US zero to substantiate his public falsehoods, and tell US about Ahmad as more than a passing fact that means little of nothing, then, WE, The People, will believe this has more to do with Justice for Humanity, than the American suffering movie goer ego being, "leading the free world", by voicing no public concerns on the criminality of the bushmob shysters. Left happying in the George Norry, as a TRAITOR to a dying America not hearing. An enemy of Liberty to the, tried to be free soldier, who is led TO DIE still un-wittingly by lie for the misfortuned neocon bounty of global tyranny through coast to coast story lining. Look, the peenackers will tell you freakishly, that they work to lie to us all, to take advantage of a plain to view weakness. I swear. The neocon wants to con your kid to die for a war lied into with as our stolen goods. We lose as crime victims, while they win free accountability because, (well... I'll just let you finish that one liner sucker punch..)

Do Republicans mean to bring health care suffering out of control with no market values, because truly they have little of no skills when it comes to fixing their own buffoonery? Hmm... unless they count to hide the bean all together, fixing the game intentionally to have US lose by remote controlling stupidity! 300 channels, and nobody's taking our call from the space cased file of, "what's this freedom war against Life for again"? Look, is mercury as a medicine good or bad do you think?, let's ask someone for Christ's sake. Or for Deb, Henry, Bill, Beth, Mark, Carol or Tony. Johnny Wizard, our everyday normal magic man of folklore, opens up the stage to ask all the people together, "Are we Man or machine to take this all lying down quietly"? We need to talk about what a King like me, is doing in a place like this, under appreciated, and left alone without my home, dying for a break in radio programming, as President of the company that started the sands running, Shareware Earth Co., a god-like production of miracle and wonder!! You just participate, and you won't even believe how good we could have it, Rejoice, for Johnny Jesus has come down for diplomatic talks. Give away! Give away!

Again, CNN, CBC, and FOXNEWS, (who advertise their listening) suggest G.W. Bush and Co. have publicly acted nothing warranting immediate arrest, or have openly supported the great Kucinich's plan for Impeachment, and consequently, are

leveraging America into this mess 'because' we were portrayed as sold to the U.N. for freedom as Iraqi's Grand Strategy. BOGUS! Nothing about the PLANNING of killing people indiscriminately for financial criminal gains as bonafide terrorists, for we had unrestricted access prior to dropping bombs for mangy LIAR neocons. ORHA. I have yet heard FOXNEWS complain in pains of liar BUSH personally being the al-Qaida cause responsible, (like Alex Jones sells foolishly falsely also) More than a million INNOCENT people have been murdered directly by the criminal action of the broken Bush Rule, UN-CONSTITUTIONAL! / / Why did the Army, within three hours, return to tell neighbors that this was the work of "insurgents" apparently without any investigation? \ \

See? in Johnny's world, that "the Army" person would have been the FIRST questioned, then likely arrested. But look, it hasn't even been acknowledged as evil doing in progress. (Every time you read, "The Army says..", become aware.)

It should be noted, ungodly bushite enemy commanders call every car bomb in Iraq, al-Qaida, without even pretending to do freedom operations for YOUR protections, as just another dead body in the rubble. (Likely caused by Aegis for cash profit.) So then, look my friends, Amerka refuses to demand justice to save the lives of their very own sons and daughters. And when, WE, Humanity, beg them to answer our calls for accountability, they refuse but for to LIE, stating publicly, "God" would grant robbing from innocent others, to enrich their great unholy tyrannical demon liar. They know easily that the bushmob did 911, and they like it. No, they crave it. The chance of murdering their own "loves" to enslave the human race for the antichrist, sounds great, just as long as they can get themselves in on the take.

If the sacrifice of soldiers lives is going to mean anything, it going to mean how long it took, Americans to care for themselves as really worth something. Today, there is nothing more i wish, than to hear bushite nazi savage thieves for the neocon die rightly, before the innocent they target for murder. General Ahmad escaping un-accosted for the neocon enemies.
Not relevant? Your Constitution is laying undefended, a
National act that can not be done by any other terrorist group

Death to the bushite instead of the innocent loved in God

/ / IntelCenter issued a tacit warning \ \

Don't EVER forget, the private company Aegis has been officially found dressing up as AL-QAIDA! - AL-QAIDA! - AL-QAIDA! to murder pro-western forces in Iraq, while desecrating Elvis. Elvis Presley. If you don't love Elvis, there is something seriously wrong with America.

Time is Up

Al-Qaida Kagan "Al-Qaida, their whole strategy revolves around generating sectarian violence, because that is how they embed themselves within local communities "

What?? For friendship?

What is the demon TRAITOR to HUMANITY in America saying about the reasons he embeds an Iraqi under 50 odd divergent NEOCON labels? Wouldnt most Al-Qaida take great joy in killing a bushite nazi grunt like any real Family man would also? These LIAR dumfuk grunts who cheer "whore yeah", routinely, can barely read or write, so, how possibly does this FOXNEWS expert, expect such ungodly antichrist forces to delineate Al-Qaida from the local communities they PROVABLY indiscriminately bomb as Satanic?

Kristol and Kagan: Put Everything Behind Escalation So We Can Bomb Iran and Syria

Kristol and Kagan MUST be put to death for treason against America, treason against Life, treason against GOD. They both have continued to Publicly advocate murdering more innocent peoples indiscriminately they call, "Al-Qaida", all to rob further monies from an undefended America. It is easily learned by any as all, the victims of bushite tyranny are exclusively, US, The People, guilty of nothing but our shared love of GOD. Remember forever: there was NO JUSIFIED REASON

for bombing PEACEFUL Samara, NONE! that bombers confess was done as ordered by Allawi INDISCRIMINATELY, all for getting killed Marines sent in later for more stolen cash from America. P2OG. [hundreds of bushited Marines died rightly almost immediately - (wow eh?)] A Satanic action, Kistol and Kagan, both blame without thought to question on "Al-Qaida".

The action of Satanic bushite bombers targeting Samara as war criminals is FULLY documented.

Death to the bushite neocon LIARS, death to the enemies of Freedom for Humanity. My beloved friends of GOD, please, when you see the mute bushite, kill it for Christ, kill it for Love, kill it to defend your loved family. (Any soldier who doesn't proudly talk of how it hunts those British soldiers who kidnapped barefoot children and victimized them on video, is a soldier worth destroying NOW to defend GOD and Life from needless death.) I HATE the REAL demon antichrist Christ says.

Kagan "You rarely know in the middle of a war, what the outcome will be."

Johnny Wizard the Creator "I win."

/ / The US has also been backing some pro-western politicians like Iyad Allawi \ \

Do you know who Allawi is? Allawi confesses to blowing up school buses filled with children for "CIA" money. NOT THEORY. HE ADMITS IT AS AN ACTUAL SATANIC DEMON! Allawi, the truly insane mad man, confesses to having ordered the murder of doctors and nurses that treated wounded god loving women and children from Fallujah. It was these DOCUMENTED acts that had him thrown out of 'the CBC, CNN, and FOXNEWS TV expert scene as workable', all for fears that US humans might actually wake the fuk up on WHO is Our True Enemies here. All three, pro-private-bank zionist news stations are well aware that the bushmob did 911, but lie to YOU as forsakenly dying for their growing riches and world wide broadcast fame.

CBC National Newz - July 11th 2007 'tens of thousands have died in Iraq since the war against truth started.'

Anyway, these two Allawi incidences are fully documented, look it up, then demand the "The US" pro-western politician person quoted as supporting Allawi - be found guilty of CRIMES AGAINST HUMANITY, Demand publicly, having the neocon zionists EXECUTED by America, for America, as America. A Just America that defends America from criminal madness. Or don't. Death to the bushite, death to the enemies of Man I say.

The Pentagon's Power to Jail Americans Indefinitely
http://www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun, paid for by the silent American tax payer. Americans refuses to bother making a simple phone call to Coast to Coast to raise some concern. THEY don't. They refuse to hunt bushite down in their streets for death to defend the innocent held indefinitely against GOD'S will. Death to the bushite, death to Johnny's godless, lawless, fascist enemies of FREEDOM.

Look, CNN, CBC, and FOx News know the bushmob did 911, but will smile while watching your son or daughter sent out to die CONNED by their demonic hatred for US freely communicated. How do I know this? I made the effort of making the phone

calls.

Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just

simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced

hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of iron running like water moments before the first tower fell is freely available for download all over the place.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Life
begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going

into lawless tyranny, !makes no sense! Where is corporate
America on our issues when OUR free speech is ruled by the
irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back

Justice isn't complicated. A person accused of a terrorist
event without any evidence, has our accuser a bushite, who
should be watched carefully until verifiable conclusions are
done by the understanding of fact. Not faith. With George W.
Bush making real decisions in faith, expecting us to believe
as corporately broadcasted unabashedly unbiased, that he
is not a deliberate incompetent monster war criminal
of unfathomable evil?, who is just too 'stupid' to understand
why we are innocent until proven otherwise?, is really
something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he
played no part whatsoever in 911, then later, offered himself

First, HD doesn't stand for high-definition, it stands for hybrid
digital, as you should know since you spend an awful lot of time
worrying about it.

Second, copyrights should be abolished. They act to suppress
creativiity rather than promote it, they go against nature, and they
violate the state prohibition against imposing religion because they
force the public to respect the sanctity of an immaterial concept.

During the last solar cycle, I used to receive a lot of SSTV on 20 meters. Now that that band doesn't propagate so well, I haven't found any SSTV in a long time. I've been checking the 40, 80, and 160-meter frequencies listed at http://www.tima.com/~djones/net.txt lately and not only do I never find any SSTV, but often there are QSOs close enough to those frequencies that nobody could go on air there if they wanted to. Once in a while I scan the entire band, but I never find anything. Am I just checking at the wrong times, or did everybody give up? The last time I was getting SSTV regularly, there were a lot of people switching to digital, and with my antenna at the time I could never get a clean copy. But I know what digital SSTV sounds like, and I'm not even hearing that now that I have a better antenna.

Because if wipes out adjacent 'weak' signals and the IBOC station sounds like crap if you are far enough away at night for sky wave to effect the signal at all.

For instance I live about 80 miles east of WHAS on 840KHz, and after local sunset they are unlistenable. Since they carry adverts for Lexington businesses, their business model clearly counts on revenue from Lexington. But most MW receivers fold after dark. Since I don't listen to MW it really doesn't effect me. But as an engineer I like to see effective and if possible elegant solutions. IBOC is neither.

Digital will have a place in the future of radio, but IBOC is the wrong solution for a non issue. With MW station revenues dropping, this isn't going to help them.

Originally a working man's boot developed to make riding and working safer for the cowboy, western boots have come a long way. Far from home, home on the range, far from chaps and spurs, and even farther from the rodeo circuit, western cowgirl boots are a fun, feminine, and flirty way to dress up, or down any outfit this fall.

There are vintage cowgirl boots, dressy cowgirl boots, and rough out cowgirl boots. Stiletto heel or one inch heel. Square toe or pointed toe. Distressed leather or lizard, or python, or ostrich. Pink piping is being shown on a distressed brown leather cowgirl boot, and teal piping on shiny black leather cowgirl boots. Scrolled wingtips are available in blue, red, green, and pink. Low rise or tall rise, fringed or buckled, take your pick. Go online and have a pair of custom cowgirl boots made. You can actually create your custom cowgirl boot from the bottom up, the heel, toe, top scallop and stitch pattern. Anything goes.

Western theme fashion is making a hit for fall 2005 and is being called by some the "new sexy". Cowgirl boots are being shown this year dressing up short denim skirts that are being worn with babydoll cami's and cropped velvet jackets, and with denim dresses accented with ornate silver and turquoise buckle belts. They are seen dressing down Mexican inspired lush silk crepe de chine dresses. They are being worn with multicolored tier skirts with sexy lace tees and short denim jackets. Blue jeans of any rise, low, medium or high are being shown with ornate embroidery worn with western inspired leather tooled belts and fringed suede
